# 1 INTRODUCTION

- 1.1 Planning shapes the places where people live, work and visit. As such, consultation at key stages in the plan-making process is a crucial part of preparing a Local Plan, and a statutory requirement.
- 1.2 The role of the Local Plan is to set out the Council's vision for the plan period, up to 2033. It helps to shape the future of the district by setting out policies which guide the development of homes and businesses, protect our important green spaces, landscapes and historic character, whilst also seeking to provide for the needs of all communities across Tandridge.
- 1.3 In addition to the evidence gathering process, a crucial stage in the creation of the Local Plan is the opportunity for residents and other people with an interest in the district to have a say on the Plan through consultation. This enables the Council to consider the views of the community, stakeholders and all interested parties, in the preparation of a Local Plan while balancing it with evidence.

## *Preparatory Consultation and Strategy Formation*

- 1.4 At the Planning Policy Committee of 12 September 2013, Members agreed to commence the preparation of a Local Plan. Once adopted, the Local Plan will replace the Council's current adopted Core Strategy (2008) and where relevant, will replace existing Detailed Policies (2014).
- 1.5 The Council undertook the first stage of formal consultation between December 2015 and February 2016 following on from the agreement of the Planning Policy Committee on 10 December 2015. The Local Plan: Issues and Approaches consultation presented matters for comment, including issues facing the district, the objectives of the plan and a vision. The document focused on six potential spatial strategy approaches which could be taken to achieve the delivery of jobs and homes for the plan period up to 2033 and several policy options to assist in guiding any development that takes place.
- 1.6 At the Planning Policy Committee meeting on 31 October 2016, the Council approved the second stage of formal consultation - Local Plan: Sites Consultation. Both the Issues and Approaches, and the Sites consultations accorded with Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and the Localism Act 2011. Consultation was carried out in compliance with the Council's [Statement of Community Involvement](#) (2015).
- 1.7 In March 2017, the Council agreed a [Preferred Strategy](#), which set out guiding principles of the spatial strategy by which decisions would be taken when preparing the plan. Part of that strategy included a commitment to identify and allocate a suitable location for a Garden Village development. The concept of a new or extended settlement had formed part of earlier consultation, through Approach 6, in the Issues and Approaches (2015/16) consultation and through the consideration of South Godstone and Blindley Heath in the Sites Consultation (2016).
- 1.8 Whilst both previous consultations referred to the approach / prospect of a new settlement, they pre-dated the Council's formal decision on the Preferred Strategy for the Local Plan but played a key role in helping to inform it. The Council therefore felt it was appropriate to

consult further to share information, specifically on the potential locations for a Garden Village and proposed vision and objectives specific to the development.

- 1.9 At the Planning Policy Committee meeting on 27 June 2017, the Council approved a third stage of formal consultation – Local Plan: Garden Villages Consultation which took place for 8 weeks between August 2017 and October 2017.
- 1.10 This consultation also accorded with Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and the Localism Act 2011 and was carried out in compliance with the Council’s [Statement of Community Involvement](#) (2015). The consultation sought the views of a wide range of parties including statutory consultees (e.g. government departments, parish councils and other local and neighbouring councils), development professionals and the public.
- 1.11 The Regulation 18 consultations sought views on what the plan should include; the types of policy, the spatial strategy to be followed and the possible locations of both the Garden Village (later called the Garden Community) and individual sites. A Statement of Consultation setting out responses received and actions to be taken in progressing the plan was reported back to the Planning Policy Committee at the appropriate time, in each case.

#### ***Publication of Our Local Plan: 2033 & Pre-Submission Consultation***

- 1.12 At the Planning Policy Committee meeting on 3 July 2018, Members agreed to consult on Our Local Plan: 2033 in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and the Localism Act 2011. Representations to the consultation are considered in accordance with Regulation 20 of the same legislation.
- 1.13 This iteration of the Plan, often referred to as the pre-submission version, represented the full and final draft of the plan to be publicly and formally consulted on prior to its submission to the Planning Inspectorate. The Planning Inspectorate is integral to the plan-making process and is appointed, on behalf of the Secretary of State, to examine a Local Plan for its soundness and legal compliance.
- 1.14 Decisions relating to the progression of Our Local Plan have been made by the Council through the Planning Policy Committee. Minutes of meetings relevant to the preparation of Our Local Plan: 2033 are included at Appendix 1: Committee Meeting Minutes.

#### ***Statement of Consultation - Our Local Plan: 2033 (2018)***

- 1.15 This Statement of Consultation serves the dual purpose of detailing and reporting the most recent Regulation 19 consultation on Our Local Plan: 2033, as well as meeting the requirements of Regulation 22 to detail the wider consultation process which has taken place since 2015.
- 1.16 A key output of this report is a schedule of proposed modifications which sets out the alterations the Council are proposing to make to Our Local Plan: 2033. The proposed modifications are made in response to the comments most recently received, and which must be considered by the appointed Planning Inspector, before any formal alterations to the document can be made. The proposed modifications are included at Appendix 9.

## **2 SUBMISSION OF DOCUMENTS AND INFORMATION TO THE SECRETARY OF STATE – REGULATION 22**

2.1 This Statement of Consultation explains how Tandridge District Council has undertaken consultation to produce Our Local Plan: 2033. It explains how on-going consultation and engagement has shaped the Local Plan.

2.2 This Statement of consultation forms one of the proposed submission documents referred to in Regulations 17, 19 & 22 of The Town and Country Planning (Local Planning) (England) Regulations 2012 and has been prepared under these regulations. Regulation 22 (1)(c) and (d) 2012 require that a statement of consultation, including the following information, be submitted alongside development plan documents:

- which bodies and persons the local planning authority invited to make representations under regulation 18 (Section 4 and Appendix 6 ),
- how those bodies and persons were invited to make representations under regulation 18 (Section 4 and Appendix 2-5),
- a summary of the main issues raised by the representations made pursuant to regulation 18 (Section 4, Appendix 8),
- how any representations made pursuant to regulation 18 have been taken into account (Section 4, Appendix 8),
- if representations were made pursuant to regulation 20, the number of representations made and a summary of the main issues raised in those representations (Section 5); and
- if no representations were made in regulation 20, that no such representations were made; and
- copies of any representations made in accordance with regulation 20. (Appendix 10)

## 3 CONSULTATION REQUIREMENTS

### Planning legislation and policies

#### Legislation

- 3.1 The statutory requirements for consultation and engagement are set out in the Town and Country Planning (Local Planning) (England) Regulations 2012.
- 3.2 The most recent consultation on Our Local Plan: 2033 accorded with, and was carried out under Regulation 19 (publication of a local plan), and is the final stage of formal consultation before submitting the plan to the Planning Inspectorate for examination and states:

*19. Before submitting a local plan to the Secretary of State under section 20 of the Act, the local planning authority must—*

*(a) make a copy of each of the proposed submission documents and a statement of the representations procedure available in accordance with regulation 35<sup>1</sup>, and*

*(b) ensure that a statement of the representations procedure and a statement of the fact that the proposed submission documents are available for inspection and of the places and times at which they can be inspected, is sent to each of the general consultation bodies and each of the specific consultation bodies invited to make representations under regulation 18(1)<sup>2</sup>.*

- 3.3 Legislation relevant to earlier stages of consultation, specifically Regulation 18, is addressed through previous Statements of Consultation, see Section 4 and Appendix 8.

#### Statement of Community Involvement (SCI)

- 3.4 To help ensure legislation about consultation is embedded into the plan-making process, Local Planning Authorities are required<sup>3</sup> to produce a [Statement of Community Involvement](#) (SCI). The Council adopted its most recent SCI in June 2015 and has been complied with when carrying out relevant consultation in plan-making.
- 3.5 The SCI serves as the Council's Charter on planning-related consultation, focusing on those steps that will be taken when carrying out consultation. It also identifies measures which could be taken, over and above the baseline statutory requirements, to increase the level of involvement and awareness of the plan, its policies and proposals.
- 3.6 The consultation on Our Local Plan: 2033 (Regulation 19) and all stages of consultation has complied with the SCI. Further details are set out in Sections 4 and 5 and Appendix 8.

---

<sup>1</sup> All copies of documents were available from the outset of consultation and published on the Council's website. A full suite of documents were also available in hard copy at the main council offices, with hard copies of the statutory documents available at all libraries across the district as well as Redhill, Horley and Edenbridge Libraries in neighbouring council areas.

<sup>2</sup> Details were set out through both the formal consultation letter issued to interested parties, as well as the Council's newsletters and other published formats such as posters, website and leaflets.

<sup>3</sup> Section 18 (Part 1) of the Planning and Compulsory Purchase Act 2004

### *Local Development Scheme (LDS)*

3.7 Section 15 of The Planning and Compulsory Purchase Act 2004 (as amended) requires the Council as a Local Planning Authority (LPA) to prepare and maintain a ‘Local Development Scheme’.

3.8 A Local Development Scheme (LDS) has two principal purposes; to inform the public and stakeholders about documents that will make up the Local Development Plan for Tandridge District, and to set out a timetable against which it will be prepared. The LDS also helps interested parties to know at what stage they can formally feed into the plan-making process through consultation.

3.9 The Council’s most recent LDS was adopted in March 2018 and followed by a minor addendum considered by the Planning Policy Committee in December 2018. In response to the time it has taken to prepare evidence bases to inform the Local Plan and the spatial strategy as it evolved, the LDS has been updated a number of times throughout the plan-making process. This has ensured that interested parties have been kept up to date on the timetable for the plan preparation, as well as complying with the legislation.

### *National Planning Policy*

3.10 The [National Planning Policy Framework](#) (NPPF) (March 2012<sup>4</sup>) highlights the importance of engagement with communities in plan-making and at Paragraph 155, states:

*“Early and meaningful engagement and collaboration with neighbourhoods, local organisations and businesses is essential. A wide section of the community should be proactively engaged, so that Local Plans, as far as possible, reflect a collective vision and a set of agreed priorities for the sustainable development of the area, including those contained in any neighbourhood plans that have been made.”*

3.11 Further, Paragraph 182 of the NPPF is clear, that to be found ‘sound’ at Examination in Public, Local Plans must be:

- **Positively prepared** – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development.
- **Justified** – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence.
- **Effective** – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities.
- **Consistent with national policy** – the plan should enable the delivery of sustainable development in accordance with the policies in the Framework.

3.12 Consultation on the Local Plan at all relevant stages of the plan-making process contributes to the achievement of these key principles. It is these principles and legal compliance that

---

<sup>4</sup> In July 2018, the Government published an updated National Planning Policy Framework. In accordance with the transitional arrangements set out in the revised document, the Council has prepared the Local Plan and conducted all consultation exercises in accordance with the 2012 iteration of the NPPF. The concept of consultation remains important in both iterations of the NPPF and should be proportionate and take place from an early stage.

the Planning Inspector, appointed to examine the plan, will be examined against.

### *Other requirements*

#### Sustainability Appraisal and Strategic Environmental Assessment (SA/SEA)

- 3.13 The successful attainment of a sound Local Plan is also dependent on compliance with additional legislation, including Section 19 of the Planning and Compulsory Purchase Act 2004 (the Act), which requires a local planning authority to carry out a Sustainability Appraisal of each of the proposals in a Local Plan during its preparation. The Sustainability Appraisal process is an iterative one and must be carried out throughout the plan-making process to reflect, inform and guide each stage and then published for consultation.
- 3.14 The Sustainability Appraisal seeks to assess the environmental, social and economic effects of the implementation of the policies contained in the plan or the effects of not having these policies. Sustainability is at the heart of planning and it is only by demonstrating a balanced consideration of all aspects of sustainability, that soundness can be achieved. As such, consultation on the Sustainability Appraisal is vital and accords with Section 39 of the Act which requires that Local Planning Authorities prepare a Local Plan “with the objective of contributing to the achievement of sustainable development”.
- 3.15 Sustainability Appraisals incorporate the requirements of the Environmental Assessment of Plans and Programmes Regulations 2004 which implement the requirements of the European Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment. This is carried out alongside the sustainability appraisal process through the Strategic Environmental Assessment process, as necessary.
- 3.16 A [Sustainability Appraisal](#) (incorporating the requirements of Strategic Environmental Assessment) has been prepared alongside and informed each iteration of Our Local Plan. At each stage the Sustainability Appraisal was available for consideration through consultation including as part of the wider Regulation 19 consultation process.

#### Habitat Regulations Assessment (HRA)

- 3.17 Article 6 of the EC Habitats Directive (1992), as transposed into British law by the Conservation of Habitats and Species Regulations 2010, requires the Council to prepare a Habitat Regulations Assessment (HRA). This assessment considers the likely significant effects of the Local Plan on the nature conservation interests of European protected areas in and around the district and seeks to establish whether there will be any adverse effects on the ecological integrity of these European sites because of proposals in the plan.
- 3.18 While not in the district, the Ashdown Forest Special Protection Area (SPA) and the Mole Gap to Reigate Escarpment Special Area of Conservation (SAC) are relevant and require consideration and the potential impacts of policies and subsequent effects must be evaluated.
- 3.19 The HRA is an essential part of Local Plan preparation. A Habitat Regulation Assessment for the Regulation 19 draft of the Local Plan was prepared and made available for consideration. A HRA was also provided at earlier stages of consultation on Our Local Plan.

## Equalities Impact Assessment

3.20 The Council has a legal duty to eliminate discrimination and promote equality through service delivery. The policies of the Local Plan can act as a delivery mechanism for other strategies, including those for housing standards and economic initiatives. In accordance with the Equality Act 2010, an Equalities Impact Assessment was prepared and available for consideration as part of the Regulation 19 consultation and has accompanied each iteration of the Regulation 18 consultation documents.

## The Duty to Cooperate

3.21 The Government requires constructive and active engagement with relevant bodies, as part of an ongoing process, to maximise effective working on the preparation of local development plans, particularly in relation to strategic matters. This is known as the Duty to Cooperate (also referred to as 'the duty').

3.22 The duty is set out in Section 110 of the Localism Act 2011 and inserted Section 33A into Part 2 of the Planning and Compulsory Purchase Act 2004. It relates to the planning of sustainable development and is applicable to all local planning authorities and other public bodies.

3.23 Strategic matters are, by definition, larger than local issues and extend beyond administrative boundaries of a local council. The duty is the mechanism by which strategic issues are investigated and taken into account at the local level and through the preparation of Local Plans.

3.24 Demonstrating the duty has been met throughout the preparation of a Local Plan, is one of the first tests an Inspector will carry out before conducting the more substantive examination of a submitted Local Plan. It is not legitimate or realistic to expect agreement will be reached on all strategic matters, but it is expected that attempts will be made to help overcome strategic issues where possible and to use the duty as an opportunity to work across boundaries in the delivery of housing, employment and infrastructure.

3.25 The Council adopted a [Duty to Cooperate scoping statement](#) in December 2014. The Scoping Statement was updated as plan preparation takes place, to reflect progress and actions which arise through cooperation. Statements of Ground have/are being prepared with neighbouring authorities.

## 4 REGULATION 18: PREPATORY STAGES OF FORMAL CONSULTATION

4.1 In preparing Our Local Plan: 2033, the Council has fulfilled its legislative requirements for consultation as set out in the Town and Country Planning (Local Plan) (England) Regulations, 2012 and other obligations.

4.2 This section of the Statement of Consultation reviews the outputs of those consultation stages that were carried out to accord with Regulation 18 of the legislation, also known as the preparatory stages, and the actions taken in response to the comments received. This section is supplemented by Appendix 8 which gives direction to where the detailed individual Statements of Consultation for each stage can be viewed. A summary of the responses gathered during the Regulation 19 consultation can be found at Section 5.

4.3 Three stages of preparatory consultation have been undertaken, covering a total of 26 weeks and generating over 15,000 comments:

Consultation/Document Title	Regulation	Dates	Respondents	Comments
Local Plan: Issues and Approaches	Regulation 18	10 December 2015 – 26 February 2016 (10 weeks)	3,171	5,202
Local Plan: Sites Consultation	Regulation 18	4 November 2016 – 30 December 2016 (8 weeks)	1,762	4,706
Local Plan: Garden Villages <sup>5</sup>	Regulation 18	14 August 2017 – 9 October 2017 (8 weeks)	2,820	5,152

### How could comments be submitted?

4.4 In each instance and as a minimum, comments to consultation could be submitted via:

- **Email to:** localplan@tandridge.gov.uk
- **Post or delivered by hand to:** Planning Policy, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey RH8 0BT.
- **Online:** using Objective, the Councils online consultation portal.

4.5 Over the course of plan-preparation responses have also been handed in person to officers at drop-in sessions, where they have taken place, and also via elected members.

### Local Plan: Issues and Approaches (2015/16) Regulation 18

4.6 As the first stage of consultation in the plan-making process, the Issues and Approaches was the first opportunity for interested parties to consider the issues which the Plan should address, the types of spatial strategy that the Council could pursue when meeting

---

<sup>5</sup> This represents an updated figure from that published in the Statement of Consultation: Garden Villages (2017). Further information relating to this is set out within Section 4 of the report.

development needs, and the types of policy that could be included and used to guide planning decisions for the future.

- 4.7 No preferred spatial strategy had been determined by the Council at this time and this early stage presented a variety of options for development, some of which were acutely different to the historic development strategies that had been followed within the District through past plans.
- 4.8 This consultation was the first time that Objectively Assessed Need (OAN), determined in accordance with the NPPF (2012) and the Planning Practice Guidance, was considered by the community and other interested parties. The OAN presented a greater housing requirement than had been previously placed on the Local Authority through Regional Plans.

#### *Who and How did we consult?*

- 4.9 In accordance with the Council's Statement of Community Involvement (2015) and legislative requirements, including the Duty to Cooperate, all statutory consultees (specific consultation bodies) were made aware of the consultation by either email or hard copy letter.
- 4.10 The Council also consulted with general bodies who had shown an interest in the Local Plan such as residents, the general public and interest groups whose remit might relate to the content of the plan. Any and all interested parties were able to respond to the consultation.
- 4.11 In carrying out this first stage of consultation the Council wanted to ensure that those who had previously registered an interest in the preparation of the Council's earlier Local Development Plan; including the adopted Core Strategy, Detailed Policies document and Community Infrastructure Levy. These individuals were notified of the consultation by email or hard copy letter and formed the basis of the Local Plan consultation database which has grown over the process. Each party who responded to the Local Plan: Issues and Approaches consultation was subsequently added to the database, so they could be notified at the next stage of plan preparation.
- 4.12 For the first Regulation 18 consultation, those directly contacted and notified of the consultation by email or hard copy letter amounted to approximately 950 individual addresses. However, anyone with an interest in the Local Plan could submit comments during the consultation period and were encouraged to do so.
- 4.13 The Council recognises some sections of the community may not hear about the opportunities to express their views via standard channels. A number of steps were taken to reach these harder to reach groups and young people. This included asking schools, GP surgeries and leisure centres to display printed materials and to provide text to a variety of parties including the Tandridge Voluntary Service and parish councils to assist them in preparing newsletters to help publicise the consultation.
- 4.14 In addition, the Council identified key bodies that have direct contact with those who may not access information conventionally due to lifestyle choices, such as the travelling community, or because of physical impairments or literacy levels. In these cases, information was sent to specialist organisations, community representatives or bodies to encourage or enable involvement.

- 4.15 The Council’s website and all documents relating to the Local Plan: Issues and Approaches Consultation were formatted and tailored to make them accessible on the web to those with vision or hearing impairments. The website uses ‘Readspeaker’ which reads web text and documents aloud.
- 4.16 In an effort to publicise and increase the coverage of the consultation a number of steps were taken and are fully detailed in the Statement of Consultation: Issues and Approaches Consultation (See Appendix 8) including:
- Media and promotional activities
  - Social media coverage
  - Online through the publication of documents and other materials
  - Visual displays through posters and using parish, Council and other noticeboards and newsletters etc; and
  - Parish workshop
- 4.17 Council Officers were available daily, on the phone and in person at the Council Offices, to meet with any interested parties to discuss the consultation and answer any questions.
- 4.18 Hard copies of documents were available at the Main Council Offices, as well as at libraries across the District.

*Comments received*

- 4.19 Comments relating to the Issues and Approaches consultation were analysed against the same themes used to structure the consultation document. The following table summarises the comments received.
- 4.20 Responses to key points raised were prepared by the Council and published as part of the Statement of Consultation: Issues and Approaches consultation:

<b>Economy and Tourism</b>	<p>Permitted development rules have caused a high loss of valuable office space, particularly in the Caterham area</p> <p>Poor broadband connection has a negative impact on rural businesses</p> <p>There should be a business/science park in the district</p> <p>High-skilled employment should be supported, and those with high-skills represent a large part of the demographic of the area and should be recognised as a good thing.</p> <p>Need to be aware of Gatwick as an asset to the district in terms of access to employment and supporting local business</p> <p>Tandridge is not an area for tourism</p> <p>Unrealistic to think that employment in the area will grow by a third</p> <p>The Green Belt and an aging population are barriers to economic growth but this is seen as both a positive and negative for the area.</p> <p>Should make better use of existing employment sites and seek to protect them.</p>
----------------------------	--

---

	Underused and vacant business premises should be redeveloped for housing to avoid greenfield/belt loss
	The District is not a place for business, and the majority of workers travel into London and elsewhere for employment. No need to provide additional employment space.
	Employment provision is too high and detrimental to the Green Belt
	There should be focus on improvements to sectors other than tourism
	Rural economy needs to be supported
	Recognition should be given to farming and agriculture
	More employment opportunities are needed and in sustainable locations
<b>Housing</b>	Opposition to the level of housing needed in the District and the way in which the Objectively Assessed Housing Need was derived
	Opposition to any housing delivery in the district
	The identified Objectively Assessed Need is not high enough as it hasn't had proper regard to the need for affordable homes and market-signals
	Support for more homes in the district, particularly affordable properties and those suitable for downsizing, first-time buyers and families
	Opposition to affordable homes in certain areas of the district
	Concerns that new development would impact upon quality of life and property prices
	Views that it was not appropriate for the district to accommodate growth from London, or meet housing needs other than local need
	Need to consider Approach 6 (urban extension/new settlement) in more detail as a way to assist in meeting needs
	Support for Green Belt release to assist in meeting development needs
	Opposition to the consideration of any approach which would result in the release of Green Belt land
	Desire to maintain the approach of the Core Strategy as set out in approach 2a
	Views that homes are only being proposed to enable the Council to gain financial incentives such as New Homes Bonus
	Support for brownfield land to be used as both a priority and as the only land which should be considered as suitable for development
	Traveller needs should not be a council priority
	The needs of travellers are not suitably catered for in the document
	The wider housing crisis issue in the south east and further should be dealt with at a national level which may result in needs being met elsewhere other than in the south east
<b>Environment and Landscape</b>	Views that the Area of Greater Landscape Value (AGLV) should continue to be protected
	Views that the Area of Greater Landscape Value (AGLV) should not be considered due to its outdated designation since the revocation of the Surrey Structure Plan
	Views that the rural nature of the district should be protected
	Concerns about the impact of development on the Areas of Outstanding Beauty
	Support for considering the Areas of Outstanding Natural Beauty as a constraint to development in determining the options
	Development will impact on the landscape and ecological value of the district
	Need to consider wildlife and protected species
	Need to consider environmental designations such as ancient woodland and Sites of Special Scientific Interest (SSSI)
	Caterham town centre needs to provide a better range of facilities and shops

---

<b>Town Centres, Retail &amp; Leisure</b>	<p>Parking in town and village centres is insufficient and a barrier to the use of the facilities at these locations and does not support businesses</p> <p>There needs to be more retail and leisure facilities in town and village centres</p> <p>The impact of online shopping needs to be fully recognised that shops are not used in the same way anymore</p> <p>Online shopping has had a negative impact upon shops and their needs to be more of them for people to use</p> <p>Lingfield has suffered from a loss of retail</p> <p>The district is not a place for shopping and leisure and can't compete with places like Crawley, Reigate, Croydon and East Grinstead</p> <p>Town centre employment opportunities have been negatively impacted by permitted development rules</p>
<b>Health and Wellbeing</b>	<p>Opposition to the prospect of losing any open spaces</p> <p>Identified the need to undertake a more thorough open space assessment</p> <p>Identified a need to look at cemetery and allotment provision</p> <p>The need to consider air quality and potential negative impacts of Gatwick expansion and new development</p> <p>There is a need for more leisure facilities including a swimming pool other than in Oxted</p> <p>Not enough facilities for young people</p> <p>The aging population will place more pressure on health facilities which cannot currently cope and would need improvement</p> <p>The rural nature of the district and Green Belt are vital to the health and wellbeing of residents and gives access the countryside and open space</p> <p>Allotments should not be built on</p> <p>No consideration has been given to the need for cemeteries.</p>
<b>Design, heritage and Climate</b>	<p>Concerns that flood risk had not been properly taken into account</p> <p>Recommendation to make provision for centralised energy</p> <p>Concerns that new development would generate poor design and contribute negatively to existing character</p> <p>High density development is not appropriate in Tandridge and would generate negative social behaviours and be poorly designed</p> <p>High density development should be promoted to limit the need for greenfield/belt development and is appropriate near commuter hubs and public transport connections</p> <p>Heritage is not an 'issue' but something that should be recognised as a positive</p> <p>There is not enough emphasis on heritage assets and their protection.</p> <p>Insufficient consideration of how the effects of climate change can be exacerbated by development</p> <p>Recommendation to include a policy which commits the Council to undertaking a review of all Conservation Areas and preparing Conservation Area Appraisals</p> <p>Views that infrastructure could not be improved without additional development</p>
<b>Infrastructure</b>	<p>Concerns over the impact of development on already struggling infrastructure, specifically schools, roads and GP surgeries</p> <p>Comments which felt that infrastructure needed to be considered before consultation should have taken place</p> <p>Views that where development did take place infrastructure would need to be provided up front</p> <p>Views that the only way infrastructure improvements would be delivered by allowing for more development</p>

---

**Other**

Criticism of the engagement which took place with GP surgeries and the gathering of information which fed into the Infrastructure Baseline Study

Concern that the Council could only do so much to guarantee infrastructure delivery and that working with providers was not enough

Views that the Issues and Approaches document did not reflect the nature of the district as a dormitory area, and comments that it was becoming increasingly dormitory

Views that Caterham and the northern area of the district had been the ongoing focus for development and could not accommodate further growth

There should be a distribution of development across the district

That development should be directed to the southern areas of the district

That development should continue to be directed to the 'inset' areas of Oxted and Caterham

Opposition to specific sites, in particular: Blindley Heath (BHE 007 Blue Anchor Farm), Surrey National Golf Course in Chaldon (CAT 039), Yorke Gate (CAT 054) Roffes Lane (CAT 042) in Caterham and Posterngate Farm (SGOD 005) at South Godstone and Land North of Greenhill Lane, Warlingham (WAR 008)

Approaches 2A and Approach 6 received the most comments of all approaches, with Approach 1 receiving the fewest.

Criticism that Approach 1 should not have been included as an approach as it represents the baseline position

The need to promote and recognise the role of Neighbourhood Plans

Disagreement with the make-up of the tiers set out in the Settlement Hierarchy

Disagreement with the Green Belt Assessment and how it was carried out and views that it does not comply with national policy

Disagreement with the conclusions of the Housing and Economic Land Availability Assessment (HELAA) and views that it does not comply with national policy

Criticism of the consultation process in terms of the availability and accessibility of information, the technical nature of the documents and the length of the consultation

Recommended alterations to issues, objectives and the vision; and additions to the glossary

Criticisms that the website and consultation portal were difficult to use

Support for Approach 5 as being the only strategy which seeks to meet the Objectively Assessed Housing Need as set out in national policy

Views that the Issues and Approaches consultation was flawed

The 'issues' as set out include statements of fact which are not necessarily negative, but a key characteristic of the district, such as 94% Green Belt

The 'vision' is generic and unachievable, that it conflicts with the objectives and that the approaches set out within the document would not support the vision as written

That the Issues and Approaches document does not consider the sustainability of sites and the role of sustainability in considering the Green Belt.

Development should be focused in the most sustainable locations.

---

***Actions necessitated by the Issues and Approaches Consultation***

- 4.21 Below summaries the key actions which stemmed from the analysis of the comments to the Issues and Approaches Consultation and that the Council identified as needing action in the plan-making process:

- The need to undertake a site-based consultation prior to determining the preferred strategy to be included in the Local Plan;
- The need to consider current open spaces more fully and explore other typologies to include cemeteries and allotments;
- The need to undertake further work and consultation to explore the idea of a new settlement or urban extension (Approach 6);
- To ensure that the plan to be submitted has regard to farming, agriculture and the rural economy;
- To improve how consultation is carried out, particularly in terms of the clarity and terminology used in documents and to make them more accessible to those with an interest;
- To consider whether there is a need to 'safeguard' land for beyond the plan-period and the mechanisms and justification for doing this;
- To ensure that the Local Plan to be submitted is accompanied by, and reflective of, any necessary updates to evidence to accord with the requirements of National policy, such as the Strategic Housing Market Assessment which will need to reflect the most up to date demographic position at the point of submission;
- Amendments to Issues, Objectives and the Vision of the plan to be submitted; and
- Additions to be made to the Glossary.

4.22 In carrying out the analysis of the comments, it was often necessary to set out certain steps that the Council would take by default of the plan making process for clarity. This also occurred at each preparatory stage and every effort was made to clarify this through the accompanying Statements of Consultation. Examples included:

- Preparation of additional evidence;
- Engagement with parish councils and neighboring authorities;
- Promotion and consideration of Neighbourhood Plans;
- Assessment and modelling of infrastructure provision in liaison with infrastructure providers; and
- Due consideration of current flooding issues and potential worsening flooding.

#### **Local Plan: Sites Consultation (2016) Regulation 18**

4.23 The Local Plan: Sites Consultation provided interested parties with the opportunity to understand which sites were being considered as part of the Local Plan process at that time and how the Council was carrying out site assessments.

4.24 In addition, the Local Plan: Sites Consultation pre-dated the Council's determination of a preferred spatial strategy and a key motivator of the consultation was to assist the Council in gaining more input upon where and how sites could be located, to inform the determination of a preferred spatial strategy.

4.25 Following on from the Issues and Approaches consultation and the commitment to further consider the option for a new or extended settlement (Approach 6) the Sites Consultation presented options for potential locations for such a development, alongside evidence and studies which had been undertaken.

#### ***Who and how did we consult?***

- 4.26 In accordance with the Council's Statement of Community Involvement (2015) and legislative requirements, including the Duty to Cooperate, all statutory consultees (specific consultation bodies) were made aware of the consultation by either email, or hard copy letter.
- 4.27 The Council also consulted with general bodies who had shown an interest in the Local Plan such as residents, the general public and interest groups whose remit might relate to the content of the plan. Any and all interested parties were able to respond to the consultation.
- 4.28 The interested parties contacted directly by email or hard copy letter amounted to approximately 3,700 individual addresses.
- 4.29 The Council recognises some sections of the community may not be aware of the consultation via standard channels. Several steps were taken to reach these harder to reach groups and young people. This included asking schools, GP surgeries and leisure centres to display printed materials and to provide text to a variety of parties including the Tandridge Voluntary Service and parish councils to assist them in preparing newsletters to help spread news of the consultation.
- 4.30 In addition, the Council identified key bodies which have direct contact with those who may not access information conventionally due to lifestyle choices, such as the travelling community, or because of physical impairments or literacy levels. In these cases, information was sent to specialist organisations, community representatives or bodies to encourage or enable involvement.
- 4.31 The Council's website and all documents relating to the Local Plan: Sites Consultation were formatted and tailored to make them accessible on the web to those with vision or hearing impairments. The website uses 'Readspeaker' which reads web text and documents aloud.
- 4.32 In an effort to publicise and increase the coverage of the consultation a number of steps were taken and are fully detailed in the Statement of Consultation: Sites Consultation including:
- Media and promotional activities
  - Social media coverage
  - Printed press and media
  - Online through the publication of documents and other materials
  - Visual displays through posters and using parish, Council and other noticeboards and newsletters etc;
  - Parish only session; and
  - Ward Member session
- 4.33 Council Officers were available on a daily basis, on the phone and in person at the Council Offices, to meet with any interested parties to discuss the consultation and answer any questions.

- 4.34 In addition, eight drop-in sessions were held across the district which ran for a minimum of 5.5hrs in each instance. These sessions provided interested parties with an opportunity to view the documents and discuss the Local Plan: Sites Consultation with Officers in person.
- 4.35 Closed sessions with Ward Members were also held prior to the commencement of the consultation to share the site maps for their areas and provide an opportunity for Members to discuss the document with officers.
- 4.36 Hard copies of documents were available at the Main Council Offices, at libraries across the District as well as Horley Library in Reigate and Banstead, which is utilised by the residents of Smallfield and Burstow.
- 4.37 Each party who responded to the Local Plan: Sites Consultation was added to the Council's consultation database and unless they explicitly requested to the contrary, were notified at the subsequent stage of plan preparation.

#### *Comments received*

- 4.38 As with any consultation process, comments varied in content including those which conflicted with one another, for example, where both support and objection was shown to the same site/location. Comments also varied in terms of whether they referred to private interests of just one individual (e.g. development will affect the value of my home), and others commenting on the overall impact of development of sites/locations and how the wider community might benefit or, be affected (e.g. this will improve the provision of infrastructure for the community).
- 4.39 The most effective way of analysing, considering and responding was to identify the main points being raised, and summarise them on a site by site and location by location basis. A pro-forma was compiled for each site and/or new or extended settlement option and summarised the key issues/comments, setting out the Council's response and resultant action, where necessary.
- 4.40 The summary of the main comments is as follow:

<b>Summary of main comments</b>
<ul style="list-style-type: none"> <li>The site at Bouthurst Way, Hurst Green (OXT052), and the prospect of a settlement expansion at South Godstone, attracted the highest number of comments, shortly followed by site OXT 006, Land adjacent to Oxted and Laverock School, Oxted and OXT 007, Land adjacent to The Graveyard and St Mary's Church, Oxted.</li> </ul>
<ul style="list-style-type: none"> <li>Concerns regarding insufficient infrastructure continued to be the predominant theme, both in terms of specific sites and as a general issue for the district. Respondents requested more information about how infrastructure would be factored in and often objected to sites and locations in the absence of this information.</li> </ul>
<ul style="list-style-type: none"> <li>One of the main concerns regarding infrastructure was associated with highways / traffic. Respondents were particularly concerned with, access to sites, congestion, parking, road safety and lack of public transport.</li> </ul>

<ul style="list-style-type: none"> <li>Concerns that the Council’s assessment of Objectively Assessed Housing Need (OAN) had not been reviewed and that comments relating to Green Belt evidence raised at the previous stage of consultation had not been addressed, and that the Green Belt should not be built on.</li> </ul>
<ul style="list-style-type: none"> <li>Concern is raised regarding the impact of development on the landscape and wildlife and that the character of settlements would be affected.</li> </ul>
<ul style="list-style-type: none"> <li>Opposition was shown to sites which would result in a loss of open space.</li> </ul>
<ul style="list-style-type: none"> <li>Flooding continued to be raised as a significant concern across the district, with a need for action identified in certain areas such as Smallfield and Caterham. Respondents felt that development in areas of flooding should not be considered.</li> </ul>
<ul style="list-style-type: none"> <li>Support for the continued use and intensification of existing employment sites was shown, with support for additional employment opportunities seen positively. Generally, any prospect of losing existing employment sites to housing development was not seen favourably.</li> </ul>
<ul style="list-style-type: none"> <li>Support and objection for a new or extended settlement was shown: <ul style="list-style-type: none"> <li>Those in favour identified the opportunities of large scale development in terms of its ability to deliver infrastructure improvements, in mitigating against piecemeal development, as a better way to help in meeting housing needs and as being more sustainable than developing on the edge of settlements.</li> <li>Those in opposition felt that such a development would adversely impact the rural character and nature of the district, be detrimental to the Green Belt and not provide the affordable housing needed whilst increasing the pressure on existing infrastructure in settlements.</li> </ul> </li> </ul>

#### *Actions Necessitated by the Sites Consultation*

4.41 Given the nature of the consultation it was inevitable that most of comments related to site/location specifics and resulted in actions that would require the Council to further consider evidence. However, the fundamental action which stemmed from the Sites Consultation was the need to create more assurance in the strategic approach to future planning and to give interested parties a better understanding as to where development would be located. More information regarding the Preferred Strategy is set out below, however in addition to the need for a Preferred Strategy the following actions were necessitated:

- To prepare the Local Plan and carry out Exceptional Circumstances tests for sites in the Green Belt which reflect all evidence based prior to determining final site allocations.
- Carefully consider the findings of the Traveller Accommodation Assessment to identify the need for Traveller accommodation in the District.
- Carry out and update to the Economic Needs Assessment and utilise the findings to inform the final plan.

### *The Preferred Spatial Strategy*

- 4.42 In March 2017, Members of the Planning Policy Committee adopted a Preferred Strategy which has guided all subsequent iterations of the Local Plan to its final stages, including how sites and locations have been considered, allocated and discounted from the process. The Preferred Strategy outlined in general terms, the areas to be focused on for development and the approach to be taken to infrastructure, economic development and the natural environment. The strategy is a 'hybrid' of the approaches considered through the Issues and Approaches consultation (Approach 3 and 6) and the responses gathered.
- 4.43 The adoption of the Preferred Strategy necessitated an additional Regulation 18 consultation to consider additional details and potential locations for a Garden Village, which was carried out in August to October 2017. Whilst both Blindley Heath and South Godstone were consulted on as potential locations through the Sites Consultation (2016), they lacked details as to what such a development could include and the information the Council had received from those promoting alternative locations. Undertaking the further consultation ensured that interested parties could formally consider and have their say on the development and understand it in more context.

### **Local Plan: Garden Villages Consultation (2017) Regulation 18**

- 4.44 The Preferred Spatial Strategy for the Local Plan includes the pursuit of a Garden Community (also known as a Garden Village). In preparing the Local Plan a great deal of evidence was undertaken to explore the options of where such a development could be most appropriate and sustainable. This consultation was the opportunity to ask for input on the potential broad locations.
- 4.45 Whilst a number of objections to the spatial strategy were received through this consultation, the inclusion of a Garden Community formed part of an approach that had been formed to reflect both the findings of earlier consultations, the Sustainability Appraisal process and the clear message from respondents, particularly residents, relating to the need for more infrastructure and objections to approaches that would rely on a dispersal of development across the district.

### *Who and how did we consult?*

- 4.46 In accordance with the Council's Statement of Community Involvement (2015) and legislative requirements, including the Duty to Cooperate, all statutory consultees (specific consultation bodies) were made aware of the consultation by either email, or hard copy letter.
- 4.47 The Council also consulted with general bodies who had shown an interest in the Local Plan such as residents, the general public and interest groups whose remit might relate to the content of the plan. All interested parties were able to respond to the consultation.
- 4.48 The interested parties contacted by email or hard copy letter amounted to approximately 5,300 individual addresses.
- 4.49 The Council recognise that some people in the community may not hear about the opportunities to express their views via standard channels. In addition, the Council identified

key bodies that have direct contact with those who may not readily access information, such as the travelling community, or those with physical impairments or low literacy levels. Several steps were taken to reach these harder to reach groups and young people. Organisations representing harder to reach groups were contacted directly at the start of the consultation and offered a meeting (outside of the Council offices if desired) with Council officers to discuss the consultation and how they could be involved. There was no take up of these offers.

- 4.50 The Council's website and all documents relating to the Local Plan: Garden Villages Consultation were formatted and tailored to make them accessible on the web to those with vision or hearing impairments. The website uses 'Readspeaker' which reads web text and documents aloud.
- 4.51 To publicise and increase the coverage of the consultation several steps were taken and are fully detailed in the Statement of Consultation: Garden Villages Consultation (Appendix 8) including:
- Media and promotional activities
  - Social media coverage
  - Printed press and media
  - Online through the publication of documents and other materials
  - Visual displays through posters and using parish, Council and other noticeboards and newsletters etc
  - Invitee only workshops
- 4.52 Council Officers were available daily, on the phone and in person at the Council Offices, to meet with any interested parties to discuss the consultation and answer any questions.
- 4.53 In addition, five drop-in sessions were held across the district, which ran for a minimum of 4.5hrs in each instance. These sessions took place in settlements most geographically relevant to the locations being considered and provided interested parties with an opportunity to view the documents and discuss the Local Plan: Garden Villages Consultation with Officers and Members in person.
- 4.54 Invitee only workshops for statutory consultees, neighbouring authorities and parish councils were also held prior to the commencement of the consultation to assist them in understanding the process and for them to ask questions.
- 4.55 Hard copies of documents were available at the Main Council Offices, as well as at libraries across the District as well as Horley and Redhill Libraries in the Reigate and Banstead area, and Edenbridge in the Sevenoaks area. This helped to provide access to the documents for those that lived in areas which were affected by potential locations which crossed administrative boundaries, as well as residents of Smallfield and Burstow that use Horley Library.
- 4.56 Each party who responded to the Local Plan: Garden Villages Consultation was added to the Council's consultation database and unless they explicitly requested to the contrary were subsequently notified at the next stage.

### Comments received

- 4.57 The Garden Villages Consultation received **5,152 comments from 2,820 individual respondents**.
- 4.58 These figures are an update to those published in the Statement of Consultation for the Garden Villages Consultation and which was noted by the Council's Planning Policy Committee on 15 March 2018<sup>6</sup>. These figures were previously published as 5,124 comments (a difference of 28) from 2,807 individuals (a difference of 13).
- 4.59 The Council can confirm, however, that these comments are publicly accessible on the Council's consultation portal and that the content of these comments had been taken into account when drawing the conclusions on the issues raised and do not include any additional matters which were materially different than others that had been received.
- 4.60 The following sets out the headline comments received through the Garden Community consultation:

<ul style="list-style-type: none"><li>Concerns relating to infrastructure in each of the potential locations, and across the wider district, continued to be a key concern for respondents, with some feeling that infrastructure would not be delivered to support the development.</li></ul>
<ul style="list-style-type: none"><li>Whilst some support is shown for the Vision for the Garden Village, some respondents have suggested that it is insufficient to tackle the planning issues facing Tandridge, such as the lack of infrastructure, the need to avoid urban sprawl and to protect and conserve the environment.</li></ul>
<ul style="list-style-type: none"><li>Some respondents felt that a Garden Village was not necessarily desirable, but the best solution to providing new homes, whilst others felt that there was no justification or desire for a Garden Village at all.</li></ul>
<ul style="list-style-type: none"><li>Comments relating to the opportunity to provide new and affordable homes were received.</li></ul>
<ul style="list-style-type: none"><li>The role of good design and sustainable building practices were encouraged to make development successful.</li></ul>
<ul style="list-style-type: none"><li>The impact of development on the Green Belt was not felt to be acceptable, nor justified to some.</li></ul>

- 4.61 Comments relating to the alternative locations which were subject to the consultation:

---

<sup>6</sup> Due to a publication issue. An updated responses register is included at Appendix 7.

<ul style="list-style-type: none"> <li>• <b>Blindley Heath</b> – Whilst good access to the A22, not clear how the road network could cope, concerns about impact on SSSI and flooding. Concerns over the availability of land to the east of the settlement and the impact on the existing settlement.</li> </ul>
<ul style="list-style-type: none"> <li>• <b>Land west of Edenbridge</b> – Complex to deliver given its straddling of two Counties and Districts. That development at this location had poor road access and would offer little to Tandridge but place predominant pressure on Sevenoaks. That the location was not compatible with the Sevenoaks Local Plan and therefore not deliverable.</li> </ul>
<ul style="list-style-type: none"> <li>• <b>Redhill Aerodrome</b> - Concerns regarding cross-boundary location and deliverability were raised, in addition to the limited benefits it would offer Tandridge which would rely on Redhill as the primary service centre. Planning constraints relating to the need for an M23 junction were raised however; some support was shown for the M23 improvements if achieved, its ability to deliver housing and its location on the edge of the district. Concern for the impact upon South Nutfield was evident.</li> </ul>
<ul style="list-style-type: none"> <li>• <b>South Godstone</b> - Concerns relating to the sustainability and suitability of local transport services (train and bus) and the impacts on the A22 and the existing settlement. Air pollution was a recurring concern at this location as well as the impact of flood risk from fluvial and pluvial sources, local landscape character and the potential impacts on habitats and protected species. Some support has been expressed in terms of the accessibility of development to transport networks and the opportunity to improve local amenities for residents.</li> </ul>

#### *Actions Necessitated by the Garden Villages Consultation*

4.62 Most comments received during the consultation related to the uncertainty of what the development would look like, how the infrastructure would be supported and delivered, as well as the constraints relative to the location. There was also a clear divide between those who supported one location over another or objecting to the concept of a Garden Village in its entirety.

4.63 In addition to continued evidence gathering which is a necessary part of the process, the bullet points below represent the key actions which also stemmed from the analysis of the comments:

- Make appropriate amendments to the Vision, Objectives and Principles of the Garden Village as the plan-making process progresses.
- Take no further action regarding the assessment of land West of Edenbridge, due to it being classified as unavailable and not supported by the neighbouring authority of Sevenoaks.
- Continue Duty to Cooperate discussion on wider strategic matters, particularly with Reigate and Banstead in relation to Redhill Aerodrome. Continue to work closely with infrastructure and service providers and to prepare and update related evidence base documents to inform the draft Local Plan, including the Infrastructure Delivery Plan.
- Publish the Councils Sustainability Appraisal on the Preferred Strategy and ensure that the Sustainability Appraisal process plays a key role in determining the preferred location.

### *The Final Plan*

- 4.64 The next section of this report deals with the pre-submission consultation, also known as Regulation 19 of Our Local Plan: 2033, which is the full and final iteration of the plan to be consulted upon.

## 5 REGULATION 19: CONSULTATION UNDERTAKEN

### Consultation period

- 5.1 The Council carried out consultation on Our Local Plan: 2033 for 6 weeks between **30 July 2018** and **10 September 2018**. The consultation was carried out in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and responses considered in accordance with Regulation 20 of the same legislation.
- 5.2 The official deadline for receiving comments was 5pm on 10 September 2018. To allow for email responses sent prior but close to the deadline to be processed by the server and delivered to the Council's email inbox, the Council accepted all emails received up to 5:30pm on 10 September 2018. Responses after that time were considered late and not formally registered; however, they were considered for relevant content and kept on file.
- 5.3 Whilst it is recognised that the consultation period partially took place over the school summer holidays, the level of responses received indicates that the timing of the consultation did not prevent statutory bodies, the community or other interested parties from responding and was not detrimental to the process. Further, the closing date of the consultation, when the clear majority of responses were received was after the schools had returned from the break.

### Who did the Council consult?

- 5.4 In accordance with the Council's Statement of Consultation (2015) and legislative requirements, including the Duty to Cooperate, all statutory consultees (specific consultation bodies) were made aware of the consultation by either email, or hard copy letter.
- 5.5 The Council is also required to consult with general bodies which include any parties who have shown an interest in the preparation of the Local Plan such as the general public, as well as any interest groups who have a remit relevant to the content of the Local Plan.
- 5.6 As with all previous stages, all interested parties were able to respond to consultation on the Local Plan. Unless they requested otherwise, each responding party to the Regulation 19 consultation has been added to the database and will be notified on submission of Our Local Plan: 2033, at key stages in the examination process and on adoption.
- 5.7 The Regulation 19 was the fourth time the Council has carried out a Local Plan consultation the interested parties contacted directly via email or hard copy letter amounted to over 7,500 individual addresses.

### *Hard to reach groups*

- 5.8 Throughout the preparation of the Local Plan and consultation, the Council have remained cognisant of the Districts' demographic when determining those which constitute 'hard to reach' groups and acted accordingly.
- 5.9 In attempting to contact harder to reach groups, the Council took the same approach as in previous consultations and contacted key bodies that have direct contact with those who may not readily access information, such as the travelling community, or those with physical

impairments or low literacy levels and contacted these organisations directly. This was in addition to providing literature and information to educational facilities, the Douglas Brunton Centre, a day centre for older people and GP surgeries etc.

- 5.10 The Council’s website and all documents relating to Our Local Plan: 2033 Consultation were formatted and tailored to make them accessible on the web to those with vision or hearing impairments. The website uses ‘Readspeaker’ which reads web text and documents aloud.

#### How could comments be submitted?

- 5.11 Comments to Our Local Plan: 2033 could be submitted in the following ways:

- Email to: [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)
- Post to: The Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey RH8 0BT.
- Web: using [Objective](#), the online consultation portal.

- 5.12 The Council accepts the plan-making process can be technical and sometimes difficult to understand. To help interested parties with the consultation process and encourage them to submit their comments, a Guidance Note and Questionnaire was prepared to accompany Our Local Plan: 2033 consultation. The intention of this was to help people understand more about soundness and legal compliance to help individuals frame their response in a way that would be most useful to the Planning Inspector appointed to examine the plan. That said, interested parties could submit comments of any nature they felt relevant.

- 5.13 With the best intention of being able to determine whether comments were being made on the grounds of soundness and/or legal compliance, and to ensure that the Council considered comments as the respondent had intended, the Council sought to clarify this via correspondence where needed. However, the Council has considered all comments accordingly, irrespective of whether a respondent chose to specify their comments in the context of soundness and/or legal compliance.

#### Method of Submission

- 5.14 Whilst comments could be submitted in a variety of ways, the Regulation 19 consultation continued the trend of previous stages with the preferred method for submitting comments being via email:

<b>Format</b>	<b>Percentage of overall responses</b>
<b>Email</b>	87.06%
<b>Letter</b>	8.82%
<b>Objective – consultation portal</b>	4.12%

## How did the Council consult?

### *Social media*

- 5.15 The Council used its Twitter and Facebook account throughout the consultation to raise awareness and invite comments. All press releases and open letters were publicised on Facebook and Twitter along with regular posts raising general awareness of the consultation. These general posts were supported by some paid for Facebook advertising using the boost function to increase the visibility of posts, increase how frequently people will see them and to extend their reach.

### *Printed and press media*

- 5.16 In addition to direct mail shots and statutory advertisements and letters, the Council took several additional steps to highlight the consultation and encourage people to comment. Using local media contacts, councillors, parish councils, editors of local newsletters and staff, the Council advertised the consultation and used press releases and open letters to provide additional and appropriate information. Each press release and open letter was also issued in the form of an e-newsletter which was sent out to both people who had signed up for our news and events e-newsletter and people who had signed up to our Local Plan update e-newsletter. These steps spanned the period both before the consultation began and throughout:

News releases	<p>20 June 2018 - Draft Local Plan published tomorrow.</p> <p>28 June 2018 - Draft Local Plan to be debated at next week's Planning</p>
Open letters	<p>Councillor Keith Jecks, Chair of the Planning Policy Committee wrote six open letters before and after the consultation. 29 May, 5 June, 20 June, 5 July, 27 July, 17 September.</p>
Press briefing	<p>The press was given one to one briefings with Chief Planning Officer, Piers Mason, Chair of the Planning Committee, Keith Jecks, Vice Chair of the Planning Policy Committee, Geoff Duck and the Leader, Martin</p>

Wrap around/Get the Facts leaflet	
Newspaper adverts	
Local Plan leaflets	
Guidance Note for submission of comments	A Guidance Note for submission of comments was published on the website to help people submit comments in a valid way.
Newspaper editorial	CR3, CR6, RH9 and TN16 Magazines –July, August, September issues.

**Online**

- 5.17 Dates and a link to the dedicated consultation page with all the different communication materials including: Get the facts, Local Plan leaflets, press releases and open letters, featured on the landing page of the Council’s website throughout the consultation period.
- 5.18 To make information more accessible, the Council uses a special weblink [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) that was displayed on all consultation material.

**Printed materials and visual advertisement**

- 5.19 A variety of printed materials and advertisements were prepared to accompany the consultation to raise awareness among residents and interested parties. Some of this information began circulation before the consultation started to raise early awareness.

<b>Tandridge Magazine</b>	Garden Village Consultation - Summer 2018 Local Plan update in Summer issue. Delivered 16- 20 July.  The Tandridge Magazine is delivered to all households in the District with addition copies left in community spaces
---------------------------	---

<sup>7</sup> Where people reported non-receipt of a leaflet or incorrect versions were received, new leaflets were sent out.

	such as the Council Offices and the Douglas Brunton Centre.
<b>Reception screen display at Council offices</b>	Displayed from 24 July 2018.
<b>Pop up banners</b>	Pop up banners about the consultation, dates and web address were placed in the entrance and reception of the Council Offices.
<b>Guide/FAQs for councillors and parish councils</b>	On 27 July, an article and a graphic publicising the consultation was sent to wide range of contacts including CR3 group, Freedom Leisure, Tandridge Voluntary Action, Neighbourhood Watch contacts in the district, parish clerks and local newsletter editors. Material was also shared with all councillors to help them brief residents, promote the consultation and answer any questions.
<b>Posters/leaflets</b>	Posters displayed at Council Offices, Libraries, Community Centres, Sheltered Housing, Douglas Brunton Centre and GP surgeries. Posters sent to councillors and Parish Council and printed on request.
<b>Railway station adverts<sup>8</sup></b>	<ul style="list-style-type: none"> <li>• Caterham Station – 16 July to 26 August.</li> <li>• Oxted Station – 16 July to 26 August.</li> <li>• Upper Warlingham Station- 16 July to 26 August. -</li> <li>• Woldingham Station - 16 July to 26 August.</li> </ul>
<b>Email footer</b>	On all staff emails from 24 July 2018.
<b>Website banner</b>	Dates and a link to the dedicated consultation page was on the landing page of the website throughout the consultation period.
<b>Business Newsletter</b>	Article with link to website in the July and August edition of newsletter.
<b>Social media</b>	<p>Facebook adverts:</p> <ul style="list-style-type: none"> <li>• 16-19 August. To view the plan, read the fact sheet relating to your ward. 2,014 impressions.</li> <li>• 18 August – 20 August. To view the plan, read the fact sheet relating to your ward. 4,138 impressions.</li> <li>• 4-7 September. One week left to have your say. 3,036 impressions.</li> </ul> <p>Consultation events all added and publicised individually on the website, Facebook and Twitter.</p>

---

<sup>8</sup> Every effort was made to place advertisements in other stations in the District too, including Godstone, Hurst Green and Dormers Stations, but this was prevented by space either not existing or it already being utilised by existing advertisements.

	All press releases were loaded to the website, Facebook, Twitter, sent out with weekly e-newsletter for residents who have signed up.
<b>Intranet for staff</b>	A story to inform staff was displayed on the home page carousel from the start of the consultation. All press releases were also published on the intranet. Customer Services were thoroughly briefed and given information to help them respond to resident enquiries.

5.20 For further information on notifications, the publicity and advertisement materials, please see Appendix 2 – 4.

#### *Officer availability*

5.21 Council Officers were available daily at the Council Offices, on the phone and in person to meet with any interested parties to discuss the consultation and answer any questions.

#### *Additional Elected Member Engagement*

5.22 The role of elected members in a Local Plan process cannot be underestimated. In the case of Tandridge, elected members have been engaged in the preparation of the document both informally on an ad hoc basis (correspondence, phone calls, officer meetings etc) and formally via the Local Plan Working Group, who had oversight of the process during 2017 and 2018 up to the Regulation 19 stage. Members have taken decisions on Our Local Plan: 2033, through the Planning Policy Committee.

5.23 In the same manner as the Local Plan: Sites Consultation (2016), Ward Members were invited, ahead of the publication of the Regulation 19, to look at the content which would be going into the full and final draft plan. Information shared included ward specific maps and allowed for questions to be answered of officers ahead of the publication of the document and the Planning Policy Committee meeting to discuss the plan. The ward Member meetings took place during June 2018.

5.24 At the meeting of the Planning Policy Committee on 3 July 2018, the Planning Policy Committee were asked to agree the consultation on the Regulation 19 iteration of the plan. At this meeting it was agreed that Members would be provided with additional time to make comments on the Local Plan: 2033 prior to the commencement of the consultation. Further detail regarding this can be seen in the Minutes of the meeting, included at Appendix 1. Comments received during this period were considered by officers and where appropriate, reflected within the Local Plan to be consulted upon.

### **Comments Received**

5.25 Over the course of the Our Local Plan: 2033 consultation, the Council received **1,746 comments were received from 1,663<sup>9</sup> individuals and interested parties.**

---

<sup>9</sup> This figure captures each individual respondent and does not account for where an individual has submitted multiple and identical responses.

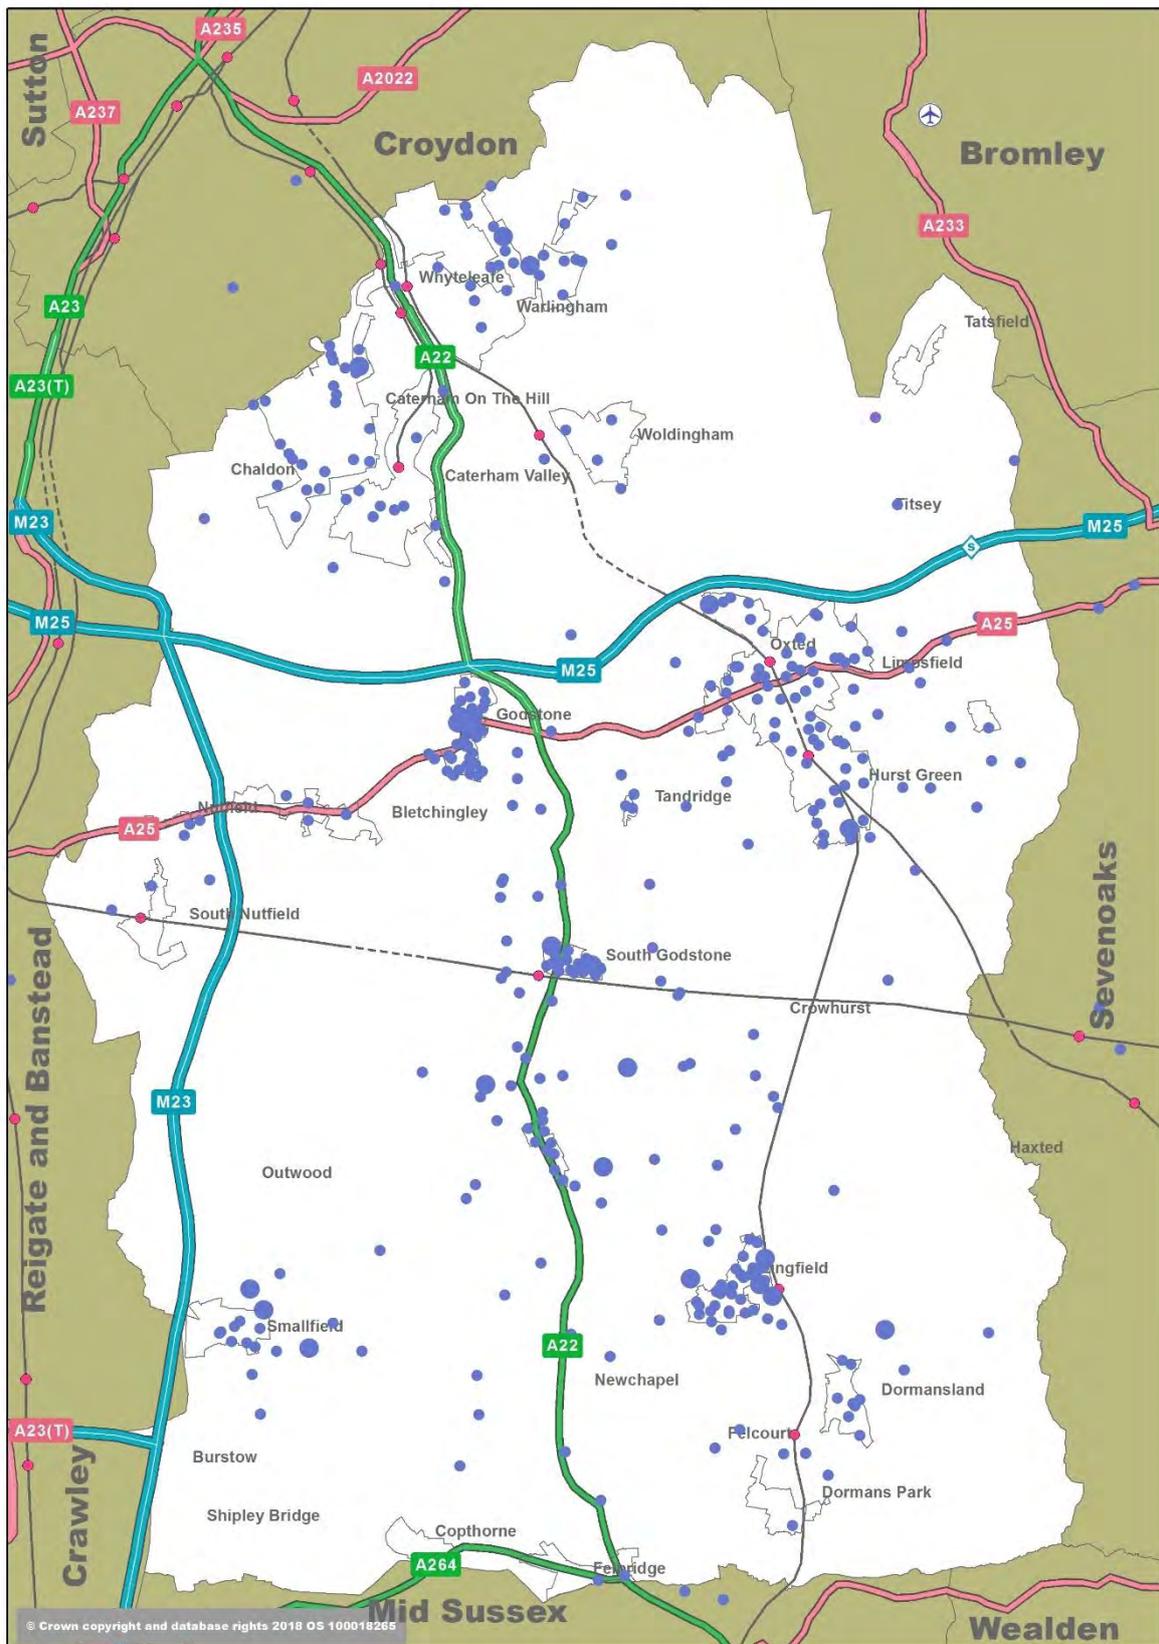

- 5.26 Of the comments received, around 10% (159) were submitted by organisations including development professionals, other local authorities and other statutory consultees. The rest, around 90% (1,504) were submitted by members of the general public and residents of the district.
- 5.27 The majority of comments were received from individuals and interested parties located within the district. The map<sup>10</sup> below depicts the distribution of responses geographically and shows that responses were received from across the district with concentrations of responses coming from locations near proposed site allocations and the South Godstone Garden Community. The majority of responses to the consultation (59% of comments, 61% of respondents) related to the Garden Community.
- 5.28 An additional map (Map 2) is also provided to show the distribution of responses for all consultation events which have been carried out in preparing the plan<sup>11</sup>. The map demonstrates that the involvement of residents in the District has been well distributed, with consultations managing to reach the community in locations across the administrative area.

---

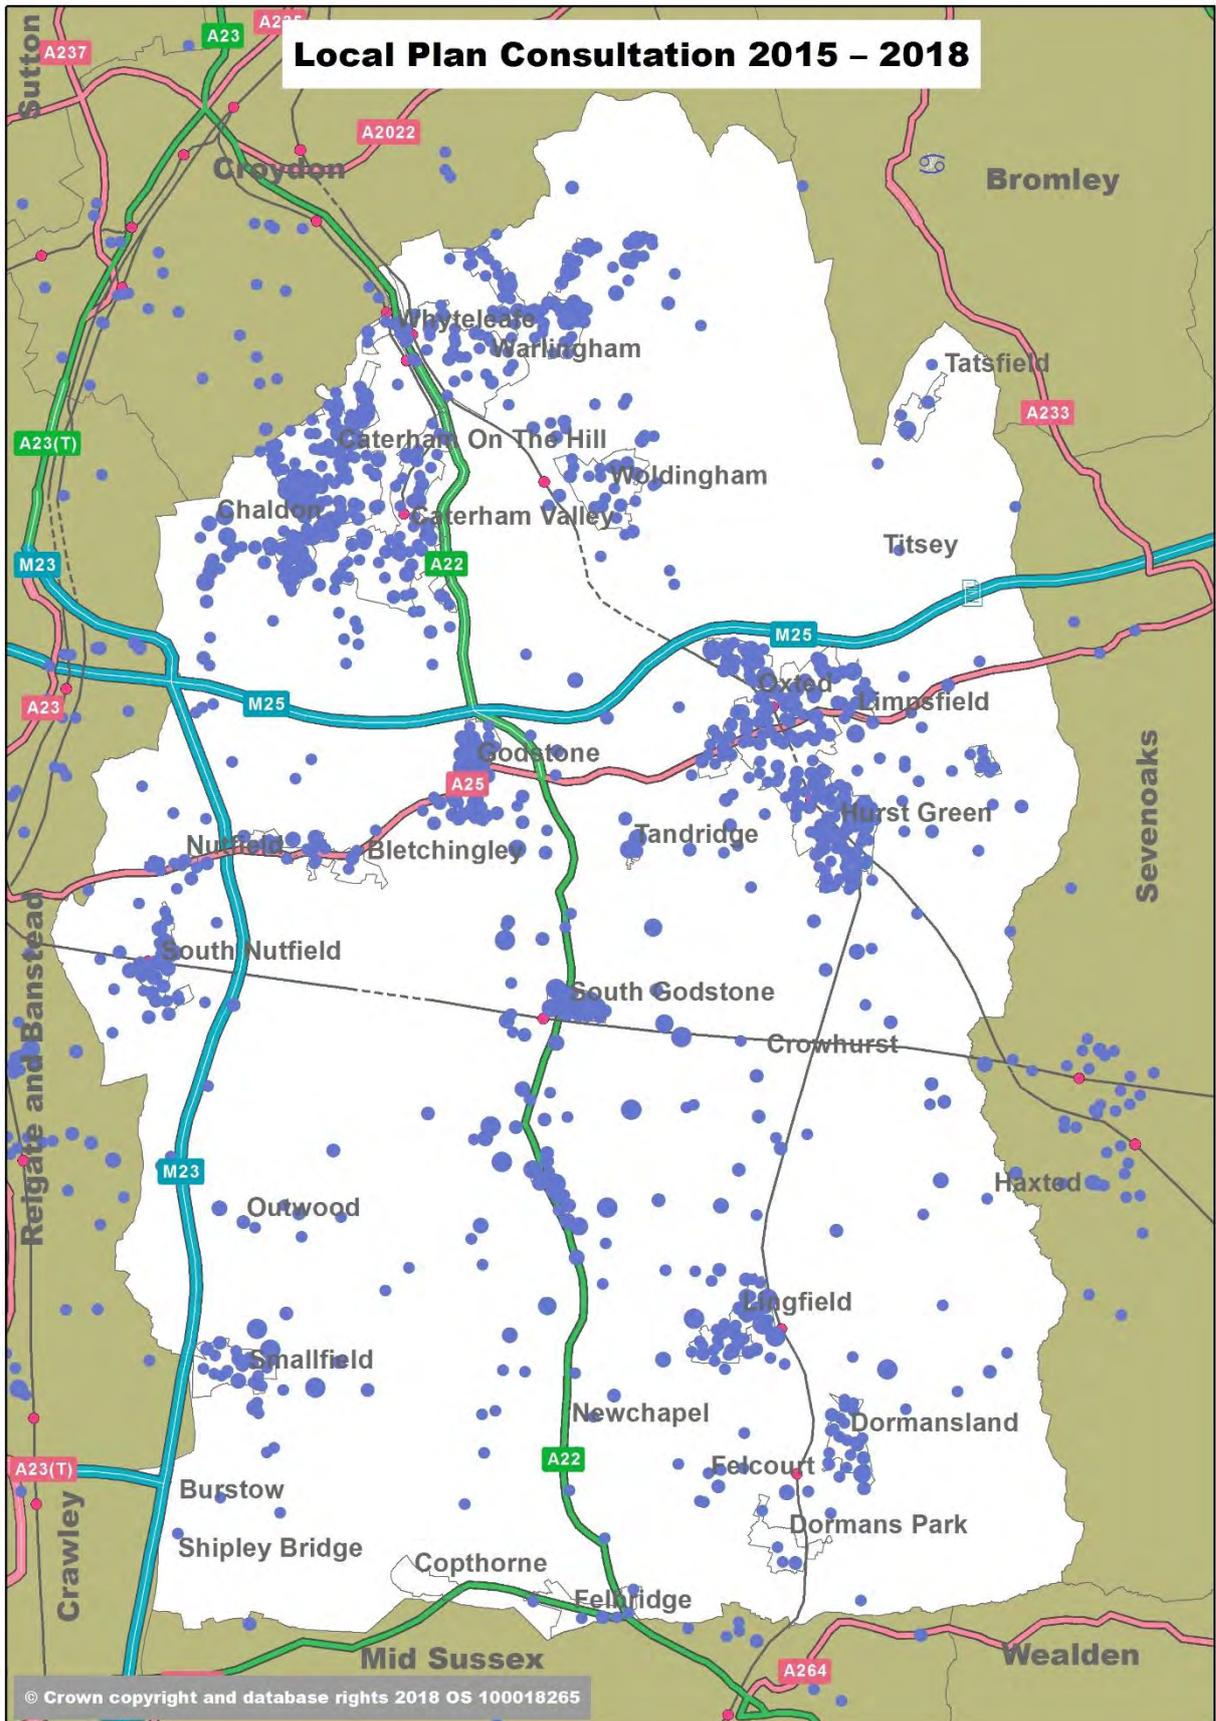

<sup>10</sup> The map reflects the postcode information which was provided to the Council as part of the response or held on a consultee's personal account on the online consultation portal, Objective. It does not account for those responses which were submitted without a postcode or where an email only contact was provided.

<sup>11</sup> The map reflects the postcode information which was provided to the Council as part of the response or held on a consultee's personal account on the online consultation portal, Objective. It does not account for those responses which were submitted without a postcode or where an email only contact was provided.

Map 1: Distribution of responses Our Local Plan: 2033 (2018)

Map 2: Distribution of Responses - All Consultations 2015 – 2018

- 5.29 A list of all those that have responded to Our Local Plan: 2033 consultation is included at Appendix 7. The Consultee Responses Register has been organised in alphabetical order by surname, or organisation; corresponding 'Comment ID's' are set out next to each respondent. These unique comment ID's are generated by the consultation portal and relate to each separate comment.

#### Redactions to comments and inadmissible / non-valid comments

- 5.30 The Council is committed to the protection of private identity. As such, in some cases it was necessary to redact (obscure) sections of a comment to protect personal details before they could be published to the consultation portal and made publicly accessible. Examples of where this was necessary include when a respondent had provided their address within the main body of a comment, or where their address could be easily identified from what the comment contained, including photographs. The original content of the comment remains with the Council for the purposes of analysis. The only personal details which will be viewable, will be that of a respondent's name to demonstrate the legitimacy of a comment.
- 5.31 Redaction has also been used when it is necessary to obscure comments which are deemed to be inappropriate. In accordance with the Council's Statement of Community Involvement (2015), any comments received and considered to be offensive and/or in breach of the Equalities Act 2010 have also been redacted.
- 5.32 Of all the responses received, 7 responses were not considered to be valid due to them being submitted anonymously. The non-publication of these comments is in accordance with the SCI (2015).

#### The comments

- 5.33 The nature and content of the comments received in response to Our Local Plan: 2033 consultation ranged extensively from short and general (e.g. we do not want/need any development in the area), through to very detailed, professionally prepared documents, some of which were supported by technical studies and supplementary assessments.
- 5.34 Throughout the plan-making process there has been a polarisation in the views of respondents with comments made both in support and objection of the same matter at each stage. This does propose a challenge for the Council but is not uncommon in plan-making and reflects the inevitably differing views surrounding the Local Plan and what should be included within it. The number of people involved in consultation is important and the number of comments towards a particular matter demonstrates the strength of feeling but inevitably, it will never be possible to accommodate all comments in a way that satisfies everyone's viewpoint. The role of planning is to determine land use in the public interest for now and in the future, whilst taking account of material planning considerations such as local constraints and development needs.
- 5.35 Our Local Plan: 2033 is a product of balancing a large number of factors and applying planning judgement. All consultation, alongside national policy requirements, evidence gathering and the iterative nature of the Sustainability Appraisal process, have worked collaboratively to inform the full and final draft of the Local Plan.

- 5.36 The Council has considered all comments submitted within the formal consultation on the pre-submission (Regulation 19) iteration of the plan and has proposed some alterations to the plan (Appendix 9). A summary of the comments is set out later in this section.

#### How have comments been analysed and responded to?

- 5.37 Comments received have been analysed, considered and summarised to identify the main points being raised. Whilst each comment has been processed, a relevant planning matter only needs to be made once to be considered.
- 5.38 At the pre-submission (Regulation 19) stage of consultation, comments submitted are primarily a consideration for the appointed Planning Inspector who will determine how they should be responded to and it is through the examination that agreement is reached on how the plan will be altered and/or if it is found sound. That said, the Council are still required to consider the comments and to assist the examiner by preparing a Schedule of Modifications that identifies where the Council agree alterations need to be made and how the plan could be altered to accommodate comments, where relevant.
- 5.39 Proposed modifications are set out in two ways; minor and main modifications. Minor modifications cover things such as typographical alterations, wording changes to pre-ambles and policies. Main modifications, at the discretion of the Planning Inspector and the Examination, may necessitate additional consultation either during, or after the Inspector has concluded his examination in public. The distinction between a main and minor modification is that a main modification would alter the plan to the extent that it makes a substantial change to how a policy would be applied.
- 5.40 The Council, at Appendix 9, have set out the minor modifications that the Council are proposing to make to the Local Plan.
- 5.41 In considering the content of the Local Plan and the comments received, the Council has also considered where the Inspector may wish to discuss matters that could constitute main modifications. Potential main modifications which are relevant at this point in time will be a consideration for the Planning Policy Committee on 19 December 2018 but are not included in this Regulation 22 statement as it is not for the Council to decide whether the main modification should be made. Any accepted main modifications will then be subjected to a further consultation should the examiner deem it appropriate and justified which could take place either part way through proceedings, or once proceedings are concluded but ahead of the Inspector's final report being issued.

#### Summary of Responses

- 5.42 All comments received will be sent to the Planning Inspectorate at the point of submission. In addition, to demonstrate the wider consultation process, which has taken place in preparing the plan, all statements of consultation and comments will also be submitted.
- 5.43 The list below focuses on the responses received to the Regulation 19, Our Local Plan: 2033, consultation and summarises the main points raised. It should be noted that these are not set out in a particular order:

Infrastructure concerns both in terms of its ability to be delivered as well as the pressure that development will place on existing services. Trains, roads, schools and medical services were a concern. As such, it was considered the plan was unsound.

That the Council were overstating its ability to secure infrastructure as service providers and Surrey County Council were not delivering what was required and as such there is a Country wide infrastructure deficit.

Comments on a perceived mismatch between the Infrastructure Delivery Plan and costs/funding identified in Our Local Plan: 2033. Comments also felt there was a shortfall in funding based on what had been allocated.

Criticism of the ability to mitigate the impact on the A22 and the M25 (Junction 6) was raised and comments relating to the viability of sites were also received.

That decisions on the land allocations on the plan had been predetermined, including South Godstone as the Garden Community and that it was not democratically/proportionately representative of the community views.

That consultation on the Local Plan was flawed and has failed its legal compliance, an example given is the lack of consultation on site HSG12, Lingfield.

That the assessment of HSG12 was not transparent and not-consistent across evidence-based documents, including the Sustainability Assessment and in terms of its heritage value.

That land allocations in Lingfield should have been directed to other sites being considered through the Neighbourhood Plan.

That there was no chance to object to the concept of the Garden Community and that the spatial strategy of the plan was wrong and therefore unsound. There was a polarisation of views on the spatial strategy with some feeling that too much reliance had been placed on the Garden Community, some arguing that:

- the distribution of development across Tier 1,2 and 3 settlements should be preferable to a Garden Community,
- the distribution of development should be across Tier 1, 2 and 3 settlements as well as a Garden Community, and
- that edge of settlement and development in general was still too high.

Numerous comments relating to the level of development were received with some saying the delivery figure was too high and unwarranted, with others saying that both the delivery target and the Objectively Assessed Housing Need was too low and should be either 610 or 645 to accord with the Standard Housing Methodology set out by Government.

That allocations in Oxted were disproportionate to its size and should have additional allocations, whilst the Caterham Cluster had been allocated too much development.

That more sites needed to be allocated both to increase viability, secure infrastructure and to meet needs.

That the balance of constraints versus meeting needs was not balanced and too heavily weighted in favour of the Green Belt and environmental constraints. It was felt that the Council

had never sought to meet needs in full and it had always been the intention that the OAN would not be met.

That the Council's approach to inseting was unsound and should not be applied on the basis of sustainability.

Comments were received regarding South Godstone Garden Community, with numerous objections, primarily from residents but also developers, including those promoting alternative options at Redhill Aerodrome and Blindley Heath. Reasons for objecting to the allocation included focusing on:

- Lack of consideration of Infrastructure
- Unacceptable highways impact
- A belief that Redhill aerodrome was preferable (and deliverable)
- Land assembly issues relating to multiple ownerships
- Unsound economic aspirations for what would otherwise be a dormitory settlement
- That Redhill Aerodrome should be a preferable option to South Godstone
- The Area of Search and general proposal was vague, with too much deferred to the Area Action Plan (AAP)
- That no affordable housing threshold had been identified

That the Station at South Godstone (Godstone Station) had had its services cut and was not a good option as it had no direct service to London and would cause people to drive to other mainline stations.

That the Council had not met their Duty to Cooperate in determining how the shortfall in meeting housing needs, would be met. Nor did the Council have a five-year housing land supply.

That not enough emphasis had been placed on the use of brownfield sites and that land supply over exaggerated empty homes and windfall.

That densities in Tier 1 settlements should be higher to avoid release of Green Belt.

That affordable housing thresholds are not correct, with some arguing 40% was too high and 20% for urban areas, too low.

Support for the plan in delivering affordable housing, although skepticism that it would be affordable, or that affordable homes would be delivered.

That housing would not be for local people, but for those from other areas.

Support for the approach taken to and consideration of the Surrey Hills Area of Outstanding Natural Beauty and the Area of Greater Landscape Value

That the allocation of sites in Warlingham, along Limpsfield Road, would result in an unacceptable level of congestion and loss of openness to that area.

How can you find your comments?

Online consultation portal – Objective

5.44 All valid comments are published online, via the Council's [consultation portal](#), Objective. These can be publicly viewed in two ways; either by using the 'Who Said What?' function and searching for the name of the consultee or agent who submitted responses to the Council, or by viewing all comments attributed against the consultation point within the document at the Foreword, in accordance with where all comments could be input on Objective.

Hard Copy

5.45 In addition to the online portal, comments can be viewed in hard copy at the Council Offices:

- Tandridge District Council, Station Road East, Oxted, Surrey RH8 0BT.

## 6 NEXT STEPS

- 6.1 This Statement of consultation forms one of the proposed submission documents referred to in Regulations 17, 19 & 22 of The Town and Country Planning (Local Planning) (England) Regulations 2012 and has been prepared under these regulations. Regulation 22 (1)(c) and (d) 2012 require that a statement of consultation be submitted to the Planning Inspectorate as part of the submission of Our Local Plan: 2033.
- 6.2 Subject to the agreement of the Planning Policy Committee, this document and all associated appendices will be added to the wider examination library and formally submitted in January 2019.
- 6.3 All interested parties listed on the Council's consultation database will be notified of key points in the submission and examination process via the Programme Officer.
- 6.4 Following on from the completion of the examination and being found sound, it will be for the Council to decide whether to adopt Our Local Plan: 2033 and this would be a decision for Full Council.

# APPENDICES

**Appendix 1: Committee Meeting Minute Extracts (All stages of consultation and preferred strategy)**

**Extract from Minutes of Planning Policy Committee 10 December 2015: Local Plan: Issues and Approaches Consultation (Regulation 18)**

**THE DISTRICT COUNCIL OF TANDRIDGE  
PLANNING POLICY COMMITTEE**

Minutes and Report to Council of the meeting of the Committee held in the Council Chamber, Council Offices, Station Road East, Oxted on the 10<sup>th</sup> December 2015.

**PRESENT:** Councillors Weightman (Chairman), Bond (Vice-Chairman), Mrs. Black, Caudle, Cooley, Harwood, Manley, Pannett, Mrs Steeds and Mrs Vickers.

**ALSO PRESENT:** Councillors Mrs. Connolly, Duck, Fisher, Mrs. Lockwood, Mrs. Marks, Stead, Turner and Mrs. Webster.

**IN ATTENDANCE:** Mr. Neil McDonald (NM Strategic Solutions Ltd).

**166. MINUTES**

The Minutes of the meeting held on the 17<sup>th</sup> September 2015 were confirmed and signed by the Chairman.

***COMMITTEE DECISIONS  
(Under powers delegated to the Committee)***

**167. ISSUES AND APPROACHES –LOCAL PLAN REGULATION 18 CONSULTATION 2015**

The Committee considered an Officer report which summarised the Local Plan process to date and explained the purpose of the accompanying draft 'Local Plan - Issues and Approaches' consultation document. It was intended that this document, together with associated evidence base papers and technical studies, would be the subject of the first phase of the statutory consultation process for the new Local Plan, as required by Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012.

The consultation document identified the key issues facing the District, together with the Local Plan objectives agreed at the previous meeting. It outlined seven alternative approaches

\*\*\* (summarised at Appendix 'A) for delivering varying quantities of homes and jobs with reference to the aforementioned objectives. This was in the context of an Objectively Assessed Housing Need (OAN) of 9,400 dwellings or 470 units per annum for the plan period up to 2033 (identified by the recent Objectively Assessed Housing Need Assessment, which formed part of the Strategic Housing Market Assessment, undertaken by NM Strategic Solutions Ltd and Turley

Associates). At this stage, no decisions on the ultimate delivery strategy were required and the background and technical papers, including any matters derived from them, were not being adopted as the Council's final position on those matters. The initial priority was to ensure that consultation took place on a range of theoretical approaches before moving to the next stage of the plan making process.

During the debate, various Member views / comments about the consultation document and associated matters were put forward, including:

- the maps in section 11 of the document should be re-produced in sharper focus with more distinguishable colour coding;
- the housing delivery figure for Caterham Valley in Approach 2A (222) should be reviewed given that the corresponding figure for Approach 2B was lower (196);
- paragraph 12.6.6, page 65 (regarding the prospect of a second runway at either Heathrow or Gatwick) should be amended by the addition of a further sentence, based on the proposed Aviation Policy D at the bottom of the same page, i.e. *“Another approach could be to safeguard land for whether Gatwick came forward, however, an appropriate location for this is unknown at this moment in time. The Council could suggest that the Local Plan is reviewed in 5 years following adoption to take account of Gatwick and Biggin Hill.”* (the Committee was advised that this change would be made); and
- certain property / site descriptions require correction in respect of references to Caterham School, Sunnydown School and Kenley Aerodrome.

Other individual Member opinions were expressed as follows:

- the Housing and Economic Land Availability Assessment (HELAA) should have acknowledged the role of Rural Exception Schemes;
- the OAN figure is inflated and the Green Belt Assessments are flawed, thereby rendering the Green Belt vulnerable to speculative applications and heightening the prospect of the Local Plan being deemed to be unsound;
- it would be inappropriate to identify so many open spaces as being deliverable, especially in view of the apparent restrictions on some of the sites (e.g. Fields in Trust) and the recent open space survey which identified a deficit in open space provision throughout Tandridge;
- the release of the OAN figure should have been accompanied by an 'actual requirement figure' and that failing to do so also renders the Green Belt vulnerable to speculative applications;
- notwithstanding national housing need, local provision must be manageable for Tandridge and small settlements should not be expected to absorb migration from elsewhere;

- Member consideration of feedback to the consultation document may require several meetings;
- plans for additional housing supply should be accompanied by an associated strategy to increase the provision of local jobs and that apparent inconsistencies between the HELAA and the Employment Needs Assessment should be addressed; and
- urban areas such as Caterham cannot absorb further housing development and, consequently, the provision of land elsewhere may be required.

In response to the above concerns, the Committee was advised that the publication of the consultation would have no impact on the application of current planning policy and did not, in itself, put the Green Belt in jeopardy. Conversely, Officers considered that the absence of a new Local Plan would pose significant risks. It was also explained that the Council was under a strict obligation to publish an unconstrained OAN figure according to a prescriptive methodology. Nevertheless, the technical paper could be the subject of representations throughout the consultation period and did not represent the Council's adopted position. The Chief Planning Officer clarified that the Local Plan could provide for a lesser housing supply, but that it was necessary to justify such a position.

**R E S O L V E D – t h a t**

- A. subject to minor typographical amendments / corrections and other clarifications requested by Members at the meeting, a 'Regulation 18 consultation' be undertaken on the 'Local Plan - Issues and Approaches' document and associated evidence base papers and technical studies in accordance with the Statement of Community Involvement; and
- B. authority be delegated to the Chief Planning Officer to finalise the Sustainability Appraisal and Duty to Cooperate Statement for inclusion in the consultation.

**NOTE:** In accordance with Standing Order 24(3) Councillor Manley wished it recorded that he voted against Resolutions A and B above.

**Alternative housing / economic delivery approaches identified in the 'Local Plan - Issues and Approaches' consultation document**

The following approaches are based on the proposed settlement hierarchy and are explained in the Spatial Options Topic Paper, both available via <http://www.tandridge.gov.uk/technicalassessments>. It should be noted that approaches 2-6 would all include Approach 1 as a starting point and approaches 3-6 would also include Approach 2A as urban sites should be encouraged as a priority and could come forward without any alteration to any settlement boundaries. Approach 5 would include Approaches 1, 2A, 3 and 4 and depicts an approach which has a maximum capacity.

- Approach 1 – Includes all development that has already been granted planning permission and is considered deliverable and could deliver approximately 1,531 homes for the plan period. Commercial space would be concentrated to existing sites already within inset areas. This approach is considered to be the Council's commitments and, therefore, is a baseline position.
- Approach 2A – Residential development would be concentrated within the existing inset areas of the District (Caterham, Warlingham, Whyteleafe, Oxted, Limpsfield, Hurst Green, Smallfield, Lingfield and Woldingham). This approach would deliver 2,336 homes for the plan period. Commercial space would be concentrated to existing sites already within the areas inset from the Green Belt.
- Approach 2B – This would take the same approach as 2A, however, at a higher density of approximately 70 dwellings per hectare. This could result in approximately 3,328 homes over the plan period. Once again, commercial space would be concentrated to existing sites already within the areas inset from the Green Belt.
- Approach 3 – Residential development would be concentrated to existing inset areas and to suitable sites which lie on the edge of urban settlements (Caterham, Warlingham, Whyteleafe, Oxted, Limpsfield, Hurst Green) and semi-rural service settlements (Smallfield, Lingfield and Godstone) which are currently in the Green Belt. This approach could deliver approximately 8,569 homes. All commercial sites within the District would be intensified.
- Approach 4 - Residential development would be concentrated within urban settlements (Caterham, Warlingham, Whyteleafe, Oxted, Limpsfield, Hurst Green) and to suitable sites that are currently in the Green Belt around the rural settlements (Bletchingley, Felbridge, South Godstone, Dormansland, South Nutfield, Woldingham, Old Oxted, Blindley Heath, Tatsfield). This approach could deliver approximately 3,895 homes. All commercial sites within the District would be intensified.
- Approach 5 – This approach is considered to be a 'maximum capacity' option based on the information available at this time. The approach would include scenarios 1, 2A, 3 and 4 and could deliver approximately 10,128 homes across the plan period and distributed on sites in urban settlements, semi-rural service settlements and rural settlements. All commercial sites within the District would be intensified.
- DS6 – This approach would take the form of a large sustainable urban extension or new settlement. The location, number of homes and employment space would be determined through the plan-making process. This is referred to as a 'broad location' through the NPPF.

Whilst housing delivery figures are associated with these approaches, they remain indicative and are informed by the information available to the Council at this time through the Housing and Economic Land Availability Assessment. As the HELAA is an annual process, new sites may come forward or be withdrawn, resulting in an amendment to the sites considered through the Local Plan process. Also, consideration of technical studies, such as the Green Belt Assessment, transport modelling, infrastructure studies and the sustainability appraisal could change the housing delivery figures as the plan progresses.

**Extract from Minutes of Planning Policy Committee 31 October 2016 Local Plan: Sites Consultation (Regulation 18)**

**THE DISTRICT COUNCIL OF TANDRIDGE**

**PLANNING POLICY COMMITTEE**

Minutes and Report to Council of the meeting of the Committee held in the Council Chamber, Council Offices, Station Road East, Oxted on the 31<sup>st</sup> October 2016.

**PRESENT:** Councillors Bond (Chairman), Mrs. Black, Botten, Harwood, Jecks, Mrs Steeds, Mrs Vickers and Wren.

**ALSO PRESENT:** Councillors Ainsworth, Allen, Blake-Thomas, Mrs. Connolly, Childs, Davies, Mrs Dunbar, Duck, Mrs Lockwood, Fisher, Fitzgerald, Mrs Parker, Perkins, Prew, Pursehouse, Mrs. Thorn and Mrs Webster.

**136. MINUTES**

The minutes of the meeting held on the 15<sup>th</sup> September 2016 were confirmed and signed by the Chairman.

***COMMITTEE DECISIONS***  
***(Under powers delegated to the Committee)***

**137. STATEMENT OF CONSULTATION - LOCAL PLAN: ISSUES AND APPROACHES CONSULTATION (REGULATION 18)**

Consultation on the Local Plan: Issues and Approaches document had taken place between the 18<sup>th</sup> December 2015 and 26 February 2016. This was in accordance with the Localism Act 2011 and Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012 (hence the term Regulation 18 consultation). It also complied with the Council's Statement of Community Involvement (September 2015).

Approximately 950 individual parties had been contacted (including statutory consultees). Press releases, social media, leaflets etc. were also used to raise awareness of the consultation. 5,202 comments from 3,171 individual parties were received. Around 3% of the comments were made by organisations including developers, parish councils, residents' groups and statutory bodies. Two petitions and one collective response had also been received.

A Statement of Consultation (SoC) had been prepared in accordance with Section 22(c) of the Town and Country Planning (Local Plan)(England) Regulations 2012, which documented the comments and how they had been dealt with. Ultimately, it

would be used by the Planning Inspector to identify how consultation feedback has been taken into account when preparing the final plan.

\*\*\* The Committee was presented with an analysis of the comments, summarised at Appendix 'A', together with the following key actions to be taken forward in the plan-making process:

- the need to undertake a site-based consultation, prior to determining the preferred strategy to be included in the Local Plan;
- the need to consider current open spaces more fully and explore other typologies to include cemeteries and allotments;
- the need to undertake further work and consultation to explore the idea of a new settlement or urban extension (Approach 6) as a reasonable alternative which could assist with meeting development needs;
- to ensure that the plan to be submitted has regard to farming, agriculture and the rural economy;
- to improve how consultation is carried out, particularly in terms of the clarity and terminology used in documents and to make them more accessible to those with an interest;
- to consider whether there is a need to 'safeguard' land for beyond the plan-period and the mechanisms and justification for doing this;
- to ensure that the Local Plan to be submitted is accompanied by, and reflective of, any necessary updates to evidence to accord with the requirements of national policy, such as the Strategic Housing Market Assessment, which will need to reflect the most up to date demographic position at the point of submission;
- amendments to issues, objectives and the vision of the plan to be submitted; and
- additions to be made to the glossary.

Specialist advice had been sought on some of the comments relating to the Strategic Housing Market Assessment and the Objectively Assessed Housing Need (OAN). Hence, the SoC included a specific and detailed paper prepared by NMSS, the consultant who prepared the Council's evidence on the OAN.

Actions in response to the consultation would be implemented at the most appropriate point in the plan-making process. The most immediate action would be to consult on the Local Plan: Sites Consultation document (Minute 138 below refers).

**RESOLVED** – that the Statement of Consultation and the proposed actions set out within be noted.

*Note: in accordance with Standing Order 24:*

- *Councillor Botten wished it recorded that he abstained from voting; and*

- *Councillor Wren wished it recorded that she voted against the resolution.*

## 138. LOCAL PLAN: SITES CONSULTATION – REGULATION 18

This additional consultation stage had been agreed by the Committee at its 28<sup>th</sup> June 2016 meeting and would seek the views of a range of parties, including statutory consultees, development professionals and the public. Recently prepared evidence based documents had played a significant role in the preparation of the proposed consultation document, including the Landscape Capacity and Sensitivity Study; Site-based Ecology Assessments; and the Green Belt Assessment Part 2: Areas for Further Investigation (2016).

The Committee was informed that various methods would be used to raise awareness of the exercise, including the delivery of leaflets to all households and public ‘drop-in’ sessions to provide an opportunity to view the documents and ask questions. The structure of the consultation document was explained as follows:

Part 1 - for individual sites (stemming from the Council’s Housing & Economic Availability Assessment 2016 and the Economic Needs Assessment 2015) an assessment of whether:

- the site already has a good prospect of being considered for development under current adopted policy; or
- further information is required before a decision can be made to include, or reject it from consideration in the Local Plan; or
- the site cannot be recommended for development.

The sites were categorised according to whether they were in the Green Belt and, if so, whether the land was considered to meet a Green Belt purpose. The assessments concluded with a colour coding to reflect the degree of sensitivity to development in light of landscape and ecology based evidence, i.e.

- green (sites that have a good prospect of being considered for development under current adopted policy)
- amber (sites which need to be assessed against further evidence, including an ‘exceptional circumstances Green Belt test’ before a decision can be made to include or reject them from consideration in the Local Plan)
- red (sites which evidence had ruled out from further consideration).

Part 2 – further exploration of the concept of a new or extended settlement (as set out in the Local Development Scheme report to the 28<sup>th</sup> June 2016 Planning Policy Committee) which was initially considered through Approach 6 of the earlier Issues and Approaches document. Two areas were presented as being potentially suitable for further consideration, namely South Godstone and Blindley Heath and it was proposed to seek views accordingly. These two areas had been identified via a process of analysis set out in the

Spatial Approaches Sites Consultation Topic paper. The consultation would allow respondents to comment on the approach to determining the two potential areas.

This consultation would not ask whether the Council should exclusively consider individual sites, *or* a new or extended settlement. The approach taken to the location of development up to 2033 would need to be addressed by the delivery strategy for the Local Plan. Responses to the sites consultation would assist in informing that strategy.

The Chief Planning Officer advised that he intended to make minor amendments to the document before the consultation launch on 4<sup>th</sup> November, including presentational enhancements to the maps; listing sites in alphabetical order; and identifying the electoral Ward for each site. Following a Member request, he agreed that such revisions would be in consultation with the Chairman of the Committee.

Councillor Wren proposed the following amendment to the Officer recommendations:

*“the Local Plan Sites Consultation be not put out for consultation today but that the documents are corrected without further delay” ... [on the basis that] .. “the large number of amber sites puts the Tandridge Green Belt at unjustified and unnecessary risk from immediate planning applications – two have already been made – the red sites have been labelled as ‘deliverable and developable’ leaving them too at risk”.*

This was seconded by Councillor Botten.

The above mentioned reference (in Councillor Wren’s proposed amendment) to sites being labelled as ‘deliverable and developable’ related to the Housing and Economic Land Availability Assessment (HELAA). The Chief Planning Officer advised that the HELAA is a point in time piece of evidence, though created through an iterative process and updated annually. The 2016 HELAA was used to identify sites that would be subjected to landscape and ecology studies. He explained that the Sites Consultation would seek views on how those studies have been interpreted and that, if feedback confirmed that they should not be considered further, the 2017 iteration of the HELAA would categorise them accordingly. However, he considered that it would be premature to remove the ‘deliverable and developable’ classification from the current HELAA at this stage in advance of the sites consultation. In summary, the Council needed to demonstrate that all parts of the plan making process were being consulted upon.

A range of Member views were expressed during the debate on the amendment, i.e. :

- the onus should not be on residents to prove that certain sites should not be developed;
- the Sites Consultation process will help provide TDC with evidence to protect the Green Belt;
- publication [in the HELAA] of the 16,104 housing need requirement

(2013-2033) isn't helpful;

- the Objectively Assessed Housing Need figure is not surprising in the context of population growth forecasts;
- the Resources Committee should have been asked to consider all Council owned sites to enable decisions not to submit the majority of them to the HELAA;
- in response to the above, there was a sound rationale for selecting the Council owned sites presented to the Resources Committee on 25<sup>th</sup> October (e.g. part of a wider strategic regeneration or to provide much needed affordable homes).

The Chairman suggested that, prior to the vote, and in accordance with advice from the Chief Executive, the amendment be reworded as follows in order to clarify the 'corrections' being sought:

*"That prior to the Local Plan Sites Consultation documents being issued for consultation, the red sites labelled as 'deliverable and developable' be removed from the HELAA)".*

The vote proceeded accordingly and the amendment was lost.

Discussion ensued on the original recommendations before the Committee and further opinions were put forward by Members, including:

- the Strategic Flood Risk Assessment 2016 should be amended to take account of the position in Caterham following the 7<sup>th</sup> June 2016 flash floods; and
- certain aspects of the evidence based documents were misleading and contradictory.

Opposing views were expressed regarding the adequacy of arrangements for engaging Members to date.

Arising from the debate, the Chief Planning Officer confirmed that the public inquiry into the Local Plan was unlikely to be scheduled before 2018. Until the new Plan was in place, planning applications would be considered in accordance with the Core Strategy 2008 unless other material considerations dictated otherwise.

**RESOLVED** – that

- A. in accordance with the statement of community involvement, a Regulation 18 consultation on the Local Plan: Sites Consultation document, set out in Appendix 'A' to the report, be undertaken; and
- B. the finalisation of the Duty to Cooperate Statement, Equalities Impact Assessment and any minor formatting changes to the documents to be published for inclusion in the consultation be delegated to the Chief Planning Officer in consultation with the Chairman of the Committee.

*Note: in accordance with Standing Order 24, Councillor Wren wished it recorded that she voted against the resolutions.*

**Extract from Minutes of Planning Policy Committee Meeting 16 March 2017  
– Local Plan Preferred Strategy**

**THE DISTRICT COUNCIL OF TANDRIDGE**

**PLANNING POLICY COMMITTEE**

Minutes and Report to Council of the meeting of the Committee held in the Council Chamber, Council Offices, Station Road East, Oxted on the 16th March 2017.

**PRESENT:** Councillors Bond (Chairman), Jecks (Vice-Chairman), Mrs. Black, Botten, Mrs. Dunbar, Harwood, Jones, Prew, Mrs Steeds, Mrs Vickers and Wren.

**ALSO PRESENT:** Councillors Ainsworth, Allen, Mrs. Blake-Thomas, Childs, Duck, Elias, Fisher, Fitzgerald, Mrs. Lockwood, Pursehouse, Stead, Mrs. Thorn, Wates, Weightman and Mrs. Young.

**248. LOCAL PLAN UPDATE AND EVIDENCE GATHERING**

At the Planning Policy Committee meeting on 28th June 2016, Members adopted an amended Local Development Scheme (LDS) which set out the timetable for preparing the Council's Local Plan. At a further meeting of the Committee on the 18th January 2017, discussion had focused on the need for new monitoring indicators to suitably reflect the preparation of the Plan.

Detailed information was presented to the Committee on progress in respect of the following issues:

**Local Plan: Sites Consultation**

A public consultation had taken place between 4th November and 30th December 2017. Currently, 4,399 comments had been recorded as being received from 1,553 individuals and interested parties. The site specific nature of the consultation had resulted in a number of technical responses, relating to how the Council had considered constraints in the assessment of sites, such as flooding, landscape and the Green Belt. It would be essential in analysing these lengthy responses to demonstrate to the Planning Inspector that the suitability and deliverability of sites had been appropriately considered.

Following the completion of inputting, all comments would be made publically available to view online. A Statement of Consultation setting out the key comments and the Council's responses will be presented to Committee at a future meeting.

**Evidence Gathering**

The Committee was reminded that a Local Plan must be based on robust evidence that is able to withstand scrutiny at examination and prepared in accordance with the methodologies set out in the National Planning Policy Framework (NPPF) and Planning Practice Guidance (PPG) where they exist. This evidence shows the Planning Inspector and interested parties how the Council has justified the content of the Local Plan and responded to legislative requirements.

A large amount of evidence and technical studies had already been undertaken, but before the Local Plan could be finalised and the next round of public consultation undertaken, further evidence would be needed. Members were presented with the table at **Appendix 'B'** which highlighted significant pieces of evidence that would need to be presented to the Inspector.

The Planning Policy Team, with the help of external consultants if needed, would continue to gather evidence to prepare a number of topic papers and a strategic policy review as well as the actual preparation of the Local Plan document itself.

### **Working Group**

Members were asked to consider the setting up of a Local Plan Working Group to act in an advisory capacity in helping to oversee the progression of the Local Plan and to provide support to officers in developing proposals for consideration by the Committee.

### **Proposed New Performance Indicators PL10 and PL11**

At the Committee's meeting on 18<sup>th</sup> January, Members had raised the importance of the Council's ability to monitor the preparation of the Local Plan. It had been suggested that two new indicators should be created to test whether Local Plan milestones had been met and the extent to which the the Council "*had carried its residents with it in the delivery of its Local Plan*". The following indicators and measurements were considered:

<b>Indicator</b>	<b>Measurements</b>
PL10 - The extent to which the milestones for the successful production of the Local Plan, as set out in the most up to date Local Development Scheme, have been met.	Preparation of a Local Plan Pre-submission version by the 3 <sup>rd</sup> quarter of 2017/18  Review of the Community infrastructure Levy to ensure compliance with the Local Plan (to commence in the 3 <sup>rd</sup> quarter of 2017/18)

<p>PL11 – The extent to which the Council can demonstrate that local residents understand and have confidence in the process for delivering the Local Plan.</p>	<p>Responses to specific relevant questions in the Council’s full residents’ opinion survey (to be conducted in June).</p> <p>Responses to further qualitative assessment of residents’ understanding at other key milestones.</p> <p>The number and quality of responses to further local plan consultation documents themselves.</p>
---	--

**RESOLVED** – that:

- A. the report be noted;
- B. the following additional performance indicators be adopted:
  - PL10 – the extent to which the milestones for the successful production of a Local Plan, as set out in the most up to date Local Development Scheme, have been met; and
  - PL11 – the extent to which the Council can demonstrate that local residents understand and have confidence in the process for delivering the Local Plan; and
- C. a Local Plan Working Group, comprising the following Members, be established to oversee the Local Plan process to Regulation 22 submission stage:
  - the Chairman of the Planning Policy Committee;
  - the Vice-Chairman of the Planning Policy Committee
  - the Chairman or Vice-Chairman of the Planning Committee
  - the Leader of the Council
  - the Leader of the Opposition

## 249. LOCAL PLAN: PREFERRED STRATEGY

Members considered a report regarding a preferred strategy for the preparation of the Local Plan. The Committee was advised that, without a preferred strategy, it would not be possible to prepare a pre-submission (Regulation 19) version of the Local Plan which would subsequently be submitted to the Planning Inspectorate for examination.

The Council would only be able to deliver just over a third of the housing needed without looking at the Green Belt. This approach would not boost supply of housing as required by Government and would not pass the independent examination of the Local Plan, which could mean the Council losing the ability to control and plan for development in the district, putting more Green Belt at risk.

The preferred strategy of the Local Plan is one that will provide much needed homes and infrastructure by delivering a strategic development which accords with the

principals of a Garden Village for the long-term, and to focus development to our urban and semi-rural service centres for the shorter term, whilst also supporting our Neighbourhood Plans.

The Green Belt boundary would only be amended in locations where the Green Belt purposes are not served, and where exceptional circumstances are demonstrated.

Five sites had been submitted to the Council by landowners and developers which would be further considered to assess their suitability as a location for a Garden Village. These sites were on land in Blindley Heath; Chaldon – Alderstead and Tolsworth Farm; land west of Edenbridge; Redhill Areodrome and South Godstone. Once the locations that could be developed had been identified, further consideration would take place to ensure the final Local Plan catered for present and future needs.

Various matters were discussed during the ensuing debate, including:

- the merits of a garden village approach;
- housing densities / infill developments elsewhere;
- residents' quality of life;
- release of Green Belt;
- the need for sustainable development, supported by adequate infrastructure, including measures to mitigate against the risk of flooding;
- the need to address local housing need, including an appropriate supply of affordable dwellings;
- inward migration;
- shared costs on district borders;
- risks associated with a failure to achieve a sound Local Plan;
- the Government's Housing White Paper ;
- arguments that the Council's previous planning policy documents were not fit for purpose.

Councillor Botten proposed the following additional Objective to be inserted into the Preferred Strategy to reflect the continued importance of green and open spaces:

***“Recommended Urban Open Space and Community Facilities Objective:***

*Encourage healthier and stronger communities across the District, by ensuring sufficient access to quality parks, open spaces, sports and community facilities and to protect the spaces and facilities that serve the needs of residents”.*

This was seconded by Councillor Mrs. Black.

The vote proceeded accordingly and was carried.

**RESOLVED** – that

- A. the Preferred Strategy for the Local Plan as set out in Appendix 'A' to the Agenda, with the addition of the extra Objective detailed above, be agreed; and
- B. officers proceed in preparing the next iteration of the Local Plan as directed by the Committee.

## Extract from Minutes of Planning Policy Committee 27 June 2017 – Local Plan: Garden Villages Consultation (Regulation 18)

### THE DISTRICT COUNCIL OF TANDRIDGE

#### PLANNING POLICY COMMITTEE

Minutes and Report to Council of the meeting of the Committee held in the Council Chamber, Council Offices, Station Road East, Oxted on the 27th June 2017.

**PRESENT:** Councillors Bond (Chairman), Jecks (Vice-Chairman), Mrs. Black, Botten, Mrs. Dunbar, Harwood, Jones, Prew, Mrs. Steeds and Wren.

**ALSO PRESENT:** Councillors Allen, Mrs. Blake-Thomas, Childs, Duck, Fisher, Mrs. Lockwood, Manley, Perkins, Mrs. Thorn and Mrs. Webster.

**APOLOGIES FOR ABSENCE:** Councillor Mrs. Vickers.

#### **COMMITTEE DECISIONS** *(Under powers delegated to the Committee)*

#### **44. LOCAL PLAN UPDATE AND GARDEN VILLAGE CONSULTATION (Minutes 248 and 249 (16/17))**

At the Planning Policy Committee meeting on 16th March 2017, Members adopted a preferred strategy for the Local Plan, namely a strategic development which accords with the principles of a garden village for the long-term, whilst focusing development to the urban and semi-rural centres and supporting Neighbourhood Plans in the shorter term. The five locations being assessed for a potential garden village settlement were Blindley Heath; Chaldon (land at Alderstead and Tollsworth Farm); land west of Edenbridge; Redhill Aerodrome; and South Godstone.

The Committee considered a report explaining the local plan process to date, together with recommendations about how the Council should proceed to the next stages, including further public consultation requirements. The report included:

- (i) the table, as shown at **Appendix ‘B’** to these Minutes, highlighting the evidence gathering work already underway and what further studies would need to be undertaken (a number of the studies would need to be updated in light of the aforementioned preferred strategy).
- (ii) A summary of comments in response to the previous sites consultation which ran for an eight week period ending on the 30th December 2016. Over 4,700 comments had been recorded as being received from more than 1,700 individuals and interested parties. The feedback confirmed that respondents

required further information before any decisions were taken on the garden village settlement. If the Council continued to pursue the current Local Development Scheme and timetable, the next iteration of the Local Plan for consultation would be the proposed submission version of the document. This would result in no further information being publically available to comment upon until after the decision for the preferred garden village location would need to have been made. As three of the five locations being considered had not been consulted upon previously, it was not deemed appropriate to progress to the proposed submission stage without seeking further comment from the public and other consultees.

- (iii) Reference to the role of the Local Plan Working Group and a summary of its recent meetings. (The Group comprised the Chairman and Vice Chairman of the Committee; the Leader of the Council; the Leader of the Opposition; and the Chairman or Vice-Chairman of the Planning Committee). Officers verbally corrected the report which suggested the Chief Executive was a member of this Group when in fact she is an attendee of the LPWG and not one of its members.

Arising from the issues referred to in (ii) above, Members were asked to endorse a focused public consultation on the potential locations being considered for a garden village. It was anticipated this would run for six weeks during August/September 2017. Assistance from an external planning professional would be sought to take a leading role in the process and to allow Officers to continue work on all the other sites and policies to be included in the Local Plan. An interim update to the Local Development Scheme would be required to reflect this additional consultation phase.

A draft template for the garden village consultation document was attached to the report and it was recommended that production of the final version be delegated to the Chief Planning Officer. Councillor Botten proposed an amendment requiring the Local Plan Working Group to be consulted on the document prior to publication. This was seconded by Councillor Harwood. Upon being put to the vote, the amendment was carried.

Various Member questions were answered during the debate, including issues such as site boundaries and the role of broad locations; green open space; urban centres; housing supply numbers; flood risks; developer pressure, undeliverable sites; potential impact on the Green Belt; infrastructure and risks and the activities of the Working Group.

**RESOLVED** – that:

- A. the report be noted;
- B. a focussed public consultation be undertaken on the potential locations being considered for a Garden Village, in accordance with Regulation 18 of the Town and Country Planning Regulations 2012;
- C. the finalisation and content of the Local Plan: Garden Village consultation document, be delegated to the Chief Planning Officer, in consultation with the Local Plan Working Group; and

- D. an interim update to the Council's Local Development Scheme be adopted, to reflect the undertaking of a Garden Village Regulation 18 consultation.

**NOTE:** In accordance with Standing Order 24, Councillor Wren wished it to be recorded that she voted against the resolutions on this item.

#### **45. GARDEN VILLAGE CONSULTATION – GENERAL URGENCY PROVISION UNDER STANDING ORDER NUMBER 33 (Minute 44)**

Members received a report advising of the urgent action taken by the Chief Planning Officer in letting a contract to undertake the 'garden village consultation' referred to in Minute 43 above. The report explained that, following the adoption of the preferred strategy for the Local Plan on the 16<sup>th</sup> March 2017, work on the required consultation needed to commence immediately in order to minimise delay in the preparation of a Local Plan. The Chief Planning Officer had therefore utilised the urgency provision of Standing Order 33 to commission a contract for delivery of the consultation. The contract had subsequently been let to East Hampshire District Council in the sum of £159,400.

The main discussion ensued on how the public/residents could obtain information and participate in the consultation and how the process could be best delivered.

***RESOLVED*** – that, the urgent action taken under Standing Order 33 be noted and the additional expenditure incurred be referred to the Resources Committee.

**Extract from Minutes of Planning Policy Committee 3 July 2018 – Our Local Plan: 2033 Consultation (Regulation 19)**

**THE DISTRICT COUNCIL OF TANDRIDGE  
PLANNING POLICY COMMITTEE**

Minutes and Report to Council of the meeting of the Committee held in the Council Chamber, Council Offices, Station Road East, Oxted on the 3<sup>rd</sup> July 2018.

**PRESENT:** Councillors Jecks (Chair), Duck (Vice Chair), Ainsworth, Black, Bourne, Dennis, Dunbar, Farr, Fisher, Harwood, Jones and Lockwood.

**APOLOGIES FOR ABSENCE:** Councillors Botten and Wren.

**ALSO PRESENT:** Councillors Allen, Cannon, M. Cooper, Elias, Fitzgerald, Lee, Mills, Morrow, Pursehouse, Ridge, Sayer, Steeds, Steer, Vickers, Wates and White.

**50. MINUTES**

The minutes of the meetings held on the 15<sup>th</sup> March and 24<sup>th</sup> May 2018 (immediately after the Annual Council meeting) were confirmed and signed by the Chair.

**51. QUESTION SUBMITTED UNDER STANDING ORDER NO. 29(2)**

Councillor Sayer asked the following question:

*“How are Councillors expected to make a decision on the draft Local Plan when they have not been given, in reasonable time, the evidence documents which the Council is using to support its Plan? Some of the evidence documents have finally been published today [26th June]– that is just 4 working days before the Planning Policy Committee meeting on 3<sup>rd</sup> July 2018. However, please note that at the time of writing [26th June] a number of key evidence documents have still not been made available to Councillors.”*

The Strategic Director of Place responded as follows:

*“I understand that there will be an amendment to the substantive motion to assist with this issue. I can confirm, however, that the Local Plan has been prepared in accordance with the evidence. The statutory consultation period provides the important opportunity to comment formally on the soundness and legal compliance of the draft Plan before the Committee decides later in the year whether to submit to the Plan to the Planning Inspectorate for examination.”*

**COMMITTEE DECISIONS**  
(Under powers delegated to the Committee)

## 52. OUR LOCAL PLAN: 2033 PRE SUBMISSION CONSULTATION (REGULATION 19)

A report was presented to enable the Committee to consider the above Local Plan. It was accompanied by the proposed Local Plan itself and the following documents:

- Infrastructure Delivery Plan
- Sustainability Appraisal
- Habitats Regulations Assessment
- Equalities Impact Assessment
- Policies Maps.

The report explained the work undertaken in preparing the plan since the latter end of 2014, including three public consultations. It emphasised that *“the ... Plan would deliver only the level of development that the physical, environmental and policy constraints of the District allow and once evidence has been amassed and considered in full”*. Officers confirmed that the housing delivery target for the plan period was 6,124 (not 6,137 as stated within the report). This compared with the Objectively Assessed Housing Need figure of 9,400. It was also lower than the expected figures presented by the Government’s impending Standardised Housing Methodology.

An entire section of the Plan was dedicated to the formal identification of a Garden Community at South Godstone with associated infrastructure improvements aimed at benefiting residents throughout the District. The development would be guided by an Area Action Plan (AAP) to be the subject of formal consultation and Examination in Public by a Planning Inspector.

The report recommended that, *“a public consultation on the final draft of the Local Plan [and the above mentioned supporting documents] ..... be undertaken in accordance with Regulation 19 and Regulation 20 of the Town and Country Planning Regulations 2012”* and that *“authority be delegated to the Strategic Director of Place to agree minor alterations [to the documents].”*

The item began with contributions from the following individuals who had registered their wish to speak under Standing Order 29(3):

Name	Main points conveyed to the Committee
John Osmond (Lingfield resident)	Concern that the potential duration of the Area Action Plan process could result in the area outlined for the Garden Community location being blighted.
David Hughes (on behalf of the Tandridge Lane Action Group)	Argued against the location of a Garden Community at South Godstone.
Dr. Ed Cetti (Consultant Physician - Surrey & Sussex Healthcare NHS Trust)	Supported the location of the Redhill Aerodrome site as the location for a Garden Community and the benefits it would bring to the Trust’s services.

Name	Main points conveyed to the Committee
Roger Tustain (Nexus Planning, on behalf of Taylor Wimpey)	Concern about (in his opinion) inaccuracies and bias within the Sustainability Appraisal. Urged deferral to enable further discussion with site promoters.
Martin Paddle (Director of Transport and Development Planning - Thakeham Homes)	Argued in favour of the Redhill Aerodrome site as the location for a Garden Community and against the South Godstone option.
Rosemary French (Executive Director of the Gatwick Diamond)	Emphasised the importance of access to employment opportunities as a key factor in selecting the location of the Garden Community.

The Chair thanked the speakers and explained the purpose of a tabled amendment which sought to replace the Officer recommendations (referred to above) with A to E below. He explained that the amendment intended to address Member concerns that insufficient time had been made available for Councillors to scrutinise the relevant documents and make informed judgements about the impact of the various proposals on their Wards, despite the documents being made available prior to the statutory deadline. He anticipated that this would result in a more robust Plan. The extent to which the Local Plan timetable could be slipped needed to be balanced against the Government's impending revisions to the National Planning Policy Framework and the limited timeframe during which the Plan could be assessed against the existing NPPF with its less stringent housing delivery targets.

Upon introducing the report, officers explained why an additional policy was required to discourage (Gatwick) airport related parking.

A range of Member opinions and comments were expressed during the ensuing debate, including:

- a request for greater clarity about the implications of the 'North Tandridge One Public Estate Programme';
- a view that the new Plan may not offer sufficient protection from speculative development and this, coupled with the prospect of increased densities, threatened the character of urban areas;
- perceived lack of certainty about the capacity to deliver the required infrastructure;
- concern that the 20% affordable housing requirement in urban settlements is too low, notwithstanding the fact that this target was informed by an independent assessment about the economic viability of bringing sites forward for development (recommendation D of the tabled amendment sought to address this);
- an opinion that the Plan was flawed and too vague; that constraints to development had not been taken into account; and that the settlement hierarchy analysis misrepresented the District;
- a view that some of the existing 'Core Strategy (2008)' policies and 'Detailed Policies (2014)' had been effective in protecting the District from inappropriate

development and should be preserved as part of the new Local Plan (in response to this, it was agreed that an additional clause be added to the tabled amendment identifying which of the aforementioned policies should be considered for retention);

- there should be an opportunity for Members to debate the merits of the various sites being identified for potential development;
- the new Plan should be welcomed as offering protection from excessive house building while enabling local economic development via the allocation of specific sites for employment purposes;
- the consequences of delaying the process and exposing it to the new NPPF regime were untenable;
- the Planning Policy team should be thanked for their hard work and diligence in preparing the Plan;
- previous speculation about the required quantities of new housing had been exaggerated; and
- an opinion that the Plan had been positively prepared and is justified, effective and consistent with national policy.

Officers explained the rationale for selecting the South Godstone option as the recommended Garden Community site.

Arising from concerns about the housing allocation policies for Warlingham, Councillor Jones proposed an amendment to HSG 15 (Land west of Limpsfield Road, Road, Warlingham) in accordance with G below. This was seconded by Councillor Fisher. Local Members speaking in favour of this amendment argued why a 'green buffer' to the frontage of the site was necessary. Upon being put to the vote, the amendment was carried.

Regarding the intention to give Members up until 5pm on the 17<sup>th</sup> July to make representations on the impact of the proposed new Plan, the Strategic Director of Place advised that, ideally, the subsequent six week public consultation (on the Plan with any consequent amendments) would commence on the 30<sup>th</sup> July. Councillor Jones, seconded by Councillor Dennis, moved an amendment that *"a further Planning Policy Committee meeting be convened during the week of the 30<sup>th</sup> July to consider the outcome of further deliberations on the Local Plan documents"*. Upon being put to the vote, the amendment was lost.

The contents of the 'tabled amendment' were then put to the vote and carried. This was followed by a vote on the substantive motion which was also carried, the effect of which was that the Committee ....

**RESOLVED** – that

- A. subject to recommendation C below, the final draft of the Local Plan attached as Appendix A to the report, together with the Infrastructure Delivery Plan, Sustainability Appraisal, Habitat Regulations Assessment, Equalities Impact Assessment and Policies Maps

(Appendices B-F), collectively known as the Local Plan Documents, be approved;

B. in order to allow further time for Members to scrutinise the potential changes to the Council's existing policies currently contained in the "Tandridge Local Plan Part 2: detailed Policies 2014-2029", officers consider any representations made by Members on the proposed new policies, such representations to be received by 5pm on Tuesday 17<sup>th</sup> July 2018;

C. authority be delegated to the Chief Executive, in consultation with the Chair of this Committee and the Leaders of all four political groups represented on the Council, the finalisation, in light of comments received in accordance with recommendation B above, of the Local Plan Documents for publication pursuant to Regulation 19 of the Town and County Planning (Local Planning) (England) Regulations 2012;

D. officers ensure that, as part of the preparation of the Area Action Plan for the Garden Community, it is made clear to developers that at least 1000 of the homes to be delivered shall be homes, including shared ownership, self- build and other rented homes, to which the Council will have nomination rights on behalf of Tandridge residents;

E. the following additional policy be included in the Local Plan Documents:

**TLP51: Airport Related Parking:** Proposals for additional or replacement airport related parking, including long and short term parking for passenger vehicles, will not be permitted;

F. as part of the review process described in C above, Officers specifically consider the retention of the following policies within 'Our Local Plan: 2033':

- Core Strategy (2008) policy CSP 18; and
- Detailed Policies (2014) DP 3,7,8,13 and 17;

G. regarding policy HSG 15 (Land west of Limpsfield Road, Warlingham) on pages 124 to 126 of Appendix 'A' to the Committee report:

- the wording under 'Landscape' be replaced by the following text:

*"Sensitive landscaping reflective of the site's contribution to the character of Warlingham and its Green Belt location will need to be factored into any application for the benefit of the local community and local character, neighbouring properties and the open fields beyond. (This to include a green strip to the frontage of the site bordering Limpsfield Road which will, inter alia, provide local amenity space);*

- the wording of the 2<sup>nd</sup> bullet point under 'Infrastructure' to be amended to:

*“re-provision of high quality and suitably located playing pitches; where possible these should be provided in the Warlingham area and/or in accordance with the requirements of the most up to date Open Space Assessment and Playing Pitch Strategy”.*

**Notes:**

- (i) In accordance with Standing Order 12(3) Councillors Bourne, Farr and Lockwood wished it recorded that they voted against resolutions A to E above.
- (ii) Councillor Jecks wished it known that, for the sake of transparency, he had a family member who lived in Blindley Heath. Whilst this did not amount to a disclosable interest under the Members' Code of Conduct, he wanted the public to be aware of this fact.

## **Appendix 2: Notifications and Statutory Letters (Regulation 19)**

Email

Consultation Portal Username: xxx

Dear xxx,

**Our Local Plan: 2033 Consultation (Regulation 19)**

Have your say during the 6 week consultation between **9:00 on 30 July 2018 and 17:00 on 10 September 2018.**

**What are we consulting on?**

Tandridge District Council has prepared a Local Plan which sets out the vision for the district and that, once adopted, will guide key planning decisions up to 2033.

The Local Plan presents: the spatial strategy, the policies and proposals to deliver homes (both market and affordable) and employment, it puts in place greater protections for our landscape and natural and historic environment and sets out the requirements for open space and sports provision, flood mitigation and green and blue infrastructure. The housing delivery target for the plan is 6,056, some of which will be met by a Garden Community development at South Godstone. The plan is underpinned by an ambitious economic strategy and is heavily infrastructure led and will seek to deliver new primary and secondary school provision, health facilities, road and rail improvements, open spaces and flood mitigation.

The consultation is being conducted in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and any representations made considered in accordance with Regulation 20, of the same legislation. Our Local Plan: 2033 is accompanied by a Sustainability Appraisal and Habitat Regulations Assessment.

The Council has already carried out three Local Plan consultations; the Issues and Approaches 2015, Sites Consultation 2016 and the Garden Villages Consultation 2017. Regulation 19 is a consultation more focused on procedural matters and presents the opportunity to comment on the policy content of a draft Local Plan, within a specific remit which relates to *legal compliance* and the '*Tests of Soundness*' as set out at Paragraph 182 of the National Planning Policy Framework.

Along with the Duty to Cooperate, soundness and legal compliance are the matters that the government Planning Inspector, appointed to examine our plan, will focus on and which will guide the matters for discussion at the Examination in Public.

### **Where can I view the documents?**

Our Local Plan: 2033 Consultation and associated technical studies can be viewed on the Council's website (<http://www.tandridge.gov.uk/localplan>) or alternatively the document can be viewed on our consultation portal where comments can also be made directly ([http://tandridge-consult.objective.co.uk/portal/planning\\_policy/local\\_plan\\_reg19/local\\_plan\\_reg19](http://tandridge-consult.objective.co.uk/portal/planning_policy/local_plan_reg19/local_plan_reg19)).

In addition, hard copies of the documents can be viewed at the Council Offices (8 Station Road East, Oxted, Surrey, RH8 0BT) and in each of the libraries in the district (Oxted, Warlingham, Lingfield, Caterham on the Hill, Caterham Valley) as well as Edenbridge, Horley and Redhill libraries.

### **How to comment**

You can send us your comments using the online consultation portal, [http://tandridge-consult.objective.co.uk/portal/planning\\_policy/local\\_plan\\_reg19/local\\_plan\\_reg19](http://tandridge-consult.objective.co.uk/portal/planning_policy/local_plan_reg19/local_plan_reg19), which allows you to access the Local Plan: 2033 Consultation document and directly submit your comments. If you have previously submitted a comment to the Local Plan process, you may have been assigned a username for the consultation portal. If so, this is set out at the top of this e-mail. Alternatively you can submit your comments by:

- **E-mail to** [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)
- **Post to** Local Plan Consultation, Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey, RH8 0BT

Please note that the Council is unable to accept anonymous comments and for a comment to be formally accepted, a name and contact address (preferably e-mail) must be provided. Comments to the Local Plan are part of the evidence base which supports the document. As such, all comments submitted as part of the consultation will be made publically viewable and will be submitted to the Planning Inspectorate.

### **Privacy**

In line with General Data Protection Regulations (2018), your details are stored on a secure system and are used only for the purposes of consultation for the Local Plan and associated documents. Your details will be stored until such a time that the Local Plan has been adopted. If you do not wish to receive further updates from the Council in relation to the Local Plan, please email [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk) or [log on to your consultation portal account](#) and change your contact preferences under My Account.

### **Next Steps**

Once the consultation has concluded, comments relating to *soundness and legal compliance* will be considered. Where comments submitted are not clear about whether they relate to a matter of soundness or legal compliance, the Council will make a judgement as to which matter they best relate.

In addition, minor amendments to the document may be made before submitting it to the planning inspector. All responses received will also be submitted directly to the Planning Inspectorate for their consideration along with those raised through previous consultation phases, in accordance with Regulation 22 Town and Country Planning (Local Planning) (England) Regulations 2012. It will be through the process of the Independent Examination in Public, that any other matters will be assessed and at the discretion of the appointed Planning Inspector.

If you have any further queries, please contact the Strategy Team on 01883 722000.

Yours Sincerely

Piers Mason  
Strategic Director of Place

### Our Local Plan: 2033 Consultation (Regulation 19)

Have your say during the 6 week consultation between **9:00 on 30 July 2018 and 17:00 on 10 September 2018.**

#### What are we consulting on?

Tandridge District Council has prepared a Local Plan which sets out the vision for the district and that, once adopted, will guide key planning decisions up to 2033.

The Local Plan presents: the spatial strategy, the policies and proposals to deliver homes (both market and affordable) and employment, it puts in place greater protections for our landscape and natural and historic environment and sets out the requirements for open space and sports provision, flood mitigation and green and blue infrastructure. The housing delivery target for the plan is 6,056, some of which will be met by a Garden Community development at South Godstone. The plan is underpinned by an ambitious economic strategy and is heavily infrastructure led and will seek to deliver new primary and secondary school provision, health facilities, road and rail improvements, open spaces and flood mitigation.

The consultation is being conducted in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and any representations made considered in accordance with Regulation 20, of the same legislation. Our Local Plan: 2033 is accompanied by a Sustainability Appraisal and Habitat Regulations Assessment.

The Council has already carried out three Local Plan consultations; the Issues and Approaches 2015, Sites Consultation 2016 and the Garden Villages Consultation 2017. Regulation 19 is a consultation more focused on procedural matters and presents the opportunity to comment on the policy content of a draft Local Plan, within a specific remit which relates to *legal compliance* and the '*Tests of Soundness*' as set out at Paragraph 182 of the National Planning Policy Framework.

Along with the Duty to Cooperate, soundness and legal compliance are the matters that the government Planning Inspector, appointed to examine our plan, will focus on and which will guide the matters for discussion at the Examination in Public.

## Where can I view the documents?

Our Local Plan: 2033 Consultation and associated technical studies can be viewed on the Council's website at: [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan), or alternatively the document can be viewed on our consultation portal at <http://consult.tandridge.gov.uk/portal/> where comments can also be made directly.

In addition, hard copies of the documents can be viewed at the Council Offices (8 Station Road East, Oxted, Surrey RH8 0BT) and in each of the libraries in the district (Oxted, Warlingham, Lingfield, Caterham on the Hill, Caterham Valley) as well as Edenbridge, Horley and Redhill libraries.

## How to comment

You can send us your comments using the online consultation portal at <http://consult.tandridge.gov.uk/portal/> which allows you to access the Local Plan: 2033 Consultation document and directly submit your comments. If you have previously submitted a comment to the Local Plan process, you may have been assigned a username for the consultation portal. If so, this is set out at the top of this letter. Alternatively you can submit your comments by:

- **E-mail to** [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)
- **Post to** Local Plan Consultation, Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey RH8 0BT

Please note that the Council is unable to accept anonymous comments and for a comment to be formally accepted, a name and contact address (preferably e-mail) must be provided. Comments to the Local Plan are part of the evidence base which supports the document. As such, all comments submitted as part of the consultation will be made publically viewable at the appropriate time.

## Privacy

In line with General Data Protection Regulations (2018), your details are stored on a secure system and are used only for the purposes of consultation for the Local Plan and associated documents. Your details will be stored until such a time that the Local Plan has been adopted. If you do not wish to receive further updates from the Council in relation to the Local Plan, please email [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk) or log on to your Objective account and change your contact preferences under My Account.

## Next Steps

Once the consultation has concluded, comments relating to *soundness and legal compliance* will be considered. Where comments submitted are not clear about whether they relate to a matter of soundness or legal compliance, the Council will make a judgement as to which matter they best relate.

In addition, minor amendments to the document may be made before submitting it to the planning inspector. All responses received will also be submitted directly to the Planning Inspectorate for their consideration along with those raised through previous consultation phases, in accordance with Regulation 22 Town and Country Planning (Local Planning) (England) Regulations 2012. It will be through the process of the Independent Examination in Public, that any other matters will be assessed and at the discretion of the appointed Planning Inspector.

If you have any further queries, please contact the Strategy Team on 01883 722000.

Yours Sincerely

Piers Mason

Dear Sir or Madam,

**RE: Our Local Plan: 2033 Consultation (Regulation 19)**

**What are we consulting on?**

Tandridge District Council has prepared a Local Plan which sets out the vision for the district and that, once adopted, will guide key planning decisions up to 2033.

The Local Plan presents: the spatial strategy, the policies and proposals to deliver homes (both market and affordable) and employment, it puts in place greater protections for our landscape and natural and historic environment and sets out the requirements for open space and sports provision, flood mitigation and green and blue infrastructure. The housing delivery target for the plan is 6,056, some of which will be met by a Garden Community development at South Godstone. The plan is underpinned by an ambitious economic strategy and is heavily infrastructure led and will seek to deliver new primary and secondary school provision, health facilities, road and rail improvements, open spaces and flood mitigation.

The consultation will run for **6 weeks** from **30 July 2018 to 10 September 2018**. We value everyone's views and we would like to ensure everyone has the opportunity to be involved.

With this in mind and in addition to the standard mailout that we have issued as part of the consultation process, we are also following up with those that may find it hard to engage with this formal consultation process. We are contacting you directly to ensure you are aware of the consultation and have direct access to [Our Local Plan: 2033](#) and a Word version of the [questionnaire](#). We can arrange for consultation documents to be presented in a different format such as large print or a different language, should that be of assistance. Further, if you wish to call officers to discuss, we are happy to arrange this also, please just let us know.

**Where can I view the documents?**

Our Local Plan: 2033 Consultation and associated technical studies can be viewed on the Council's website ([www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)) or alternatively the document can be viewed on our consultation portal where comments can also be made directly (<http://consult.tandridge.gov.uk/portal/>).

In addition, hard copies of the documents can be viewed at the Council Offices (8 Station Road East, Oxted, Surrey RH8 0BT) and in each of the libraries in the district (Oxted, Warlingham, Lingfield, Caterham on the Hill, Caterham Valley) as well as Edenbridge, Horley and Redhill libraries.

**How to comment**

You can send us your comments using the online consultation portal, [Objective](#), which allows you to access the Local Plan: 2033 Consultation document and directly submit your comments on the Plan. Alternatively you can submit your comments by:

- **E-mail to** [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)
- **Post to** Local Plan Consultation, Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey RH8 0BT

Please note that the Council is unable to accept anonymous comments and for a comment to be formally accepted, a name and contact address (preferably e-mail) must be provided. Comments to the Local Plan are part of the evidence base which supports the document. As such, all comments submitted as part of the consultation will be made publically viewable and will be submitted to the Planning Inspectorate.

### **Privacy**

In line with General Data Protection Regulations (2018), your details are stored on a secure system and are used only for the purposes of consultation for the Local Plan and associated documents. Your details will be stored until such a time that the Local Plan has been adopted. If you do not wish to receive further updates from the Council in relation to the Local Plan, please email [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk) or log on to your Objective account and change your contact preferences under My Account.

### **Next Steps**

Once the consultation has concluded, comments relating to *soundness and legal compliance* will be considered. Where comments submitted are not clear about whether they relate to a matter of soundness or legal compliance, the Council will make a judgement as to which matter they best relate.

In addition, minor amendments to the document may be made and all responses received will be submitted directly to the Planning Inspectorate for their consideration along with those raised through previous consultation phases, in accordance with Regulation 22 Town and Country Planning (Local Planning) (England) Regulations 2012. It will be through the process of the Independent Examination in Public, that any other matters will be assessed and at the discretion of the appointed Planning Inspector.

If you have any further queries, please contact the Strategy Team on 01883 722000.

**We look forward to hearing from you.**

Yours Sincerely

Piers Mason

### Appendix 3: Statutory Advert (Regulation 19)

## **TANDRIDGE DISTRICT COUNCIL**

### **Our Local Plan: 2033 Consultation – Regulation 19**

Have your say during the 6 week consultation between 09:00 on **Monday 30 July 2018** and 17:00 on **Monday 10 September 2018**.

Tandridge District Council has prepared a Local Plan which sets out the vision for the District and that, once adopted, will guide planning decisions up to 2033.

The Local Plan presents: the spatial strategy, the policies and proposals to deliver homes (both market and affordable) and employment, it puts in place greater protections for our landscape and natural and historic environment and sets out the requirements for open space and sports provision, flood mitigation and green and blue infrastructure.

This consultation asks for your comments on the legal compliance and soundness of the Plan and a guidance note to assist you in responding to the consultation has been prepared and is available on the Council's website. It is being conducted in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and any representations made will be considered in accordance with Regulation 20 of the same legislation.

Our Local Plan: 2033 is accompanied by a Sustainability Appraisal in accordance with the Environmental Assessment of Plans and Programmes Regulations 2004 and a Habitat Regulations Assessment as required by the Conservation of Habitats and Species Regulations 2010.

All associated documents are available online ([www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)). Paper copies of the main consultation documents are available to view at the Council Offices, in each of the libraries in the District and also in Horley, Redhill and Edenbridge libraries.

Comments can be submitted:

- Online at [http://consult.tandridge.gov.uk/portal/planning\\_policy/](http://consult.tandridge.gov.uk/portal/planning_policy/)
- Email to [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)

Alternatively you can write to us – **Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted RH8 0BT.**

All comments must be received by **17:00 on Monday 10 September 2018**. Any response which is anonymous or which is received after this may not be taken into account. All comments received will be public information.

More information can be found on the Council's website – at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)  
If you have any queries, please contact the **Strategy Team** on 01883 722000 or email [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)  
**Date: 25th July 2018**

Printed proof of public notice that appeared in the County Border News on July 25 and the Surrey Mirror on July 26 2018.

## Appendix 4: Promotional Material (Regulation 19)

## Business Newsletters

Issued via email to all businesses registered on the Councils database. Published in July and August 2018. The below has been streamlined to remove surplus information relevant to the business newsletter and only includes that information relating to Our Local Plan: 2033:

### July 2018

### Tandridge Together Lottery – Could you provide a prize?

If you could sponsor a prize for a local resident to win as part of the new weekly lottery draw, please get in touch. In return we will mention your business in any publicity and on our website. Please e-mail [customerservices@tandridge.gov.uk](mailto:customerservices@tandridge.gov.uk) or call 01883 722000 if you can help.

### Last chance to have your say about the draft Local Plan

The final round of public consultation on the draft Local Plan starts on 30 July and runs until 5pm, 10 September. This is the last consultation before the plan is submitted to the government planning inspector and is an opportunity to comment on the legal compliance and soundness of the document.

The plan proposes creating a Garden Community of around 4,000 new homes in South Godstone. At least 1,000 of the new homes will be genuinely affordable including council houses, shared ownership, self-build and other rented homes over which the Council can determine who will get priority. The housing planned at the Garden Community and in and around our most sustainable existing settlements will provide more opportunity for residents to buy homes in the district.

In addition to new homes our Local Plan will deliver wider community benefit through infrastructure improvements and employment opportunities including two new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), a new doctors' surgery, flood relief measures in Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

The plan will also generate thousands of new jobs, many of which will be high value jobs, by allocating a significant amount of employment space, as well as encouraging the development of existing employment sites.

---

Fact sheets for every ward have been delivered to every household in the district. Anyone can make comments by:

- Visiting our consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing us at [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to us at Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

View and comment on the plan by 5pm on 10 September by visiting [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

### August 2018

## Draft Local Plan Consultation

The final phase of public consultation on the Tandridge Draft Local Plan runs until 5pm on Monday 10 September.

## Draft Local Plan Consultation

(Regulation 19)

9am on 30 July to 5pm 10 September

[www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)

This consultation is an opportunity to have your say about the legal compliance and soundness of the draft Local Plan.

Visit [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) to view the draft plan, read the fact sheet relating to your ward and for information about how to take part in the consultation. Hard copies of documents can also be viewed at local libraries and at the Council Offices in Oxted.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).

- 
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

July 2018

## Latest news for your area

### Planning Policy Committee approves Local Plan draft consultation

On 3 July the Planning Policy Committee voted to approve the Draft Local Plan for a Regulation 19 consultation, which will now take place between 30 July and 5pm on 10 September. The meeting is available for everyone to view by visiting [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast) and will remain online for six months.

The Regulation 19 consultation is a technical consultation, where people have the opportunity to comment on the legal compliance and soundness of the draft plan.

The Committee agreed to move the proposed date for the consultation back by two weeks, to give councillors the opportunity to make comments about whether the existing detailed policies should be replaced. This means the dates in the advert published in the current edition of the Caterham Independent (which had to be submitted in advance of the committee) have changed. All comments will be considered before the plan is presented to a government planning inspector.

The Draft Local Plan has taken over three years to prepare and there have been three consultations so far to help shape it. The Council has agreed a preferred strategy for a Garden Community which will be located in South Godstone.

As well as delivering around 4,000 homes over the long term, it will also deliver significant new infrastructure for the district including new primary schools, a secondary school, a health hub, rail and road improvements, play pitches, flood mitigation and employment sites.

Visit [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

### All council meetings now available to view online

Webcasting equipment has been installed in the Council Chamber, which means all council meetings can now be watched live. In addition, the footage from each council meeting is stored for up to six months and can be downloaded and viewed. The meetings are available to view at [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast).

Committee papers and any presentations screened in the chamber are also available to view. Residents are able to search the footage to watch the debate around a particular item or to watch a particular councillor speak.

### Over £20,000 raised for good causes in first three months of the Tandridge Together Lottery

Over £20,000 has been raised to support good causes in the Tandridge district in the first three months of the Tandridge Together Lottery.

Lottery tickets cost £1 and all profits go to good causes in the Tandridge district. Anyone buying a ticket can select the local good cause they want to support from those registered on the website at [www.tandridgelottery.co.uk](http://www.tandridgelottery.co.uk).

125 good causes have so far signed up to benefit from the lottery including community centres, sports clubs and charities supporting a range of needs. It's free for good causes, which must operate within the Tandridge District, to register to benefit from the Tandridge Together Lottery.

Winners are drawn at random every Saturday, with the jackpot being awarded for a matching sequence of six numbers. Other cash prizes include £2,000, £250 or £25.

To buy tickets or register as a good cause visit [www.tandridgelottery.co.uk](http://www.tandridgelottery.co.uk).

Inspirational for our people, our place and ourselves

@TandridgeDC

Tandridge Council

### Draft Local Plan Consultation

Remember you only have a few days left to take part in the Draft Local Plan Consultation which closes at 5pm on Monday 10 September. This consultation is an opportunity for residents to have their say about the legal compliance and soundness of the draft Local Plan, which will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

Visit [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) where you'll find everything you need including the plan itself, fact sheets relevant to each area of the district as well as information about how to take part in the consultation. Hard copies of all the documents are available to view in libraries and at the Council Offices in Oxted.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

### Tackling the flytippers

Residents and businesses are being urged to make sure any tradesperson they use is a registered waste carrier, before they ask them to get rid of any waste. If the waste gets flytipped, whoever employs the trader could get a £400 fine. They must also ask them:

1. Ask them how and where they intend to dispose of waste.
2. Get a receipt.
3. Avoid traders who knock on doors or advertise on websites like Facebook and Gumtree.

If you spot someone flytipping report it at [www.tandridge.gov.uk](http://www.tandridge.gov.uk).

To find out how to check if a trader is licenced and for more information on flytipping, visit [www.recycleforsurrey.org.uk](http://www.recycleforsurrey.org.uk).

### Your chance to win

The Tandridge Together Lottery is your way of doing good and being in with a chance of winning a cash prize - all at the same time. Lottery tickets cost £1 and all profits go to good causes in the Tandridge district including community centres, sports clubs and charities supporting a range of needs.

Anyone buying a ticket can select the local good cause they want to support from those registered on the website at [www.tandridgelottery.co.uk](http://www.tandridgelottery.co.uk).

Winners are drawn at random every Saturday, with the jackpot of £25,000 being awarded for a matching sequence of six numbers. Other cash prizes include £2,000, £250 or £25.

To buy tickets or register as a good cause visit [www.tandridgelottery.co.uk](http://www.tandridgelottery.co.uk).

### Don't lose your voice – check your voter registration details

With local elections taking place in May 2019, your canvass form – also known as a 'household enquiry form' – ensures you're able to vote next year. Check and update the form when you get it in the post.

Recent home movers are particularly encouraged to check and return their forms. They are less likely to be registered to vote than people who have lived at the same address for a long time.

Louise Round, Chief Executive at Tandridge District Council, said: "It's important we have the right details on the electoral register for every address in Tandridge. If your name isn't on your household enquiry form it means you're not currently registered and you should visit [www.gov.uk/register-to-vote](http://www.gov.uk/register-to-vote)."

To find out more about the form, voting or the electoral register visit [www.tandridge.gov.uk/voting](http://www.tandridge.gov.uk/voting).

### Demolition starts at former Rose and Young site

The new owner of the former Rose and Young garage site in Caterham, Clarion Housing (CH), has starting work to build 48 affordable homes and a supermarket on the site. The affordable homes are expected to be ready by winter 2020 and will be available to buy on a part rent, part buy basis aimed at first time buyers. The redevelopment helps achieve two of the Council's key priorities - the delivery of more affordable housing for residents and the overall regeneration of Caterham.

Councillor Martin Fisher, Leader of the Council, said: "Transforming this site from a derelict building into housing and retail units will not only benefit the town centre, but will also help provide housing for people in the district who need a home they can afford."

### Thank you for taking part in the Draft Local Plan Consultation

The Council would like to thank everyone who took part in the Regulation 19 consultation on the Draft Local Plan. This phase of consultation was an opportunity to comment about whether the draft plan is legally compliant with planning legislation and whether it meets several tests of 'soundness' which are set out in national planning policy.

The draft plan aims to deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs.

- New health care facilities, plus upgrades to existing health centres.
- New primary schools and a new secondary school, plus improvements to existing schools.
- Road and rail improvements.
- New play areas and improvements to existing areas.
- Measures to alleviate flood risk.

The Council is now analysing the feedback, which will be presented to the Planning Policy Committee later this year and available to view on the website in due course.

# Draft Local Plan Consultation

(Regulation 19)

9am on 30 July to 5pm 10 September

Have your say about the legal compliance and soundness of our Local Plan. This is the last consultation before the plan is submitted to the government planning inspector. The plan will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Flood alleviation.

To view the plan, read the fact sheet relating to your ward and find out how to have your say, visit:

# Draft Local Plan Consultation Get the facts

Dear resident,

At the Planning Policy Committee on 3 July, the Council voted to approve the Draft Local Plan for Regulation 19 consultation, which will take place between 9am on 30 July and 5pm on 10 September. This was confirmed at the Council meeting on 19 July. Here we address some myths and answer some commonly asked questions.

We have to prepare a Local Plan. Not just by law, but because we need a long term plan (up to 2033 in this case) to guide the future of the district.

As a district we are facing some really tough challenges. Our population is ageing which leads to increasing demand on healthcare providers. Our young people can't afford to buy homes in the area and most local jobs don't pay enough to encourage them to stay. Growing families struggle to find suitable and affordable homes to move to. Meanwhile the volume of cars is having a negative impact on our roads.

This is a once in a generation opportunity to balance the needs of the district, to secure a strong economy fit for the future, encourage our young people to stay and work here and create local well paid jobs to help get them on the property ladder. All of this while building the infrastructure they need to live well and comfortably.

This is very much about new roads, healthcare facilities and schools to support existing and future generations. Our strategy for the Local Plan is the best approach we have been able to identify which will deliver infrastructure.

We need to build council houses to help the 1,300 people on the housing waiting list. We will also be helping people by ensuring there is a mix of housing schemes which support home ownership and wherever possible will ensure those with an existing connection to the Tandridge district have priority.

**Councillor Keith Jecks**  
Chair of the Planning Policy Committee

## Draft Local Plan Consultation (Regulation 19) 30 July to 10 September

Have your say about the legal compliance and soundness of our Local Plan. This is the last consultation before the plan is submitted to the government planning inspector. The plan will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- New primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Flood alleviation.

To view the plan, read the fact sheet relating to your ward and find out how to have your say, visit:

[www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)

Tandridge Council

**Myth: The new homes will just mean lots more people from London will settle here.**

**Fact:** People move in and out of our district from a wide range of locations, not just London, just as they do in other areas. The Local Plan encourages building the right types of home for people so they can continue to live in Tandridge when they want to. In addition the Area Action plan, which will set out the detail of and guide the development of the Garden Community, will stipulate at least 1,000 of the homes will be shared ownership, self-build and other rented homes. The Council will have nomination rights to these so we can make sure they are made available for Tandridge residents.

#### **How are we going to find the schools and doctors' surgeries to support these new homes?**

The plan will deliver the infrastructure the district needs alongside the houses. This will include new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), new and improved doctors' surgery, flood relief measures in a number of locations including Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

In addition, the plan seeks to generate thousands of new jobs, many of which will be high value jobs, by supporting the delivery of a significant amount of employment space, as well as encouraging the development of existing employment sites.

**Myth: Tandridge District Council is not responsible for some infrastructure like roads and schools, so how can it ensure delivery?**

**Fact:** The Council has already begun the work with Surrey County Council, other agencies and private companies including Govia and Network Rail to set out the detail around the delivery of the plan. The money will be provided through a combination of developer contributions and the Community Infrastructure Levy and it is in the interests of all our partners to improve local services.

#### **You keep talking about affordable homes, but will the homes really be affordable?**

Tandridge district is one of the most expensive areas in the country for housing. We are committed to building more affordable homes for local people. We want to make sure local families with average earnings can afford to rent or buy a home and will ensure the new Garden Community at South Godstone will provide a number of different options for housing including shared ownership, council housing and rent to buy.

It also needs to provide a number of flats and starter homes to help people trying to buy their first home, as well as those who own a larger home and want to downsize. There are a disproportionate number of larger properties in Tandridge, with just under 30% of houses containing four or more bedrooms and the plan aims to encourage a better mix of private housing.

**Myth: By affordable the Council means £400,000 houses.**

**Fact:** There is a real lack of council housing in this district and though we have begun an ambitious building programme to address this, we don't have enough land to build on. This plan will help us deliver substantially more high quality affordable homes which local people on average salaries can afford. Apart from providing council housing, we will also be encouraging other home ownership schemes such as shared ownership to bring home ownership within reach of young families.

#### **Why do we have to give up any Green Belt land?**

This district is 94% Green Belt, the largest proportion of anywhere in the country. It is likely to remain in the top three when our Local Plan is adopted and implemented.

We have looked at all brownfield sites, as well as whether we can build more in our urban areas and only on sites in the Green Belt in exceptional cases and which provide wider community benefit. Despite allocating all these sites there is still a shortfall and like all our neighbouring councils we have been forced to allocate some Green Belt land for housing.

Land is assessed to be Green Belt if it meets a particular set of purposes. These purposes are set out in a national policy. For example settlements such as towns and villages, commercial units, roads and railways can be within the Green Belt.

Our cohesive strategy will mean releasing a small amount of Green Belt, to put the Council in a better position to protect the rest.

In preparing the draft Local Plan over 300 sites were sent to us for consideration by land owners and developers. Having carefully considered all the evidence, we will only be proposing 10 of these sites which would allow the development of 1025 homes on Green Belt sites and only when they can deliver a clear community benefit.

**Myth: You plan to concrete over the Green Belt.**

**Fact:** We are only considering the release of Green Belt in exceptional circumstances or where we can demonstrate through robust evidence that releasing it would provide a real community benefit. We will remain a district with one of the highest proportions of Green Belt in the country.

**How many houses do we have to deliver?**

The total number of new homes proposed by the Draft Local Plan is around 6,100, which is significantly beneath the current need of 9,400 homes or the government's calculation of 12,900.

It is the planning inspector's job to test how we have used this evidence and make sure our plan delivers the number of houses to meet the government's aspiration of increasing housing delivery. It is very likely we will be challenged about our much lower figure during the inspection process, by the government and by developers.

The evidence gathered highlights the constraints to development faced by the district. The Council feels the plan and the housing delivery target reflect those constraints and its ability to accommodate development over the plan period.

**Myth: We don't need a Local Plan or any more houses. We can just refuse to build any more houses.**

**Fact:** A Local Plan once adopted gives the Council control over where and what development can take place. Without one the government will step in and give permission to developers without the supporting infrastructure our plan delivers. If we do nothing to provide more housing our children and grandchildren will continue moving out to find homes in places they can afford.

**What about people living in South Godstone where the garden community is proposed?**

We, working and consulting with the local community and key stakeholders such as infrastructure providers, will prepare an Area Action Plan (AAP) to set out the detail of and guide the development of the Garden Community.

As well as delivering around 4,000 homes over the long term, the Garden Community will also deliver significant new infrastructure for the area including new schools, a health hub, rail and road improvements, play pitches, flood mitigation and employment sites.

The development of a garden community is unlikely to begin for at least 6 to 10 years and a lot of

detailed planning, including making sure all necessary infrastructure is made available, needs to take place before any building can even begin.

For those who will be most affected, we will work hard to do everything we can to minimise the impact and maximise the opportunities. We will continue to listen to you and work closely with you.

**Myth: The new houses will put more strain on our creaking infrastructure.**

**Fact:** The plan could deliver at least £63 million of Community Infrastructure Levy, as well as significant infrastructure provision by way of legal agreements. The plan will also create thousands of local jobs which will mean more people will be able to work locally too, instead of commuting.

**This is a Regulation 19 Consultation – what does it mean?**

The Draft Local Plan has taken over three years to prepare. So far we have held three public consultations to involve local people and other interested parties in the shaping of our Local Plan up to 2033. This has included consulting on the potential approaches to delivering development, the sites submitted, and the potential locations we considered for the Garden Community. At each stage we have listened to the feedback and this has helped shape the plan.

Some significant changes have been made to the plan as a result, for example giving greater consideration to farming, agriculture and the rural economy in the district and widening plans for employment creation.

Unlike earlier consultations which considered alternative options, Regulation 19 seeks comments which respond to specific technical and procedural matters which will help the planning inspector, once appointed, to determine whether the plan is both sound and legally compliant. We have prepared a guidance note to help people respond to the consultation.

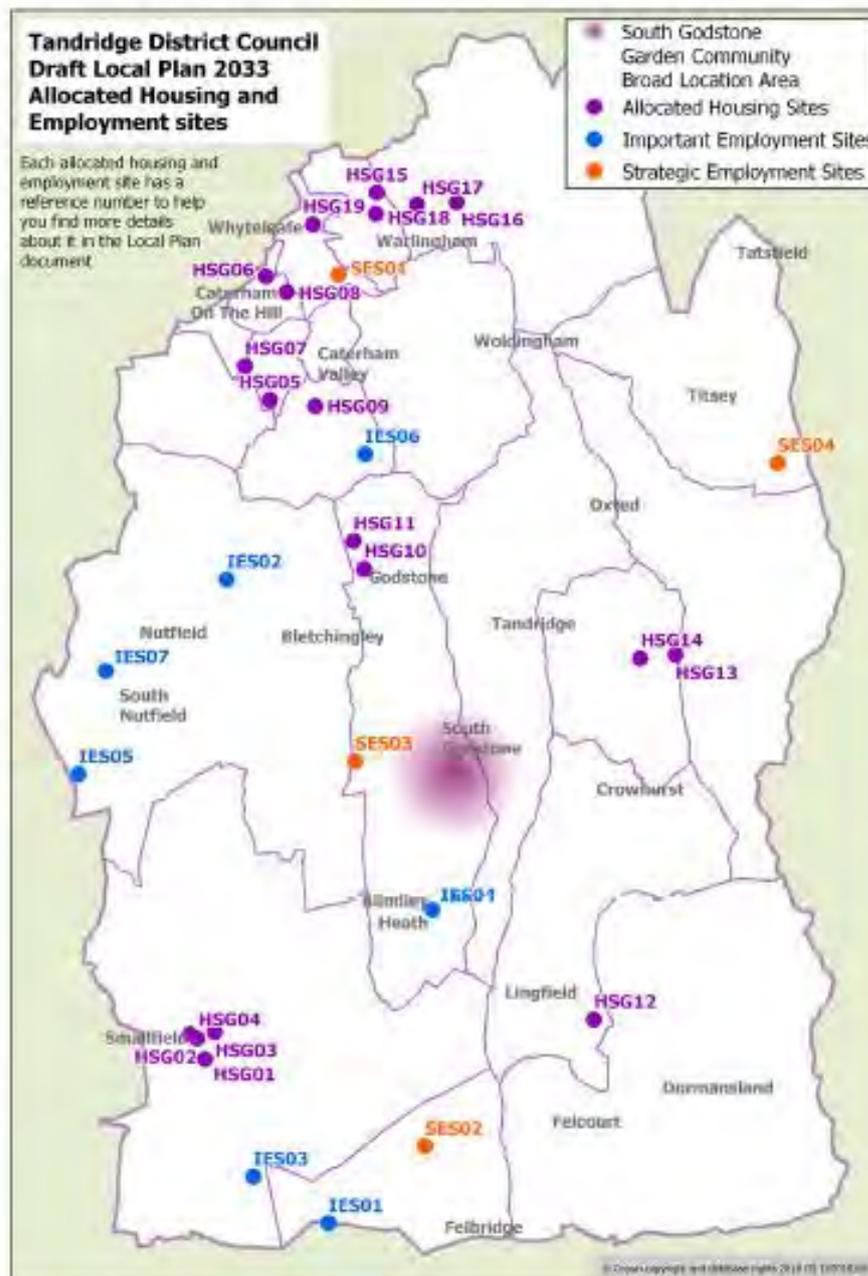

All comments will be considered before any amendments are made and the plan is presented to a government planning inspector.

**Myth: The Local Plan is flawed.**

**Fact:** The Local Plan has been shaped through a process of rigorous evidence gathering and public consultation by experts in their field, as well as wider expertise where needed. It has been formed and scrutinised by all councillors. It is a detailed, technical and robust document which safeguards and plans for the development of the economy of this district for future generations. Its aim is to provide a vibrant, sustainable place to live.

**Tell me more**

- In addition to the Draft Local Plan, which is available to view online at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan), the Council has also published a fact sheet for every ward in the district which includes maps, sites for new homes, employment and infrastructure improvements. A leaflet containing information relating to where you live will be delivered to every home in the district. If you have not received one by Friday 27 July, please e-mail [customerservices@tandridge.gov.uk](mailto:customerservices@tandridge.gov.uk).
- You can sign up for our Local Plan e-newsletter to keep up to date with all developments by visiting [www.tandridge.gov.uk](http://www.tandridge.gov.uk).
- The Planning Policy Committee of 3 July where the plan was approved, with some amendments, is available for everyone to view live online through the new council webcast by visiting [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast). It will remain online for six months. It was also discussed at Overview and Scrutiny on 19 July. This meeting can also be viewed online.

***Ward specific leaflets***

Mailed to all households relative to their ward area and available online.

Bletchingley & Nutfield

## Bletchingley & Nutfield

This fact sheet is an overview of some of the key information regarding this ward which is contained in the Draft Local Plan.

It is intended to act as a guide to help better direct you to the relevant information in the Draft Local Plan which contains more detail.

We have created a map for each of the 20 wards in the district, as well as listing some important information for each including:

- Allocated housing sites – This is a site that has been allocated for residential development.
- Infrastructure – Requirements for roads, schools and health centres etc.
- Town Centres, Local Centres and Neighbourhood Centres – These are protected shopping areas.
- Tourism Asset – These are protected places to visit.
- Strategic Employment Sites and Important Employment Sites – Provide a mix of employment uses which will be protected and intensified.

### Garden Community in South Godstone

The Garden Community will be located in South Godstone. Please note, the brown boundary on the Godstone map (see separate fact sheet by visiting [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)) is only an area of search, it does not mean all the land within the brown line will be developed or removed from the Green Belt.

### What is a Regulation 19 Consultation?

The main purpose of the Regulation 19 consultation is to ask for comment on the legal compliance and soundness of our Local Plan. Comments relating to legal compliance predominantly relate to procedural requirements.

In the case of comments relating to soundness, these should include whether the plan has been positively prepared and whether it is justified, effective and consistent with national policy.

Once Regulation 19 is complete, an updated Draft Local Plan is submitted for examination by an independent Planning Inspector who will undertake a 'public examination'.

### Town Centre\*\*

- Oxted.

\* Not all infrastructure provision relates to a policy. Some infrastructure will be funded through developer commissions and some will be funded by the Community Infrastructure Levy.

\*\*Please note this also relates to RegenOxted (redevelopment of gasholder, urban redesign, increased parking, business hub).

Lingfield and Crowhurst

## Lingfield & Crowhurst

This fact sheet is an overview of some of the key information regarding this ward which is contained in the Draft Local Plan.

It is intended to act as a guide to help better direct you to the relevant information in the Draft Local Plan which contains more detail.

We have created a map for each of the 20 wards in the district, as well as listing some important information for each including:

- Allocated housing sites – This is a site that has been allocated for residential development.
- Infrastructure – Requirements for roads, schools and health centres etc.
- Town Centres, Local Centres and Neighbourhood Centres – These are protected shopping areas.
- Tourism Asset – These are protected places to visit.
- Strategic Employment Sites and Important Employment Sites – Provide a mix of employment uses which will be protected and intensified.

### Garden Community in South Godstone

The Garden Community will be located in South Godstone. Please note, the brown boundary on the Godstone map (see separate fact sheet by visiting [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)) is only an area of search, it does not mean all the land within the brown line will be developed or removed from the Green Belt.

### What is a Regulation 19 Consultation?

The main purpose of the Regulation 19 consultation is to ask for comment on the legal compliance and soundness of our Local Plan. Comments relating to legal compliance predominantly relate to procedural requirements.

In the case of comments relating to soundness, these should include whether the plan has been positively prepared and whether it is justified, effective and consistent with national policy.

Once Regulation 19 is complete, an updated Draft Local Plan is submitted for examination by an independent Planning Inspector who will undertake a 'public examination'.

### Key documents

To view the Draft Local Plan and the Spatial Strategy document, please visit [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

### Key information for Lingfield & Crowhurst

#### Allocated Housing Sites

- Land at The Old Cottage, Station Road, Lingfield. HSG12 (estimated size 60 units) (in the Green Belt and part conservation area)

#### Infrastructure\*

- GP expansion/redevelopment.
- Mobility impaired person bridge at Lingfield Station.
- Opportunity for a station car park.
- Open space.

#### Local Centre

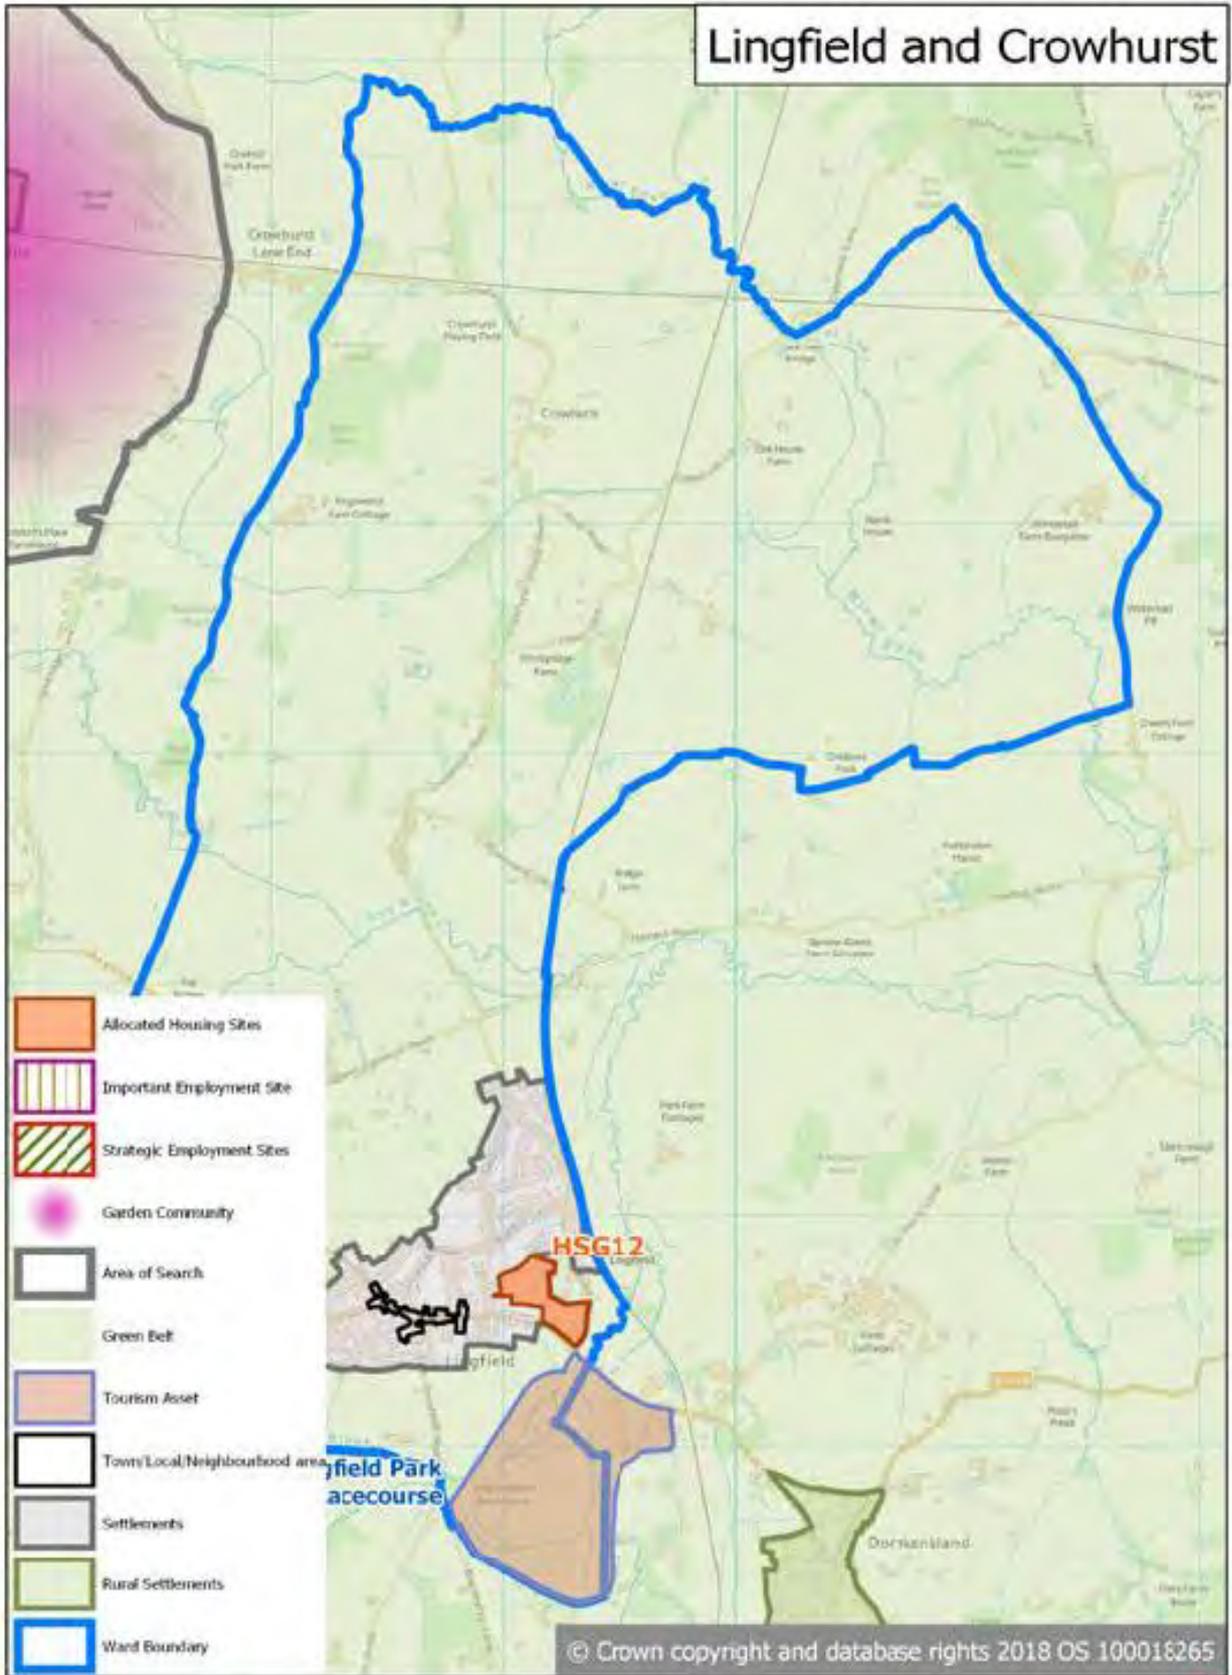

Lingfield.

#### Tourism Asset

Lingfield Park Racecourse.

\* Not all infrastructure provision relates to a policy. Some infrastructure will be funded through developer commissions and some will be funded by the Community Infrastructure Levy.

# Local Plan

News & updates

## Planning Policy Committee approves Local Plan and set dates for final consultation

On 3 July the Planning Policy Committee voted to approve the Draft Local Plan for a Regulation 19 consultation which will now take place between 30 July and 5pm on 10 September. The meeting is available for everyone to view online by visiting [www.landridge.gov.uk/webcast](http://www.landridge.gov.uk/webcast) and it will remain online for six months.

The Regulation 19 consultation is a technical consultation, where people have the opportunity to comment on the legal compliance and soundness of the draft plan. The Committee agreed to move the proposed date for the consultation back by two weeks to give councillors the opportunity to make comments on whether the new Local Plan should replace the existing plan's detailed policies. All comments will be considered before any amendments are made and the plan is presented to a government planning inspector.

The Draft Local Plan has taken over three years to prepare and there have been three consultations so far to help shape it. As a result the Council set out a preferred strategy for a Garden Community which will be located in South Godstone. As well as delivering around 4,000 homes over the long term, it will also deliver significant new infrastructure for the district including new primary schools, a secondary school, a health hub, rail and road improvements, play pitches, flood mitigation and employment sites.

The district is around 94% Green Belt and this cohesive strategy will mean releasing a small amount of Green Belt, to put the Council in a better position to protect the rest.

The total number of new homes proposed by the Draft Local Plan is around 6,100, which is significantly beneath the current need of 9,400 homes or the government's calculation of 12,900. The Council is confident it can demonstrate through rigorous evidence gathering and detailed preparation this is the realistic number of homes this district can accommodate when the Local Plan is examined at inspection.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "This is a significant step for our Local Plan as we set the future course for this district up to 2033. The feedback of residents has been key to helping us shape this and we are particularly focused on the delivery of the infrastructure it sets out. The Local Plan is not just about building homes our young people can afford - it is about creating a vibrant future for the district through a once in a generation opportunity to deliver new infrastructure, create new higher skilled jobs, grow the economy and give everyone the opportunity of a good quality of life."

## **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

At the Planning Policy Committee on 3 July councillors approved the draft Local Plan. This means we can proceed with a final Draft Local Plan Consultation, after which we will take any final comments and amendments into account before submitting the plan to the government in January 2019.

It was a robust and challenging debate with every councillor pushing to get the best possible outcomes for the residents in their ward. It was good to see all four political parties working well together to make sure we set a course for this district which is positive and delivers the new infrastructure we need.

There were some important amendments proposed and agreed at the meeting. We have agreed new dates for the Draft Local Plan Consultation (Regulation 19) which will now take place from 9am on 30 July, to 5pm on 10 September. This will give all councillors extra time to scrutinise the potential changes made in the new Local Plan which could remove the existing detailed planning policies, which Planning Officers will use to determine future applications from developers.

Another important amendment was agreed to make sure a substantial number of homes in the Garden Community at South Godstone are made available to local people. At least 1,000 of the new homes will be genuinely affordable including council houses, shared ownership, self-build and other rented homes over which the Council can determine who will get priority, so we can be certain we are building homes for our own residents.

As well as the additional housing which will make it more realistic for our residents to buy homes in the district, the Local Plan will deliver two new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), a new doctors' surgery, flood relief measures in

Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

The plan will also generate thousands of new jobs, many of which will be high value jobs, by allocating a significant amount of employment space, as well as encouraging the development of existing employment sites.

We appreciate the Local Plan contains a lot of detail – over 5,000 pages – and there is a lot of complex information to take in. There are fact sheets available for every ward at [www.tandridge.gov.uk](http://www.tandridge.gov.uk) to support your understanding and you can always contact me at [car.keith.jecks@tandridge.gov.uk](mailto:car.keith.jecks@tandridge.gov.uk).

Last night's meeting is available to view on our website [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast) and will remain on there for six months.

Yours sincerely,

Keith Jecks  
Chair of the Planning Policy Committee

## We'd love you to stay on our list

We use this newsletter to keep you up to date with the progress of the Local Plan.

We know how important keeping your personal data secure and safe is. It's very important to us too. We only collect and keep personal information about you so we can provide the services you need, to help us keep details about those services and our contact with you.

You signed up to receive this e-mail by giving us your name and e-mail address. We do not hold any other contact details for you in our e-newsletter database. New data protection laws - General Data Protection Regulations (GDPR) - mean we need to ask you if you are happy to keep getting these e-mails.

We'd love you to continue getting our e-mails, so here's what you need to do:

**No change?** If you are happy to keep getting this newsletter you don't need to do anything.

**Change?** If you want to take yourself off our list, it's easy to do. Just follow the unsubscribe link below or call us on 01883 722000.

We have published a new [privacy notice](#) to make it easier for you to find out how we use and protect your information. It's good news for you as it means your personal data is better

protected and gives you more control over how we use your personal data and how you are contacted.

# Local Plan

## News & updates

### **Just over a week to go before start of the Draft Local Plan Consultation**

There is just over a week to go before the start of the Draft Local Plan Consultation which will run from 9am on Monday 30 July to 5pm on Monday 10 September. This consultation is an opportunity for residents to have their say about the legal compliance and soundness of the draft Local Plan which will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

A fact sheet containing information about the plan's contents in relation to each ward is being delivered to every household in the district. The content includes sites for new homes, employment and infrastructure improvements. The information contained in the leaflet can be found on the website at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan). The Draft Local Plan document is also available on the website.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "More than 7600 residents have taken part in the three consultations which have formed the Local Plan process so far. We've used their feedback to help shape our strategy and form the plan. This

fourth and final phase of consultation is an important last chance to make comments on the plan's legal compliance and soundness before the plan goes to the Planning Inspectorate.

"This plan is critical to securing the future prosperity of our district. It will bring additional housing residents can afford, new schools, a new doctors' surgery, flood relief measures, improvements to roads, better rail connections and improvements to parking. A significant amount of employment space has also been allocated which will lead to more high value jobs and it supports the development of existing employment sites. I appreciate it is a complicated document to understand, but the ward based fact sheets should help residents find out what is proposed in their area."

## News & updates

### **Draft Local Plan Consultation starts today**

The Draft Local Plan Consultation starts today Monday 30 July at 9am and runs until 5pm on Monday 10 September. This consultation is an opportunity for residents to have their say about the legal compliance and soundness of the draft Local Plan, which will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

A fact sheet containing information about the plan's contents in relation to each area is being delivered to every household in the district. The content includes sites for new homes, employment and infrastructure improvements. The information contained in the leaflet can be found on the website at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

The Draft Local Plan document is also available on the website, along with a Get the Facts leaflet and information about how to take part in the consultation. Hard copies of all the documents are available to view in libraries and at the Council Offices in Oxted.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "This is the last opportunity for residents and other stakeholders to have their say about the plan before comments are analysed and it is presented to a government appointed planning inspector. Unlike earlier consultations which considered alternative options, Regulation 19 is solely

concerned with the legal compliance and soundness of the draft plan. This is a long and complex planning process and I appreciate it can be difficult to understand. All comments received will be made available to the inspector, so please do take part.

"In preparing this plan we have had to make some difficult decisions. We have had challenging and robust debates at recent committee meetings. But standing still and keeping things as they are is not an option. We believe we have put together a plan which will keep this district vibrant, thriving and sustainable for the next generation."

## More details on how to get involved

### Where to view the documents

The consultation document and associated technical studies are available to view on the District Council's website ([www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)) or alternatively the document can be viewed on our consultation portal where comments can also be made directly (<http://consult.tandridge.gov.uk/portal/>).

Hard copies of the documents can be viewed in the Council Offices (8 Station Road East, Oxted, Surrey RH8 0BT) between the opening hours of 08:30 and 17:00 Monday to Thursday and 8:30 to 16:30, on Fridays.

Each of the of the libraries in the district (Oxted, Waringham, Lingfield, Caterham on the Hill and Caterham Valley) as well as Edenbridge, Horley and Redhill libraries, have also been issued with documents for the public to view. The opening times of these are set out below:

<b>Oxted Library, 12 Gresham Road Oxted Surrey RH8 0BQ</b>	Monday	Closed
	Tuesday	9.30am–5pm
	Wednesday	9.30am–5pm
	Thursday	9.30am–5pm
	Friday	9.30am–5pm

## Representations

The Consultation runs from **9:00 on Monday 30 July until Monday 10 September at 17:00**, by which time all comments must be received.

You can send us your comments using the online consultation portal Objective <http://consult.tandridge.gov.uk/portal/> which allows you to access Our Local Plan: 2033 Consultation document and directly comment on the Plan. Alternatively you can submit your comments by:

- **E-mail to** [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)
- **Post to** Local Plan Consultation, Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey RH8 0BT

Please note that for a comment to be formally accepted, a name and contact address (preferably e-mail) must be provided. Comments to the Local Plan are part of the evidence base which supports the document. As such, all comments submitted as part of the consultation will be made publically viewable at the appropriate time.

Due to the technical nature of the Regulation 19 consultation and a focus on the soundness and legal compliance of the document; a guidance note to assist you in your response has been prepared. Following the guidance note and questions posed on the questionnaire is strongly recommended as this will ensure that comments are related to matters relevant to the subsequent examination by a Planning Inspector. If you are objecting to the proposed submission Local Plan and wish to speak at the examination, it is imperative that you make this clear on your representation form. Where comments submitted are not clear about whether they relate to a matter of soundness or legal compliance, the Council will make a judgement as to which matter they best relate.

If you have any further queries, please contact the Strategy Team on 01883 722000.

# Local Plan

News & updates

## Still time to have your say on the Draft Local Plan

As the six week consultation on the Draft Local Plan for the district approaches its halfway point, the Council is urging people who haven't yet done so to get involved and have their say. The draft plan sets out a number of proposals for the district including:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

The consultation, which runs until 5pm on Monday 10 September, is an opportunity for residents to comment on the legal compliance and soundness of the plan.

The draft plan document is available to view at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) where there's also information about how to take part in the consultation, a guide to submitting comments, as well as fact sheets about the plan's contents in relation to each area, including proposed sites for new homes, employment and infrastructure improvements.

Hard copies of all the documents are available to view in all local libraries and at the Council Offices in Oxted.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "There are just over three weeks left for residents to find out more and have their say about the Draft Local Plan. This is the last opportunity for residents and other stakeholders to comment on the plan before it is presented to a government appointed planning inspector. There is plenty of information about the plan on the Council's website and I encourage everyone to read the guide for submitting comments. Unlike earlier consultations which considered alternative options, Regulation 19 is solely concerned with the legal compliance and soundness of the draft plan. But all comments received will be made available to the inspector, so please do take part."

## **Draft Local Plan fact sheets**

We have been distributing fact sheets about the Draft Local Plan. These are not a formal part of the consultation, they are to help highlight what is in the Local Plan for each area. We know some people have not received the fact sheets. If you have not received your fact sheet please e-mail your address to [customerservices@tandridge.gov.uk](mailto:customerservices@tandridge.gov.uk) so we can send you a copy. Copies of the fact sheets are also available on our website at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

News & updates

## **Less than a week left to have your say about the Draft Local Plan**

The Draft Local Plan consultation runs until 5pm on Monday 10 September and the Council is urging residents and businesses to make sure they have their say before the deadline.

The consultation is an opportunity for residents to comment on the legal compliance and soundness of the plan. The draft plan sets out a number of proposals for the district including:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

The draft plan document is available to view at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) where there's also information about how to take part in the consultation, a guide to submitting comments, as well as fact sheets about the plan's contents in relation to each area, including proposed sites for new homes, employment and infrastructure improvements. Hard copies of the documents are available to view in all local libraries and at the Council Offices in Oxted.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "There is less than a week left before the close of the Draft Local Plan Consultation which is the last opportunity for residents to comment on the plan before it is finalised and submitted to the Planning Inspectorate for examination. Please visit the Council's website where there is a lot of useful information to help people understand the plan and digest its contents. The plan will help shape the future of our district to 2033 and provide homes residents can afford, employment, new schools, health and transport improvements so it is important we all have our say."

Appendices, Regulation 22 Statement

# Local Plan

News & updates

## Thank you for taking part in the Draft Local Plan Consultation

Thank you to everyone who took part in the consultation about the draft Local Plan which will shape the future of the district up to 2033. The consultation, known as a Regulation 19 consultation, was open for six weeks until 5pm on Monday 10 September.

This phase of consultation was an opportunity for residents to comment about whether the draft plan is legally compliant with planning legislation and whether it meets the tests of 'soundness' which are set out in national planning policy.

This was the final stage of consultation before the draft Local Plan goes to the Planning Inspectorate for independent examination. The draft Local Plan aims to deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- New primary schools and a new secondary school, plus improvements to existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

The Council is now analysing the feedback, which will be presented to the Planning Policy Committee later this year and available to view on the website in due course.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "We welcome all the feedback this consultation has generated which we will now carefully analyse. Every comment submitted during each consultation which has helped us shape the Local Plan will be submitted to the Planning Inspectorate for examination."

For information, visit [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

19 September 2018

# Local Plan

News & updates

## Open letter from Keith Jecks, Chair of the Planning Policy Committee

Thank you to everyone who took part in the recent Draft Local Plan Consultation (Regulation 19). All representations will be published on our website, as soon as practicably possible. This will take time as some of the responses are very detailed, for example one attachment to a developer's response was more than 600 pages.

Listening to the views of people living in different wards in the district has been a key part of the Local Plan preparation. We all know there is a critical shortage of housing across the country, especially homes younger people can afford or older people can downsize to. It is difficult for us to balance this requirement with our desire to protect our district, but we think the proposed Local Plan delivers the correct balance.

Many have criticised the plan, but no-one has suggested any alternative. Our Local Plan: 2033 is not just about housing. We are taking full advantage of the opportunities managed development can bring including employment, new schools, health and transport improvements.

The plan we have created has been soundly prepared and takes account of our constraints, such as Green Belt, our valued landscape and infrastructure capacity, to the extent the regulations allow. Developers have submitted far more sites than our evidence demonstrates are appropriate for development. The developers and those parties which think we can do more are arguing our housing delivery is too low and the value we place on the Green Belt and our environment is too high.

We will put up a robust defence of the Green Belt and the character of our district, but we have formidable opponents in the developers, of which many of the largest have formed a syndicate (Tandridge Housing Forum) to push for much higher housing numbers. Even if you do not feel you can get behind the Plan, I am sure you will support our efforts to make sure the outcome is right for our district.

Many of you have contacted me with your questions about the Draft Local Plan, which I have been answering individually. Quite a few questions have come up several times, so I thought it would be useful to provide some of the answers here.

### **Why are we asking for responses about legal compliance and soundness at this stage?**

The requirements for the Regulation 19 consultation are defined by legislation and we have to comply with this. Having said that, we have always stated that all responses from every consultation we have carried out will be made available to the Inspector, but it is for the inspector to decide which ones they will take into account.

### **How can we be sure the thousands of new jobs will actually arrive?**

Building on the work of our published Economic Proposition, we will maximise opportunities for businesses which are already in the district, as well as attracting others to relocate here. The plan envisages a significant expansion in employment space and will actively look to expand and make better use of existing employment sites, particularly Lambs Business Park and Hobbs Industrial, as well as providing employment at the proposed development in South Godstone. We are preparing a Strategic Employment Impact Assessment which will set out what specific characteristics should be provided to make these sites attractive to businesses while complementing neighbouring employment areas.

Given the geographical advantage of our proximity to Gatwick airport, London and the coast, we will capitalise on this and be ambitious in benefiting our residents.

Increased job opportunities will also come from the new schools, shops and community facilities proposed. Indirectly, an increase in building and regeneration projects will also provide jobs, not just for local construction firms and building suppliers, but also from the wider south-east area.

### **How will we deliver rail improvements to South Godstone station?**

We are in discussions with Network Rail about our plans for a Garden Community and the necessity of delivering improvements to the railway service. The company's representatives have told us this is achievable and they look forward to working with us.

### **What about J6 on the M25?**

This junction already exists and upgrades to the roundabout can be implemented within the existing highways land. This improvement to the roundabout is fairly simple, but will provide benefit to all users of this junction.

We are continuing to liaise with Highways England and Surrey County Council about this, so a planned programme for delivery can be put in place. A full feasibility assessment is currently being prepared, which will contain more detail about the proposed scheme and a revised costing, which is likely to be far lower than the original estimate of £200m.

## **Do we have a viable partner for the South Godstone development?**

We are aware some people have expressed concern about the companies interested in the land in South Godstone, for example Bonnar Allen. We are committed to the delivery of a successful Garden Community and have had very robust discussions with a number of relevant parties. We will continue with these discussions to ensure we can be confident developers will deliver what we want for the Garden Community and that they represent organisations the community will have confidence in and which will deliver what is promised. More details relating to the deliverability of the Garden Community, will accompany the submission version of Our Local Plan: 2033.

Our Local Plan is far more than building houses. It is an infrastructure-led plan, underpinned by a sound economic strategy. At least 1,000 of the new homes in South Godstone will be genuinely affordable, to help meet the needs of people on the Council's housing register so we can build homes for our existing residents who need them.

Once the plan is adopted and we start drawing up the South Godstone Garden Community Area Action Plan, which will set out the detail of how the Garden Community will be developed, it will bring to life the aspirations we have set out in the Draft Local Plan and demonstrate how it will benefit the whole district. We will be inviting you all to be involved in this and to help shape the development.

Please e-mail me directly at [cllr.keith.jecks@tandridge.gov.uk](mailto:cllr.keith.jecks@tandridge.gov.uk) if you have any further questions.

Yours sincerely,

**Keith Jecks**

Chair of the Planning Policy Committee

## *Open Letters from Planning Policy Committee Chair*

**29 May 2018**

### **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

I want to take this opportunity to introduce myself and update residents about the progress of the Local Plan. As the newly appointed Chair of the Planning Policy Committee it is going to be my job to lead the delivery of the Local Plan for Tandridge.

If approved, we will shortly be holding our Regulation 19 consultation which is the final step before the plan is presented to a government planning inspector to scrutinise. It is their job to test the evidence and make sure our plan delivers the number of houses which meets the government's aspiration of increasing housing delivery.

As a district we are facing some really tough challenges. Our population is ageing which leads to increasing demand on healthcare providers. Our young people can't afford to buy homes in the area and most local jobs don't pay enough to give them the hope of ever doing so. Growing families struggle to find suitable and affordable homes to move to. Meanwhile the volume of cars is having a negative impact on our roads.

Our preferred strategy includes a Garden Community which will deliver the infrastructure, along with some limited development where we can see this will benefit a community. Importantly, the plan will also deliver new healthcare facilities, employment sites and better job opportunities for local people. It will lead to new and improved roads and a new school.

While for most people the plan will bring positive benefits, it would be wrong of me not to acknowledge that some people will not be happy with this proposal. I can appreciate that if your current view looks across fields and could be replaced by housing this is difficult to accept. I do understand this and I am committed to working with those affected to do everything we can to minimise the impact.

A Garden Community can take at least 6 to 10 years to deliver and a lot of detailed planning needs to take place before any building can begin. This will be your opportunity to shape our community and be fully involved in how it looks and works.

[Please keep up to date with the Local Plan.](#) We are keen to hear your views and though we sometimes have to make tough decisions which won't always be popular, I can assure you we are listening and you will have another opportunity to view the final plan before we submit it to the government.

Yours sincerely,  
Keith Jecks  
Chair of the Planning Policy Committee

**5 June 2018**

### **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

I want to ensure residents are aware of the work taking place to prepare for the publication of the draft Local Plan. This letter sets out the timetable for the next few weeks.

On 6 June and 7 June we are giving your councillors briefing sessions about the sites, along with infrastructure improvements in their ward, which will form part of the draft Local Plan.

I am determined to make sure all councillors are pre-briefed, so they can help answer any questions you may have when the draft Local Plan document is made public.

I have also asked the planning officers to publish the draft Local Plan document earlier than is statutorily required. This will be available for everyone to read on 21 June and in addition we are preparing fact sheets for each area to make the information for where you live easier to understand.

The process is complicated and the documents necessarily huge. By sharing information as soon as we can, our residents, the Planning Policy Committee and anyone else with an interest, will have as much time as we can give them to read and understand the plan. This next draft Local Plan represents the culmination of three years' work.

I am a passionate defender of the Green Belt. Our beautiful district is 94% Green Belt, the highest proportion of any district in the entire country and likely to remain in the top three when our Local Plan is adopted. We know our residents feel passionate about this too.

We have held three consultations about the Local Plan. We have listened to what you have said and have shaped the plan accordingly. The total number of new homes this district can accommodate is likely to be around 6,200, which is not anywhere close to the current need of 9,400 homes or indeed the government's need calculation of 12,900. It is very likely we will be challenged about our much lower figure during the inspection process, by the government and by developers.

In preparing the draft Local Plan, excluding the potential sites for the Garden Community sites, we have had to look at 114 sites put forward by landowners in the Green Belt, which if all were developed would provide 30,759 homes.

Having carefully considered all the evidence, apart from the proposed Garden Community, we will only be proposing 14 of these sites which would allow the development of 893 homes on Green Belt sites and only when they can deliver a clear community benefit.

We can't continue to rely on development of brownfield sites or within our existing towns to meet the overall housing need targets. We need to find the right balance. The proposed Garden Community will lead to the development of around 4,000 homes built over three decades, with associated infrastructure.

At this stage based on the evidence, the draft Local Plan will recommend the Garden Community is located in South Godstone. Once the Local Plan is adopted, the Council, working very closely with the local community, will draw up a Masterplan.

We have to prepare a Local Plan. Not just by law, but because we need a long term plan (20 years in this case). We have an ageing population and homes which cost so much our young people have no option, but to move out of the area. We need to provide for future generations. We need them to keep this district vibrant, thriving and economically successful.

This is our opportunity to provide more affordable homes for local families and create local well paid jobs which will help our young people get on the property ladder. This is also very much about new roads, healthcare facilities and schools to support existing and future generations. Our strategy for the Local Plan is the best approach we have been able to identify which will deliver infrastructure to a higher standard.

For the majority of our residents the Local Plan will deliver benefits and it will be good news. For those who will be most affected, I am committed to working with you to do everything we can to minimise the impact. Please get involved and read the documents when they are released. This Local Plan marks a significant step forward in ensuring the viability and sustainability of the district.

Yours sincerely,

Councillor Keith Jecks

Chair of the Planning Policy Committee

## **20 June 2018**

### **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

On Thursday 21 June, we will publish the Draft Local Plan. We are doing this as early as we can and earlier than is legally required because we recognise the complexity of its contents. We want to give everyone time to consider it properly before we decide at the Planning Policy Committee on 3 July, whether to approve the Plan for Regulation 19 consultation.

If the Local Plan is approved, the Regulation 19 consultation is scheduled to take place between 16 July and 28 August if these dates are agreed. This is a purely technical consultation, solely concerned with legal compliance and soundness (in planning language) of the draft plan and is the final step before it is presented to a government planning inspector.

As I've said before, the Local Plan is evidence led, with some of the evidence being the comments you made during the three consultations in which we have asked what you think and listened to what you have to say. This evidence has helped determine our strategy. Some significant changes have been made to our ideas for the plan as a result, for example giving greater consideration to farming, agriculture and the rural economy in the district and widening plans for employment creation.

Another change concerns the "insetting" of 12 villages from the Green Belt. This was a purely technical proposal, but clearly caused concern for many residents and as a result we have concluded it is only essential to inset one village - Godstone - and we will protect its character through other planning policies.

The Local Plan will deliver significant infrastructure, which residents also identified as critically important. We will provide two new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), a new doctors' surgery, flood relief measures in Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

In addition, the evidence has demonstrated what many of us thought we knew - there are not enough well-paid jobs in the district, forcing people to travel outside the district to work. This plan seeks to generate thousands of new jobs, many of which will be high value jobs, by allocating a significant amount of employment space, as well as encouraging the development of existing employment sites.

Much of the discussion about the plan has, of course, focused on housing and we are planning for around 300 new homes per year. This seems a lot, given we have been building about 250 each year in the past, but we need to recognise there is a housing crisis in this district with our young families unable to find homes in the area they were brought up in, as well as insufficient accommodation for older "downsizers". We are determined to do something to help solve this problem.

The government's method for assessing our need indicates that 400-470 new homes are needed each year (the latest data from the government indicates a number at the lower end of the range) and we have made strenuous efforts to try to meet this need. We have looked at all our brownfield sites, whether we can build more in our urban areas and on sites in the Green Belt that do not meet its purposes. Despite allocating all these sites there is still a shortfall and like all our neighbouring authorities we will be forced to allocate some Green Belt land for housing.

We will be building council houses to help the 1,300 people on the housing waiting list. We will be making plots available for self-builders. We will be helping people with shared ownership schemes and wherever possible will ensure that those with an existing connection to the Tandridge district have priority.

For some however, the plan will result in housing where before there was countryside. We recognise this and regret it, but it is unavoidable. I will repeat here what I have said privately to a woman in South Godstone who contacted me. As long as I am involved in the formation and implementation of this plan, I will personally ensure we do all we can to reduce the impact on existing residents.

We hope you take time to read the Draft Local Plan when it is published later tomorrow and I look forward to hearing what you have to say. You can contact me at [cllr.keith.jecks@tandridgedc.gov.uk](mailto:cllr.keith.jecks@tandridgedc.gov.uk).

Yours sincerely,

Keith Jecks

Chair of the Planning Policy Committee

#### **4 July 2018**

##### **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

At the Planning Policy Committee on 3 July councillors approved the draft Local Plan. This means we can proceed with a final Draft Local Plan Consultation, after which we will take any final comments and amendments into account before submitting the plan to the government in January 2019.

It was a robust and challenging debate with every councillor pushing to get the best possible outcomes for the residents in their ward. It was good to see all four political parties working well together to make sure we set a course for this district which is positive and delivers the new infrastructure we need.

There were some important amendments proposed and agreed at the meeting. We have agreed new dates for the Draft Local Plan Consultation (Regulation 19) which will now take place from 9am on 30 July, to 5pm on 10 September. This will give all councillors extra time to scrutinise the potential changes made in the new Local Plan which could remove the existing detailed planning policies, which Planning Officers will use to determine future applications from developers.

Another important amendment was agreed to make sure a substantial number of homes in the Garden Community at South Godstone are made available to local people. At least 1,000 of the new homes will be genuinely affordable including council houses, shared ownership, self-build and other rented homes over which the Council can determine who will get priority, so we can be certain we are building homes for our own residents.

As well as the additional housing which will make it more realistic for our residents to buy homes in the district, the Local Plan will deliver two new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), a new doctors' surgery, flood relief measures in Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

The plan will also generate thousands of new jobs, many of which will be high value jobs, by allocating a significant amount of employment space, as well as encouraging the development of existing employment sites.

We appreciate the Local Plan contains a lot of detail – over 5,000 pages – and there is a lot of complex information to take in. There are fact sheets available for every ward at [www.tandridge.gov.uk](http://www.tandridge.gov.uk) to support your understanding and you can always contact me at [clr.keith.jecks@tandridgedc.gov.uk](mailto:clr.keith.jecks@tandridgedc.gov.uk).

Last night's meeting is available to view on our website [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast) and will remain on there for six months.

Yours sincerely,

Keith Jecks

Chair of the Planning Policy Committee

### **17 September 2018**

#### **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

Thank you to everyone who took part in the recent Draft Local Plan Consultation (Regulation 19). All representations will be published on our website, as soon as practicably possible. This will take time as some of the responses are very detailed, for example one attachment to a developer's response was more than 600 pages.

Listening to the views of people living in different wards in the district has been a key part of the Local Plan preparation. We all know there is a critical shortage of housing across the country, especially homes younger people can afford or older people can downsize to. It is difficult for us to balance this requirement with our desire to protect our district, but we think the proposed Local Plan delivers the correct balance.

Many have criticised the plan, but no-one has suggested any alternative. Our Local Plan: 2033 is not just about housing. We are taking full advantage of the opportunities managed development can bring including employment, new schools, health and transport improvements.

The plan we have created has been soundly prepared and takes account of our constraints, such as Green Belt, our valued landscape and infrastructure capacity, to the extent the regulations allow. Developers have submitted far more sites than our evidence demonstrates are appropriate for development. The developers and those parties which think we can do more are arguing our housing delivery is too low and the value we place on the Green Belt and our environment is too high.

We will put up a robust defence of the Green Belt and the character of our district, but we have formidable opponents in the developers, of which many of the largest have formed a syndicate (Tandridge Housing Forum) to push for much higher housing numbers.

Even if you do not feel you can get behind the Plan, I am sure you will support our efforts to make sure the outcome is right for our district.

Many of you have contacted me with your questions about the Draft Local Plan, which I have been answering individually. Quite a few questions have come up several times, so I thought it would be useful to provide some of the answers here.

**Why are we asking for responses about legal compliance and soundness at this stage?**

The requirements for the Regulation 19 consultation are defined by legislation and we have to comply with this. Having said that, we have always stated that all responses from every consultation we have carried out will be made available to the Inspector, but it is for the inspector to decide which ones they will take into account.

**How can we be sure the thousands of new jobs will actually arrive?**

Building on the work of our published Economic Proposition, we will maximise opportunities for businesses which are already in the district, as well as attracting others to relocate here. The plan envisages a significant expansion in employment space and will actively look to expand and make better use of existing employment sites, particularly Lambs Business Park and Hobbs Industrial, as well as providing employment at the proposed development in South Godstone. We are preparing a Strategic Employment Impact Assessment which will set out what specific characteristics should be provided to make these sites attractive to businesses while complementing neighbouring employment areas.

Given the geographical advantage of our proximity to Gatwick airport, London and the coast, we will capitalise on this and be ambitious in benefiting our residents.

Increased job opportunities will also come from the new schools, shops and community facilities proposed. Indirectly, an increase in building and regeneration projects will also provide jobs, not just for local construction firms and building suppliers, but also from the wider south-east area.

**How will we deliver rail improvements to South Godstone station?**

We are in discussions with Network Rail about our plans for a Garden Community and the necessity of delivering improvements to the railway service. The company's representatives have told us this is achievable and they look forward to working with us.

**What about J6 on the M25?**

This junction already exists and upgrades to the roundabout can be implemented within the existing highways land. This improvement to the roundabout is fairly simple, but will provide benefit to all users of this junction.

We are continuing to liaise with Highways England and Surrey County Council about this, so a planned programme for delivery can be put in place. A full feasibility assessment is currently being prepared, which will contain more detail about the proposed scheme and a revised costing, which is likely to be far lower than the original estimate of £200m.

**Do we have a viable partner for the South Godstone development?**

We are aware some people have expressed concern about the companies interested in the land in South Godstone, for example Bonnar Allen. We are committed to the delivery of a successful Garden Community and have had very robust discussions with a number of relevant parties. We will continue with these discussions to ensure we can be confident developers will deliver what we want for the Garden Community and that they represent organisations the community will have confidence in and which will deliver what is promised. More details relating to the deliverability of the Garden Community, will accompany the submission version of Our Local Plan: 2033.

Our Local Plan is far more than building houses. It is an infrastructure-led plan, underpinned by a sound economic strategy. At least 1,000 of the new homes in South Godstone will be genuinely affordable, to help meet the needs of people on the Council's housing register so we can build homes for our existing residents who need them.

Once the plan is adopted and we start drawing up the South Godstone Garden Community Area Action Plan, which will set out the detail of how the Garden Community will be developed, it will bring to life the aspirations we have set out in the Draft Local Plan and demonstrate how it will benefit the whole district. We will be inviting you all to be involved in this and to help shape the development.

Please e-mail me directly at [cllr.keith.jecks@tandridge.gov.uk](mailto:cllr.keith.jecks@tandridge.gov.uk) if you have any further questions.

Yours sincerely,

Keith Jecks  
Chair of the Planning Policy Committee

## **27 July 2018**

### **Open letter from Keith Jecks, Chair of the Planning Policy Committee**

At 9am on Monday 30 July our six week Draft Local Plan Consultation (Regulation 19) begins. This will be the last opportunity for you to have your say about the plan before comments are analysed and it is presented to a government planning inspector.

Unlike earlier consultations which considered alternative options, Regulation 19 is solely concerned with legal compliance and soundness (in planning language) of the draft plan and these are the only comments we are able to consider at this stage. Having said that, all comments received will be made available to the inspector, so if you have something to say, and do not know whether it is relevant in terms of legal compliance or soundness, I encourage you to say it.

To help make the plan more relevant to where you live, we have delivered a fact sheet to every home in the district. This includes a map and details of the plan's contents in relation to your area encompassing sites for new homes, employment and infrastructure improvements. These will help you focus on the part of the Plan which may affect you and I urge you to look at the detail. You can find all the documents on the website at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan). There are also copies of the draft plan to view in libraries and at the Council Offices, Oxted from Monday.

This Plan is not just about building houses. It is an infrastructure led plan, underpinned by a sound economic strategy. This Plan will deliver new roads, improved healthcare facilities and schools to support existing and future generations. It is about creating homes for local people, creating more highly skilled local employment opportunities and significant infrastructure improvements to benefit everyone in the district.

It will provide two new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), a new doctors' surgery, flood relief measures in Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

We need a Plan which keeps this district vibrant, thriving and sustainable for the next generation. Standing still and keeping things as they are is not an option. We have an ageing population and homes which cost so much our young people have no option, but to move out of the area. We need to provide for future generations.

We have looked at all brownfield sites in the district, as well as whether we can build more in our urban areas. I believe we've gone as far as is possible in these areas to try and meet our needs, but it is not enough to deliver the housing required and as a consequence would not produce the infrastructure we need.

We've had to look at sites within the existing Green Belt and have only proposed for housing those which are exceptional cases and provide wider community benefit. Despite allocating these sites there remains a housing shortfall. Releasing some Green Belt, as other councils have had to do, is a regrettable route we are being forced down, but this will put the Council in a better position to protect the rest.

During the preparation of the draft Local Plan over 300 sites, the majority located in the Green Belt, were sent to us by land owners and developers for consideration. Having carefully analysed all the evidence, we are only proposing 10 of the Green Belt sites for housing development. These have only been allocated where they can deliver a clear community benefit and where it is demonstrated that exceptional circumstances exist.

I appreciate those living in South Godstone will be affected more than any other community by our proposal to develop a Garden Community. We will do everything we can to reduce the impact on existing residents. Once the plan is adopted, we will prepare an Area Action Plan (AAP), which will set out the detail and guide the development of the Garden Community. This AAP will be drawn up in very close consultation with the existing residents, to ensure any benefits for them are maximised and any disadvantages minimised.

We have not made any of these decisions lightly. We have had challenging and robust debates at our recent committee meetings. Every councillor who represents you is doing their utmost to ensure this plan delivers a better future for the district. You can view these meetings online at <https://www.tandridge.gov.uk/webcast>. The consultation ends at 5pm on 10 September. Please get involved, read the documents and make your comments.

You can contact me directly at [cllr.keith.jecks@tandridge.gov.uk](mailto:cllr.keith.jecks@tandridge.gov.uk) if you have any questions.

Yours sincerely,

Keith Jecks

Chair of the Planning Policy Committee

# Draft Local Plan Consultation

(Regulation 19)

9am on 30 July to 5pm 10 September

Have your say about the legal compliance and soundness of our Local Plan. This is the last consultation before the plan is submitted to the government planning inspector. The plan will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Flood alleviation.

To view the plan, read the fact sheet relating to your ward and find out how to have your say, visit:

[www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)

District Council

Aspirational for our people, our place and ourselves

## Draft Local Plan Consultation

# Get the facts

Dear resident,

At the Planning Policy Committee on 3 July, the Council voted to approve the Draft Local Plan for Regulation 19 consultation, which will take place between 9am on 30 July and 5pm on 10 September. This was confirmed at the Council meeting on 19 July. Here we address some myths and answer some commonly asked questions.

We have to prepare a Local Plan. Not just by law, but because we need a long term plan (up to 2033 in this case) to guide the future of the district.

As a district we are facing some really tough challenges. Our population is ageing which leads to increasing demand on healthcare providers. Our young people can't afford to buy homes in the area and most local jobs don't pay enough to encourage them to stay. Growing families struggle to find suitable and affordable homes to move to. Meanwhile the volume of cars is having a negative impact on our roads.

This is a once in a generation opportunity to balance the needs of the district, to secure a strong economy fit for the future, encourage our young people to stay and work here and create local well paid jobs to help get them on the property ladder. All of this while building the infrastructure they need to live well and comfortably.

This is very much about new roads, healthcare facilities and schools to support existing and future generations. Our strategy for the Local Plan is the best approach we have been able to identify which will deliver infrastructure.

We need to build council houses to help the 1,300 people on the housing waiting list. We will also be helping people by ensuring there is a mix of housing schemes which support home ownership and wherever possible will ensure those with an existing connection to the Tandridge district have priority.

**Councillor Keith Jecks**

Chair of the Planning Policy Committee

## Draft Local Plan Consultation

(Regulation 19)

30 July to 10 September

Have your say about the legal compliance and soundness of our Local Plan. This is the last consultation before the plan is submitted to the government planning inspector. The plan will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- New primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Flood alleviation.

To view the plan, read the fact sheet relating to your ward and find out how to have your say, visit:

[www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)

**Tandridge**  
District Council

**Tandridge**  
District Council

Aspirational for our people, our place and ourselves

**Myth: The new homes will just mean lots more people from London will settle here.**

**Fact:** People move in and out of our district from a wide range of locations, not just London, just as they do in other areas. The Local Plan encourages building the right types of home for people so they can continue to live in Tandridge when they want to. In addition the Area Action plan, which will set out the detail of and guide the development of the Garden Community, will stipulate at least 1,000 of the homes will be shared ownership, self-build and other rented homes. The Council will have nomination rights to these so we can make sure they are made available for Tandridge residents.

**How are we going to find the schools and doctors' surgeries to support these new homes?**

The plan will deliver the infrastructure the district needs alongside the houses. This will include new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), new and improved doctors' surgery, flood relief measures in a number of locations including Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

In addition, the plan seeks to generate thousands of new jobs, many of which will be high value jobs, by supporting the delivery of a significant amount of employment space, as well as encouraging the development of existing employment sites.

**Myth: Tandridge District Council is not responsible for some infrastructure like roads and schools, so how can it ensure delivery?**

**Fact:** The Council has already begun the work with Surrey County Council, other agencies and private companies including Govia and Network Rail to set out the detail around the delivery of the plan. The money will be provided through a combination of developer contributions and the Community Infrastructure Levy and it is in the interests of all our partners to improve local services.

**You keep talking about affordable homes, but will the homes really be affordable?**

Tandridge district is one of the most expensive areas in the country for housing. We are committed to building more affordable homes for local people. We want to make sure local families with average earnings can afford to rent or buy a home and will ensure the new Garden Community at South Godstone will provide a number of different options for housing including shared ownership, council housing and rent to buy.

It also needs to provide a number of flats and starter homes to help people trying to buy their first home, as well as those who own a larger home and want to downsize. There are a disproportionate number of larger properties in Tandridge, with just under 30% of houses containing four or more bedrooms and the plan aims to encourage a better mix of private housing.

**Myth: By affordable the Council means £400,000 houses.**

**Fact:** There is a real lack of council housing in this district and though we have begun an ambitious building programme to address this, we don't have enough land to build on. This plan will help us deliver substantially more high quality affordable homes which local people on average salaries can afford. Apart from providing council housing, we will also be encouraging other home ownership schemes such as shared ownership to bring home ownership within reach of young families.

**Why do we have to give up any Green Belt land?**

This district is 94% Green Belt, the largest proportion of anywhere in the country. It is likely to remain in the top three when our Local Plan is adopted and implemented.

We have looked at all brownfield sites, as well as whether we can build more in our urban areas and only on sites in the Green Belt in exceptional cases and which provide wider community benefit. Despite allocating all these sites there is still a shortfall and like all our neighbouring councils we have been forced to allocate some Green Belt land for housing.

Land is assessed to be Green Belt if it meets a particular set of purposes. These purposes are set out in a national policy. For example settlements such as towns and villages, commercial units, roads and railways can be within the Green Belt.

Our cohesive strategy will mean releasing a small amount of Green Belt, to put the Council in a better position to protect the rest.

In preparing the draft Local Plan over 300 sites were sent to us for consideration by land owners and developers. Having carefully considered all the evidence, we will only be proposing 10 of these sites which would allow the development of 1025 homes on Green Belt sites and only when they can deliver a clear community benefit.

**Myth: You plan to concrete over the Green Belt.**

**Fact:** We are only considering the release of Green Belt in exceptional circumstances or where we can demonstrate through robust evidence that releasing it would provide a real community benefit. We will remain a district with one of the highest proportions of Green Belt in the country.

**How many houses do we have to deliver?**

The total number of new homes proposed by the Draft Local Plan is around 6,100, which is significantly beneath the current need of 9,400 homes or the government's calculation of 12,900.

It is the planning inspector's job to test how we have used this evidence and make sure our plan delivers the number of houses to meet the government's aspiration of increasing housing delivery. It is very likely we will be challenged about

Aspirational for our people, our place and ourselves

www.tandridge.gov.uk customerservices@tandridge.gov.uk

our much lower figure during the inspection process, by the government and by developers.

The evidence gathered highlights the constraints to development faced by the district. The Council feels the plan and the housing delivery target reflect those constraints and its ability to accommodate development over the plan period.

**Myth: We don't need a Local Plan or any more houses. We can just refuse to build any more houses.**

**Fact:** A Local Plan once adopted gives the Council control over where and what development can take place. Without one the government will step in and give permission to developers without the supporting infrastructure our plan delivers. If we do nothing to provide more housing our children and grandchildren will continue moving out to find homes in places they can afford.

#### What about people living in South Godstone where the garden community is proposed?

We, working and consulting with the local community and key stakeholders such as infrastructure providers, will prepare an Area Action Plan (AAP) to set out the detail of and guide the development of the Garden Community.

As well as delivering around 4,000 homes over the long term, the Garden Community will also deliver significant new infrastructure for the area including new schools, a health hub, rail and road improvements, play pitches, flood mitigation and employment sites.

The development of a garden community is unlikely to begin for at least 6 to 10 years and a lot of detailed planning, including making sure all necessary infrastructure is made available, needs to take place before any building can even begin.

For those who will be most affected, we will work hard to do everything we can to minimise the impact and maximise the opportunities. We will continue to listen to you and work closely with you.

**Myth: The new houses will put more strain on our creaking infrastructure.**

**Fact:** The plan could deliver at least £63 million of Community Infrastructure Levy, as well as significant infrastructure provision by way of legal agreements. The plan will also create thousands of local jobs which will mean more people will be able to work locally too, instead of commuting.

#### This is a Regulation 19 Consultation – what does it mean?

The Draft Local Plan has taken over three years to prepare. So far we have held three public consultations to involve local people and other interested parties in the shaping of our Local Plan up to 2033. This has included consulting on the potential approaches to delivering development, the sites submitted, and the potential locations we considered for the Garden

Community. At each stage we have listened to the feedback and this has helped shape the plan.

Some significant changes have been made to the plan as a result, for example giving greater consideration to farming, agriculture and the rural economy in the district and widening plans for employment creation.

Unlike earlier consultations which considered alternative options, Regulation 19 seeks comments which respond to specific technical and procedural matters which will help the planning inspector, once appointed, to determine whether the plan is both sound and legally compliant. We have prepared a guidance note to help people respond to the consultation.

All comments will be considered before any amendments are made and the plan is presented to a government planning inspector.

**Myth: The Local Plan is flawed.**

**Fact:** The Local Plan has been shaped through a process of rigorous evidence gathering and public consultation by experts in their field, as well as wider expertise where needed. It has been formed and scrutinised by all councillors. It is a detailed, technical and robust document which safeguards and plans for the development of the economy of this district for future generations. Its aim is to provide a vibrant, sustainable place to live.

#### Tell me more

- In addition to the Draft Local Plan, which is available to view online at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan), the Council has also published a fact sheet for every ward in the district which includes maps, sites for new homes, employment and infrastructure improvements. A leaflet containing information relating to where you live will be delivered to every home in the district. If you have not received one by Friday 27 July, please e-mail [customerservices@tandridge.gov.uk](mailto:customerservices@tandridge.gov.uk).
- You can sign up for our Local Plan e-newsletter to keep up to date with all developments by visiting [www.tandridge.gov.uk](http://www.tandridge.gov.uk).
- The Planning Policy Committee of 3 July where the plan was approved, with some amendments, is available for everyone to view live online through the new council webcast by visiting [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast). It will remain online for six months. It was also discussed at Overview and Scrutiny on 19 July. This meeting can also be viewed online.

**Draft Local Plan to be debated at next week's Planning Policy Committee**

Next week's Planning Policy Committee takes place on Tuesday 3 July at 7.30pm in the Council Chamber, Oxted. The meeting will be available for anyone to view live online using the Council's webcasting system at [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast). A recording of the meeting will be available on the website for six months. Members of the public are welcome to attend the meeting, although due to safety regulations the public gallery can hold no more than 100 people.

At this meeting, the Committee will decide whether to approve the Draft Local Plan for Regulation 19 consultation. If it is approved dates for a Regulation 19 consultation, scheduled to take place between 16 July and 28 August, will also be agreed. In addition to the Draft Local Plan, available at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan), the Council has also published a fact sheet for every ward in the district which includes maps, sites for new homes, employment and infrastructure improvements.

20 June 2018 (GV.0606)  
(1/2)

### **Draft Local Plan published tomorrow**

The Draft Local Plan will be published tomorrow evening and will be online at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) for everyone to read. The Council will also be publishing fact sheets for every ward, which will include maps, sites for new homes, employment and infrastructure improvements to help make the information in the plan easy to access.

The document is being published earlier than is statutorily required because the Council recognises the significance and complexity of the document and wants to give councillors, residents, stakeholders and businesses the opportunity to have enough time to read it before the Planning Policy Committee on 3 July, where a decision will be taken about whether to approve the Plan for Regulation 19 consultation. If it is approved, dates will be agreed for a Regulation 19 consultation scheduled to take place between 16 July and 28 August and at Regulation 20 representations will be considered - the final step before any amendments are made and the plan is presented to a government planning inspector.

The Draft Local Plan has taken over three years to prepare and there have been three consultations so far to help shape it. As a result of feedback, some significant changes have been made including changing the plan and its vision, giving greater consideration to farming, agriculture and the rural economy in the district and widening plans for employment creation.

As a result of the earlier consultation, the Council set out a preferred strategy for a Garden Community which will be located in South Godstone. As well as delivering around 4,000 homes over the long term, it will also deliver significant new infrastructure for the district including new primary schools, a secondary school, a health hub, rail and road improvements, play pitches, flood mitigation and employment sites.

The district is around 94% Green Belt and this cohesive strategy will mean releasing a small amount of Green Belt, to put the Council in a better position to protect the rest. The district is still likely to remain in the top three districts with the highest proportion of Green Belt when the plan is adopted.

“More follows”

(  
2/2)

The total number of new homes this district can accommodate is likely to be around 6,100, which is significantly beneath the current need of 9,400 homes or the government’s calculation of 12,900. The Council is confident it can demonstrate through rigorous evidence gathering and detailed preparation this is the realistic number of homes this district can accommodate when the Local Plan is examined at inspection.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: “This Plan is not just about delivering new homes. It is about building a vibrant economy and strong future for our district which is currently facing significant challenges. We have an ageing population, which is not helped by the fact young people or key workers cannot afford to live here and there are not enough apartments, affordable homes or council homes available.

We have a creaking infrastructure and a new garden community will deliver the new schools, health facilities, road and rail improvements we need. We also need to create more local, higher skilled jobs and the Local Plan will create thousands of new employment opportunities. This Local Plan is about giving everyone who lives here the opportunity to live in an affordable, vibrant area, with a strong economy and we would encourage everyone to look at the documents when they are published to find out more.”

“Ends”

**Planning Policy Committee approves Local Plan and set dates for final consultation**

Last night's Planning Policy Committee voted to approve the Draft Local Plan for a Regulation 19 consultation which will now take place between 30 July and 5pm on 10 September. The meeting is available for everyone to view online by visiting [www.tandridge.gov.uk/webcast](http://www.tandridge.gov.uk/webcast) and it will remain online for six months.

The Regulation 19 consultation is a technical consultation, where people have the opportunity to comment on the legal compliance and soundness of the draft plan. The Committee agreed to move the proposed date for the consultation back by two weeks to give councillors the opportunity to make comments on whether the new Local Plan should replace the existing plan's detailed policies. All comments will be considered before any amendments are made and the plan is presented to a government planning inspector.

The Draft Local Plan has taken over three years to prepare and there have been three consultations so far to help shape it. As a result the Council set out a preferred strategy for a Garden Community which will be located in South Godstone. As well as delivering around 4,000 homes over the long term, it will also deliver significant new infrastructure for the district including new primary schools, a secondary school, a health hub, rail and road improvements, play pitches, flood mitigation and employment sites.

The district is around 94% Green Belt and this cohesive strategy will mean releasing a small amount of Green Belt, to put the Council in a better position to protect the rest.

The total number of new homes proposed by the Draft Local Plan is around 6,100, which is significantly beneath the current need of 9,400 homes or the government's calculation of 12,900. The Council is confident it can demonstrate through rigorous evidence gathering and detailed preparation this is the realistic number of homes this district can accommodate when the Local Plan is examined at inspection.

(2/2)

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "This is a significant step for our Local Plan as we set the future course for this district up to 2033. The feedback of residents has been key to helping us shape this and we are particularly focused on the delivery of the infrastructure it sets out. The Local Plan is not just about building homes our young people can afford— it is about creating a vibrant future for the district through a once in a generation opportunity to deliver new infrastructure, create new higher skilled jobs, grow the economy and give everyone the opportunity of a good quality of life."

### **Just over a week to go before start of the Draft Local Plan Consultation**

There is just over a week to go before the start of the Draft Local Plan Consultation which will run from 9am on Monday 30 July to 5pm on Monday 10 September. This consultation is an opportunity for residents to have their say about the legal compliance and soundness of the draft Local Plan which will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

A fact sheet containing information about the plan's contents in relation to each ward is being delivered to every household in the district. The content includes sites for new homes, employment and infrastructure improvements. The information contained in the leaflet can be found on the website at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan). The Draft Local Plan document is also available on the website.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "More than 7600 residents have taken part in the three consultations which have formed the Local Plan process so far. We've used their feedback to help shape our strategy and form the plan. This fourth and final phase of consultation is an important last chance to make comments on the plan's legal compliance and soundness before the plan goes to the Planning Inspectorate.

"This plan is critical to securing the future prosperity of our district. It will bring additional housing residents can afford, new schools, a new doctors' surgery, flood relief measures, improvements to roads, better rail connections and improvements to parking. A significant amount of employment space has also been allocated which will lead to more high value jobs and it supports the development of existing employment sites. I appreciate it is a complicated document to understand, but the ward based fact sheets should help residents find out what is proposed in their area."

### **Draft Local Plan Consultation starts today**

The Draft Local Plan Consultation starts today Monday 30 July at 9am and runs until 5pm on Monday 10 September. This consultation is an opportunity for residents to have their say about the legal compliance and soundness of the draft Local Plan, which will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

A fact sheet containing information about the plan's contents in relation to each area is being delivered to every household in the district. The content includes sites for new homes, employment and infrastructure improvements. The information contained in the leaflet can be found on the website at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

The Draft Local Plan document is also available on the website, along with a Get the Facts leaflet and information about how to take part in the consultation. Hard copies of all the documents are available to view in libraries and at the Council Offices in Oxted.

"More follows"

(2/2)

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "This is the last opportunity for residents and other stakeholders to have their say about the plan before comments are analysed and it is presented to a government appointed planning inspector. Unlike earlier consultations which considered alternative options, Regulation 19 is solely concerned with the legal compliance and soundness of the draft plan. This is a long and complex planning process and I appreciate it can be difficult to understand. All comments received will be made available to the inspector, so please do take part.

"In preparing this plan we have had to make some difficult decisions. We have had challenging and robust debates at recent committee meetings. But standing still and keeping things as they are is not an option. We believe we have put together a plan which will keep this district vibrant, thriving and sustainable for the next generation."

### **Still time to have your say on the Draft Local Plan**

As the six week consultation on the Draft Local Plan for the district approaches its halfway point, the Council is urging people who haven't yet done so to get involved and have their say. The draft plan sets out a number of proposals for the district including:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

The consultation, which runs until 5pm on Monday 10 September, is an opportunity for residents to comment on the legal compliance and soundness of the plan.

The draft plan document is available to view at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) where there's also information about how to take part in the consultation, a guide to submitting comments, as well as fact sheets about the plan's contents in relation to each area, including proposed sites for new homes, employment and infrastructure improvements. Hard copies of all the documents are available to view in all local libraries and at the Council Offices in Oxted.

Anyone can make comments by:

- Visiting the consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

### **One week left to have your say about the Draft Local Plan**

The Draft Local Plan consultation runs until 5pm on Monday 10 September and the Council is urging residents and businesses to make sure they have their say before the deadline.

The consultation is an opportunity for residents to comment on the legal compliance and soundness of the plan. The draft plan sets out a number of proposals for the district including:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

The draft plan document is available to view at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan) where there's also information about how to take part in the consultation, a guide to submitting comments, as well as fact sheets about the plan's contents in relation to each area, including proposed sites for new homes, employment and infrastructure improvements. Hard copies of the documents are available to view in all local libraries and at the Council Offices in Oxted.

13 September 2018 (GV.0609)

(1/1)

### **Thank you for taking part in the Draft Local Plan Consultation**

Thank you to everyone who took part in the consultation about the draft Local Plan which will shape the future of the district up to 2033. The consultation, known as a Regulation 19 consultation, was open for six weeks until 5pm on Monday 10 September.

This phase of consultation was an opportunity for residents to comment about whether the draft plan is legally compliant with planning legislation and whether it meets the tests of 'soundness' which are set out in national planning policy.

This was the final stage of consultation before the draft Local Plan goes to the Planning Inspectorate for independent examination. The draft Local Plan aims to deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- New primary schools and a new secondary school, plus improvements to existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Measures to alleviate flood risk.

The Council is now analysing the feedback, which will be presented to the Planning Policy Committee later this year and available to view on the website in due course.

Councillor Keith Jecks, Chair of the Planning Policy Committee, said: "We welcome all the feedback this consultation has generated which we will now carefully analyse. Every comment submitted during each consultation which has helped us shape the Local Plan will be submitted to the Planning Inspectorate for examination."

For information, visit [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

#### ***Wording for newsletters***

Circulated to parishes and other interested parties for use in their own newsletters etc.

## **Last chance to have your say about the draft Local Plan**

The final round of public consultation on the draft Local Plan starts on 30 July and runs until 5pm, 10 September. This is the last consultation before the plan is submitted to the government planning inspector and is an opportunity to comment on the legal compliance and soundness of the document.

The plan proposes creating a Garden Community of around 4,000 new homes in South Godstone. At least 1,000 of the new homes will be genuinely affordable including council houses, shared ownership, self-build and other rented homes over which the Council can determine who will get priority. The housing planned at the Garden Community and in and around our most sustainable existing settlements will provide more opportunity for residents to buy homes in the district,

In addition to new homes Our Local Plan will deliver wider community benefit through infrastructure improvements and employment opportunities including two new primary schools, a new secondary school, improvements to the A22 (from and including its junction with the M25 to help keep traffic moving from Caterham to Felbridge), a new doctors' surgery, flood relief measures in Caterham, Whyteleafe and Smallfield, better rail connections and improvements to parking facilities.

The plan will also generate thousands of new jobs, many of which will be high value jobs, by allocating a significant amount of employment space, as well as encouraging the development of existing employment sites.

Fact sheets for every ward have been delivered to every household in the district. Anyone can make comments by:

- Visiting our consultation portal at <http://consult.tandridge.gov.uk/portal>.
- E-mailing us at [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Writing to us at Tandridge District Council, 8 Station Road East, Oxted RH8 0BT.

View and comment on the plan by 5pm on 10 September by visiting [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

# Draft Local Plan Consultation

(Regulation 19)

30 July to 10 September

Have your say about the legal compliance and soundness of our Local Plan. This is the last consultation before the plan is submitted to the government planning inspector. The plan will deliver:

- A new Garden Community of around 4,000 homes in South Godstone.
- Thousands of new jobs for the district.
- New health care facilities, plus upgrades to existing health centres.
- Two new primary schools and a new secondary school, plus improvements to many existing schools.
- Road and rail improvements.
- New play areas and improvements to existing play areas.
- Flood alleviation.

To view the plan, read the fact sheet relating to your ward and find out how to have your say, visit:

[www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)

**Tandridge**  
**District Council**

Aspirational for our people, our place and ourselves

Circulated to all households in the District.

## The Council's vision for the year ahead

The Draft Local Plan will be out for a final consultation this summer (see page 7). This consultation will recommend the South Godstone Garden Community, which we believe will provide homes for our children and much needed infrastructure for the district, while protecting the natural environment which we all value.

I am confident the publication of the proposals will provide more clarity. It will be around 4,000 homes, built over at least two decades and will include a mix of affordable housing - real homes for

people to bring up their families in. We will not accept a scheme which does not do this or which fails to deliver the infrastructure needed to make the new community sustainable.

But this Council is not just about the Local Plan – our major projects are focusing on creating a sustainable future for the area – in terms of employment, retail and leisure and you'll see many examples of this work on the pages which follow.

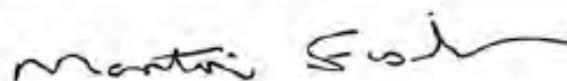

I am delighted we have completed another

council house scheme in Bletchingley, with more planned. This demonstrates our commitment to developing affordable housing for residents.

We also expanded our Wellbeing Prescription service which supports residents with a range of health issues such as stopping smoking, depression and weight loss.

Our financial management remains sound – we ended the last financial year within budget, despite significant reductions in external funding. All this has been achieved while implementing a radical transformation programme – Customer First.

There is much to do, but I am confident we can achieve our goals and provide the leadership and services our residents expect, need and deserve.

A handwritten signature in black ink, which appears to read 'Martin Fisher'.

**Councillor Martin Fisher, Leader of the Council**

# Draft Local Plan Consultation

The next Draft Local Plan Consultation will run from 16 July to 28 August, if approved at the Planning Policy Committee on 3 July. This is the final consultation before the document is submitted to the Planning Inspectorate for submission by the end of the year.

This is our opportunity to provide more affordable homes for local families and create local well paid jobs which will help our young people get on the property ladder. This is also about providing new roads, improved healthcare facilities and schools to support existing and future generations. Our strategy for the Local Plan is the best approach to deliver infrastructure to a high standard.

Three consultations have been held about the Local Plan. We have listened to what you have said and have shaped the plan accordingly. Fact sheets have been prepared for each area to make the information for where you live easier to understand and these are available on our website.

The total number of new homes this district can accommodate is likely to be around 6,100, which is not anywhere close to the current need of 9,400 homes or the government's need calculation of 12,900. It is very likely we will be challenged about our much lower figure during the inspection process, by the inspector and by developers.

Our district is 94% Green Belt, the highest proportion of any district in the entire country and likely to remain in the top three when our Local Plan is adopted.

Having carefully considered all the evidence, apart from the proposed Garden Community, we will only be proposing 16 sites which would allow the development of 1083 homes on

Green Belt sites and only when they can deliver a clear community benefit.

The proposed Garden Community will lead to the development of around 4,000 homes built over three decades, with associated infrastructure.

The Draft Local Plan identifies that the Garden Community will be located in South Godstone. Once the Local Plan is adopted, the Council, working very closely with the local community, will draw up an Area Action Plan, which will show what the Garden Community will look like and the policies it will have to adhere to.

For the majority of our residents the Local Plan will deliver benefits and it will be good news. For people in South Godstone who will be most affected, we will work with you to do everything we can to minimise the impact and maximise the opportunities.

Please get involved and read the documents at [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan).

To be kept up to date with the Local Plan preparations and take part in the consultation people can:

- Register on the consultation portal <http://consult.tandridge.gov.uk/portal>.
- Send their e-mail address to [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk).
- Call 01883 722000 or write to Planning Policy, Council Offices, 8 Station Road East, Oxted RH8 0BT.

## New planning application for gasholder and Johnsdale car park sites

We have received a new planning application from developers St William for the re-development of the gasholder and Johnsdale car park sites in Oxted.

The application is for 111 apartments, with an enhanced access route, landscaping and associated car parking. The proposed development consists of 20 x 1 bed, 70 x 2 bed and 21 x 3 bed apartments, with 147 car parking spaces and 134 cycle spaces, spread across three buildings with three to seven storeys on this redundant brownfield site. The apartments will be accessed from the entrance opposite Boots on Station Road East and from Johnsdale.

In October 2017 we received a planning application for 77 apartments from St William for the gasholder site, which was approved at the Planning Committee in January 2018. St William has since agreed to buy Johnsdale car park from us and the new planning application is for a comprehensive residential re-development of both sites.

If the scheme is approved, work to bring the gasholder down could begin in autumn 2018.

To view the planning application, visit [www.tandridge.gov.uk](http://www.tandridge.gov.uk) and search for planning application reference 2018/729.

More information on the project is available to view at [www.oxtedgasholder.co.uk](http://www.oxtedgasholder.co.uk).

## The Caterham Masterplan

Since the Caterham Masterplan Supplementary Planning Document, was adopted work has begun to shape and deliver an ambitious regeneration plan for Caterham town centre and Caterham on the Hill which covers the next ten years.

Key proposals include:

- Re-development of the former Rose & Young site.
- Re-development of Church Walk Shopping Centre to provide better, larger shops and a cinema.
- The creation of a more attractive, town centre in Caterham Valley to include new high specification homes and flexible office space.
- Improvement of Town End and re-generation of Raglan Precinct.

Development of this size and nature takes time to be delivered, but the Caterham Masterplan will ensure the right things are brought forward for the town. We are continuing to progress delivery through engagement with stakeholders.

The owners of Church Walk are aiming to submit a planning application in winter 2018. The owners of the former Rose & Young site in Caterham and Clonon Housing Group (CHG) have exchanged contracts for the sale of the site. CHG has planning permission for 48 dwellings, with a supermarket on the ground floor and we are continuing to monitor the progress of this project closely.

- While this information is correct at the time of going to press, the project is moving fast so to keep up to date please sign up for our weekly news and events e-newsletter by visiting [www.tandridge.gov.uk](http://www.tandridge.gov.uk) or visit [www.caterham-masterplan.org.uk](http://www.caterham-masterplan.org.uk).

## Appendix 5: Consultation Guidance Note & Questionnaire (Regulation 19)

# **Our Local Plan: 2033 (Regulation 19) Consultation**

## **Guidance Note for Submission of Comments**

**Please read this guidance note before completing the representation form or submitting your comments**

Tandridge District Council has published its final draft of Our Local Plan: 2033 for consultation, also known as the pre-submission or publication consultation. We are now seeking your view on Our Local Plan: 2033 and your comments can be made over a period of **6 weeks** between **9am on 30 July 2018** and **5pm on 10 September 2018**.

The nature of this consultation has some differences from earlier consultations we have undertaken on previous drafts of the Plan. This guidance note has been prepared to explain these differences and assist you in submitting your comments.

### **What have we done already?**

The preparation of Our Local Plan: 2033 has been informed by: national policy and legislation; extensive evidence gathering and technical assessment; ongoing liaison with neighbouring authorities, statutory bodies and infrastructure providers and feedback gained through formal consultation.

Three rounds of formal public consultation<sup>12</sup> have already been undertaken in accordance with Regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012 and the Localism Act 2011. All consultations have been carried out in compliance with the Council's [Statement of Community Involvement](#) (September 2015) and a summary of comments and main findings for each of the consultation stages has been reported back to the Council's Planning Policy Committee.

### **What are we consulting on now?**

This iteration of Our Local Plan represents the final version of the document for consultation before submission to the Planning Inspectorate who will examine the Plan on behalf of the Secretary of State. This consultation will be conducted in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012, and any representations made will be considered in accordance with Regulation 20, of the same legislation.

Previous consultation exercises carried out under Regulation 18 actively sought feedback on the alternative sites being considered, the potential locations for the Garden Community, the types of policy to be included and the spatial strategy which could be pursued.

This Regulation 19 consultation no longer seeks views on alternative options, but instead presents the opportunity to comment on the policy content of the Local Plan, within a specific remit. The remit for this consultation relates to representations on legal compliance and the 'Tests of Soundness'. Before commencing any formal examination in public hearing sessions, the Inspector will also make an assessment as to whether the requirements of the Duty to Cooperate have been met. Further information regarding soundness and legal compliance is set out later in this note.

### **What is legal compliance?**

If you are seeking to make representations on the way in which Tandridge District Council has prepared Our Local Plan, then your comment is likely best submitted against the matter of legal compliance.

---

<sup>12</sup> Local Plan: Issues and Approaches (2015/ 2016), Local Plan: Sites Consultation (2016) and Local Plan: Garden Villages Consultation (2017)

The Inspector will first check that the Plan meets the legal requirements with which plan-making should accord as set out in legislation including: The Planning and Compulsory Purchase Act 2004, Town and Country Planning (Local Planning) (England) Regulations 2012, the Localism Act (2011), The Neighbourhood Planning Act (2017) and European Directives and English Regulations where they are relevant to statutory environmental assessments such as Sustainability Appraisal and Habitats Regulations Assessment.

Comments relating to legal compliance must be specific in terms of how and why they believe the plan is, or is not, legally compliant and support this with evidence and justification in the context of the legislation.

### **What is Soundness?**

The tests of soundness against which the plan will be assessed are set out at Paragraph 182 of the [National Planning Policy Framework](#) (NPPF). In determining whether Our Local Plan meets these tests and can be considered to have been soundly prepared, the Inspector has to be satisfied that the Plan has been:

**Positively Prepared:** This means that the Plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development. Where an authority has not met development needs in full, a Plan, supported by evidence, must justify why needs are not met and what steps were taken in seeking to meet them.

**Justified:** The Plan should be the most appropriate strategy when considered against reasonable alternatives, based on proportionate evidence.

**Effective:** The Plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities.

**Consistent with national policy:** The Plan should enable the delivery of sustainable development in accordance with the policies in the NPPF.

Comments relating to soundness must be specific in terms of how and why they believe the plan is, or is not, sound referencing the tests relevant to the comment. Comments must be supported by evidence and justification.

### **What is the Duty to Cooperate?**

The requirements of the Duty to Cooperate (DtC) are set out in Section 110 of the Localism Act 2011 and Section 33A of the Planning and Compulsory Purchase Act 2004. In short, the legislation requires all Local Planning Authorities to demonstrate that they have had active and on-going cooperation with key bodies, such as neighbouring authorities and other statutory bodies on strategic matters, including infrastructure, housing and employment needs and flooding.

Comments relating to the Duty to Cooperate must be specific in terms of how and why they believe the plan has, or has not met its Duty, and support this with evidence and justification.

### **Attendance at the Examination in Public**

One of the fundamental parts of the Examination in Public is the hearing sessions requested and led by the appointed Planning Inspector. Should respondents wish to appear at examination, they should make it clear in their submission, and on what grounds they wish to appear and why it is necessary.

The Inspector will determine which parties are to attend sessions and on what subject matters using the comments submitted to guide that decision. Appearance at the examination is at the discretion of the Inspector and the Council do not determine this.

### **Where can I view the documents undergoing consultation?**

The documents undergoing formal consultation are: Our Local Plan: 2033 (Regulation 19), Sustainability Appraisal (2018), Habitats Regulation Assessment (2018), Infrastructure Delivery Plan (2018) and Local Plan: Policies Map(s) 2018. Whilst a large amount of supporting evidence is published alongside Our Local Plan, these do not form part of the statutory documents being consulted on. However, where relevant, evidence can be referenced in support of the comment(s) you are making.

Our Local Plan: 2033 Consultation and associated technical studies can be viewed on the Council's website ([www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)) or alternatively the document can be viewed on our consultation portal (<http://consult.tandridge.gov.uk/portal/>).

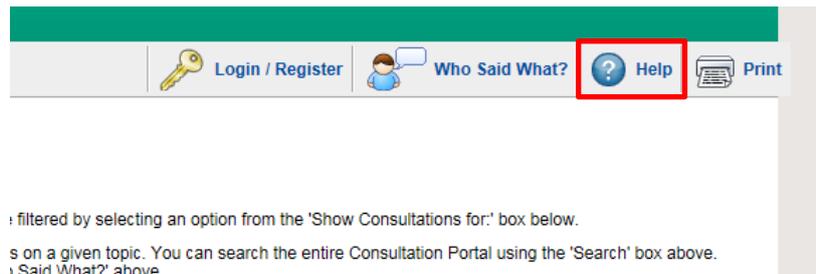

In addition, hard copies of the documents can be viewed at the Council Offices (8 Station Road East, Oxted, Surrey RH8 0BT) and statutory documents in each of the libraries in the district (Oxted, Warlingham, Lingfield, Caterham on the Hill, Caterham Valley) as well as Edenbridge, Horley and Redhill libraries.

### **How can I submit my comments?**

You can submit your comments in a number of ways including online and by email.

The Council has also prepared a questionnaire for respondents to help guide you in setting out your response and ensure that your comments are made in alignment with the purpose of the consultation, which is focused on soundness and legal compliance. The questionnaire is attached at the end of this guidance note and further copies can be obtained online (<https://www.tandridge.gov.uk/Planning-and-building/Planning-strategies-and-policies/Local-Plan-2033-emerging-planning-policies/Draft-Local-Plan>) or by contacting the Council on the details below.

In addition, you can submit your comments using the online consultation portal, [Objective](http://consult.tandridge.gov.uk/portal/) (<http://consult.tandridge.gov.uk/portal/>), which allows you to access the Local Plan: 2033 Consultation document and directly submit your comments into the questionnaire, by clicking on the 'Add Comments' tab at the top of the Foreword. Further assistance on submitting your comments on the portal can also be found by using the Help, function on the portal front page (<http://consult.tandridge.gov.uk/portal/>):

Alternatively you can submit your comments by:

- **E-mail to [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk)**
- **By post to** Strategy Team, Tandridge District Council, Council Offices, 8 Station Road East, Oxted, Surrey RH8 0BT

Please note that the Council is unable to accept anonymous comments and for a comment to be formally accepted, a name and contact address (preferably e-mail) must be provided. If an agent or consultant has been engaged to act on your behalf please fill in only your name then the agent's details in full. All correspondence will then be sent directly to the agent, unless otherwise specified clearly on the form.

In submitting comments to this consultation we are required, under the Town and Country Planning (Local Planning)(England) Regulations 2012, to notify you when the independent examination will take place. We will use the contact details you have provided to do this.

**Please note:** at the end of the consultation period all comments will be made public and will be submitted to the Secretary of State along with the Local Plan and other relevant supporting documents. Your comments and name will be published but other personal information will remain confidential.

Your comments will be reviewed by the independent Planning Inspector appointed by the Secretary of State to carry out the Examination in Public. You may be invited to discuss your comments at the Examination in Public at the discretion of the Inspector.

In line with General Data Protection Regulations (2018), your details are stored on a secure system and are used only for the purposes of consultation for the Local Plan and associated documents. Your details will be stored until such a time that the Local Plan has been adopted. If you do not wish to receive further updates from the Council in relation to the Local Plan, please email [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk) or log on to your Objective account.

The Council reserves the right not to publish or take into account any representations which are openly offensive or contain comments that do not accord with the Equalities Act 2010.

### What happens next?

Once the consultation has concluded, minor amendments to the document may be made and all responses received will be submitted directly to the Planning Inspectorate for their consideration along with those raised through previous consultation phases, in accordance with Regulation 22

Town and Country Planning (Local Planning) (England) Regulations 2012. The Planning Policy Committee will be asked to agree the final plan for submission at a meeting in late 2018.

## Our Local Plan: 2033 (Regulation 19)

This consultation relates to the proposed submission version of Our Local Plan and is being conducted in accordance with Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations (2012). This consultation asks for your comments on the *legal compliance* and *soundness* of the Plan and whether you wish to request involvement in the Examination in Public hearing sessions, which will be determined at the discretion of the appointed Planning Inspector. To assist you in making your comments the Council has prepared a **Guidance Note** on how to respond to this consultation, and sets out the next steps and should be utilised to guide your response as far as is practicably possible.

You do not need to answer every question, only those that relate to the point you wish to make.

### How we will use your information

In submitting comments to this consultation we are required, under the Town and Country Planning (Local Planning) (England) Regulations 2012, to notify you when the independent examination will take place. We will use the contact details you have provided to do this.

**Please note:** at the end of the consultation period all comments will be made public and will be submitted to the Secretary of State along with the Local Plan and other relevant supporting documents. Your comments and name will be published but other personal information will remain confidential.

Your comments will be reviewed by the independent Planning Inspector appointed by the Secretary of State to carry out the examination in public. You may be invited to discuss your comments at the examination in public at the discretion of the Inspector.

In line with General Data Protection Regulations (2018), your details are stored on a secure system and are used only for the purposes of consultation for the Local Plan and associated documents.

Your details will be stored until such a time that the Local Plan has been adopted. If you do not wish to receive further updates from the Council in relation to the Local Plan, please email [localplan@tandridge.gov.uk](mailto:localplan@tandridge.gov.uk) or log on to your Objective account.

**Please tick below to indicate you have read this notice.**

I have read the notice about how my information will be used.....

## Legal Compliance and Soundness – Questionnaire

### Legal Compliance

Please see the Guidance Note for an explanation of Legal Compliance.

**Do you consider the Local Plan is legally compliant/non-compliant?**

*(Please select one answer)*

Legally Compliant..... Non Compliant.....

**Please give details of why you consider the Local Plan is/is not legally compliant, including references to relevant legislation, policies and / or regulations.**

**Modifications – Legal Compliance**

**Are you proposing a modification(s) to make the Local Plan legally compliant and/or to strengthen its compliance?**

*(Please select one answer)*

Yes..... No.....

**Proposed Modifications – Legal Compliance**

You will need to say why this modification(s) will make the Local Plan legally compliant/strengthen its legal compliance. It will be helpful if you are able to put forward your suggested revised wording for any policy or text and include all information and evidence necessary to support / justify your suggested change. Please be as precise as possible.

**After this stage, further submissions for modifications will be ONLY at the request of the Inspector, based on the matters and issues he / she identifies for examination.**

**Please set out your suggested modification(s) below**

**Independent Examination - Legal Compliance**

**If your representation is proposing a modification(s), do you consider it necessary to participate in the examination in public?**

*(please select one answer)*

Yes..... No.....

**Reasons for Attending the Examination in Public - Legal Compliance**

**Please note** attendance at the examination in public is at the discretion of the appointed Inspector.

**If you wish to participate in the examination in public, please outline why you consider this to be necessary:**

**Tests for Soundness**

Please see the Guidance Note for an explanation of Soundness.  
*(Please select one answer for each question)*

	<b>Yes</b>	<b>No</b>
Is the Local Plan positively prepared?	<input type="checkbox"/>	<input type="checkbox"/>
Is the Local Plan justified?	<input type="checkbox"/>	<input type="checkbox"/>
Is the Local Plan effective?	<input type="checkbox"/>	<input type="checkbox"/>
Is the Local Plan consistent with national policy?	<input type="checkbox"/>	<input type="checkbox"/>

**Thinking about the tests of soundness, do you consider the Local Plan to be sound?**  
*(Please select one answer)*

Sound..... Unsound.....

**Please state why you consider the Local Plan to be sound/unsound, including references to relevant legislation, policies and / or regulations.**

**Modifications - Soundness**

**Are you proposing modification(s) to make the Local Plan sound, or to strengthen its soundness?**

*(Please select one answer)*

Yes..... No.....

**Proposed Modifications – Soundness**

You will need to say why this modification(s) will make the Local Plan sound/strengthen its soundness. It will be helpful if you are able to put forward your suggested revised wording for any policy or text and include all information and evidence necessary to support / justify your suggested change. Please be as precise as possible.

**After this stage, further submissions relating to soundness will be ONLY at the request of the Inspector, based on the matters and issues he / she identifies for examination.**

**Please set out your suggested modification(s) below**

A large, empty rectangular box with a thin black border, intended for the user to write their suggested modifications. The box occupies most of the page's vertical space below the instruction.

**Independent Examination – Soundness**

**If your representation is proposing a modification(s), do you consider it necessary to participate in the examination in public?**

*(Please select one answer)*

Yes..... No.....

**Reasons for Attending the Examination in Public – Soundness**

**Please note** attendance at the examination in public is at the discretion of the appointed Inspector.  
**If you wish to participate in the examination in public, please outline why you consider this to be necessary:**

**Duty to Cooperate**

Please see the Guidance Note for an explanation of the Duty to Cooperate.

**Do you consider the Local Plan to have met/not met the requirement of the Duty to Cooperate in accordance with section 110 of the Localism Act 2011 and section 33A of the Planning and Compulsory Purchase Act 2004?** Please note that any non-compliance with the Duty to Cooperate is incapable of modification at examination.

*(Please select one answer)*

Met..... Not met.....

**Please give details of why you consider the Local Plan has met/not met the requirements of the Duty to Cooperate?**

**Independent Examination – Duty to Cooperate**

**Do you consider it necessary to participate in the examination in public?**

*(Please select one answer)*

Yes..... No.....

**Reasons for attending the examination in public – Duty to Cooperate**

**Please note** attendance at examination in public is at the discretion of the appointed Inspector.

**If you wish to participate in the examination in public, please outline why you consider this to be necessary:**

### **Uploading/Providing Supporting Information**

Please note that you can attach files, such as a scanned map, image or other document, along with your comments. Your documents will be made public as part of the response process. Please note that we have a maximum file size of 10Mb, files larger than this may be rejected by our server.

**Local Plan: Monitoring**

**Awareness**

Were you aware that the Council is drafting a Local Plan?

*(Please select one answer)*

Yes..... No.....

**Previously responded**

Have you previously responded to any of the consultations on the Local Plan?

*(Please select one answer)*

Yes..... No.....

Please give reasons for not responding to any of the Local Plan consultations in the past?

*(Please select all that apply)*

- I didn't know about the Local Plan.....
- I don't feel I can make a difference.....
- I don't think it's relevant to me.....
- Other people are making comments on my behalf.....
- Other.....

**The Local Plan**

With regards to the Local Plan, have you:

*(Please select all that apply)*

- Understood the documents.....
- Understood what happens next.....
- Found all the information you needed.....
- Raised the points you wanted to make.....

**Consultation Awareness**

How did you find out about the consultation?

*(Please select all that apply)*

- In the media.....
- On the internet.....
- Library.....
- Word of mouth.....
- Parish Council.....

**Thank you for taking part.**

## Appendix 8: Regulation 18 Statements of Consultation

Due to the size of the Statements of Consultation set out in the Regulation 18 related, please see the documents separate which can be found by following the relevant links in the evidence and technical studies section, at: [www.tandridge.gov.uk/localplan](http://www.tandridge.gov.uk/localplan)

The following documents are relevant:

- Statement of Consultation: Issues and Approaches Consultation (2016)
- Statement of Consultation: Sites Consultation (2017)
- Statement of Consultation: Garden Villages Consultation (2018)

## Appendix 9: Our Local Plan: 2033 Schedule of Proposed Modifications

## Proposed Minor Modifications

Mod Ref	Chapter Ref	Policy Ref	Paragraph Ref	Text to be replaced/Amended	Proposed Replacement
MI1	1		<b>Foreword</b>	I would like to thank the many residents who have made comments in response to the three consultations we have held during the Local Plan process. Thousands of you have had your say, I can assure you we have listened and your input has helped shape our strategy and form the plan.	I would like to thank the many residents who have made comments in response to the three <b>Regulation 18</b> consultations <b>and the Regulation 19 consultation</b> we have held during the Local Plan process. Thousands of you have had your say, I can assure you we have listened and your input has helped shape our strategy and form the plan.
MI2	1		<b>Foreword</b>	Nationally we are facing a housing crisis. There are just not enough affordable homes for people to live in. As a council we have been tasked by the government to create a plan to deliver at least 9,400 new homes in the Tandridge district, or even 12,900 according to a newly released government metric.	Nationally we are facing a housing crisis. There are just not enough affordable homes for people to live in. As a council we have been tasked by the government to create a plan to deliver at least 9,400 new homes in the Tandridge district., <del>or even 12,900 according to a newly released government metric.</del>

MI3	1		<b>Foreword</b>	Welcome to the final draft of our Local Plan.	Welcome to the final draft of our Local Plan.
MI4	1		<b>Foreword</b>	In reality, we think the number of homes we can deliver will be nearer 6,100. This will be challenged but we have robust evidence to demonstrate this is what our district can accommodate.	Having carried out extensive evidence work and considered the rural nature of the district and the fact at the start of this process we had 94% Green Belt land, in reality, we think the number of homes we can deliver will be nearer 6,100-6,056 or 303 homes per year. This will be challenged but we have robust evidence to demonstrate this is what our district can accommodate. A new government metric target which comes into effect at the end of January 2019 will propose we need to provide 12,900 new homes or 645 homes per year.
MI5	1		<b>Foreword</b>	For the district to thrive and become a place where people want to live, work and visit, we need to tackle these issues and reverse these trends and this is why this Draft Local Plan is about far more than building houses.	For the district to thrive and become a place where people want to live, work and visit, we need to tackle these issues and reverse these trends and this is why this Draft Local Plan is about far more than building houses.

MI6	1		<b>Foreword</b>	One of our biggest challenges is the very high percentage of Green Belt land in the area. At the start of this process we had 94%. We have worked hard to find a way to protect this as best we can, while finding places for people to live. Green Belt is not just fields – it includes roads, industrial sites and areas where many of you live.	One of our biggest challenges is the very high percentage of Green Belt land in the area. <del>At the start of this process we had 94%.</del> We have worked hard to find a way to protect this as best we can, while finding places for people to live. Green Belt is not just fields – it includes roads, industrial sites and areas where many of you live.
MI7	1		<b>Foreword</b>	Putting such a plan together is a huge and complicated task and some of the decisions we have had to make have not been easy. It has taken more than three years to get to this stage. Following this consultation the Draft Local Plan will be submitted to the government for an independent inspector to examine, before it can be adopted by the Council.	Putting such a plan together is a huge and complicated task and some of the decisions we have had to make have not been easy. It has taken more than three years to get to this stage. <del>Following this consultation the Draft Local Plan will</del> <b>The Local Plan will now</b> be submitted to the government for an independent inspector to examine, before it can be adopted by the Council.
MI8	1		<b>Foreword</b>	We have identified brownfield sites (land which has previously been developed), for development within the urban areas. But we can't rely only on this type of development to meet the overall housing need targets, there just isn't enough. We have to find the right balance.	We have identified brownfield sites (land which has previously been developed), for development within the urban areas. But we can't rely only on this type of development to meet the overall housing need targets, there just isn't enough <b>of it left</b> . We have to find the right balance.

MI9	2		<b>2.10</b>	Our District is a great place to live, work and visit. To ensure the district remains a desirable and thriving place, it is essential that we set the right policies and strategies to encourage prosperity and to remain up to date in responding to the changing needs of the community and demography.	Our District is a great place to live, work and visit. To ensure the District remains a desirable and thriving place, it is essential that we set the right policies and strategies to encourage prosperity and to remain up to date in responding to the changing needs of the community and demography.
MI10	2		<b>2.30</b>	Tandridge District Council (“the Council”) has prepared a Local Plan which sets out a development strategy for the district up to 2033 in accordance with national policy and guidance. This includes the National Planning Policy Framework (2012) and accompanying Planning Practice Guidance (PPG). In addition, the plan is consistent with the statutory requirements of the Town and Country Planning (Local Planning) (England) Regulations (2012).	Tandridge District Council (“the Council”) has prepared a Local Plan which sets out a development strategy for the District up to 2033 in accordance with national policy and guidance. This includes the National Planning Policy Framework (2012) and accompanying Planning Practice Guidance (PPG). In addition, the Plan is consistent with the statutory requirements of the Town and Country Planning (Local Planning) (England) Regulations (2012).
MI11	2		<b>2.80</b>	The full or partial deletion of policies in both the current Core Strategy (2018) and the Detailed Policies (2014) document, will only take effect at the point of adopting Our Local Plan.	The full or partial deletion of policies in both the current Core Strategy (2018) and the Detailed Policies (2014) document, will only take effect at the point of adopting Our Local Plan.
MI12	3		<b>3.0</b>	<b>Have your say on Our Local Plan 2033: Consultation</b> Purpose of the Consultation: We are seeking your views on the	<del>Have your say on Our Local Plan 2033: Consultation</del> <del>Purpose of the Consultation: We are seeking your views on the soundness and legal compliance of Our Local Plan: 2033</del>

				soundness and legal compliance of Our Local Plan: 2033	
MI13	3		3.0	<b>This consultation closes at 5pm on 10 September 2018</b>	<b>This consultation closed at 5pm on 10 September 2018</b>
MI14	3		3.20	Before Our Local Plan can become formal policy it must undergo independent examination by the Planning Inspectorate, who is appointed on behalf of the Secretary of State. This Local Plan Consultation presents the final iteration of the plan which the Council proposes to submit and is the final stage of public consultation which must be undertaken in advance of submission, anticipated in late 2018.	<del>Before Our Local Plan can become formal policy it must undergo independent examination by the Planning Inspectorate, who is appointed on behalf of the Secretary of State. This Local Plan Consultation presents the final iteration of the plan which the Council proposes to submit and is the final stage of public consultation which must be undertaken in advance of submission, anticipated in late 2018.</del>
MI15	3		3.30	The consultation on Our Local Plan: 2033 was carried out to accord with Regulations 19 and 20 of the Town and Country Planning (Local Planning) (England) Regulations (2012) for 6 weeks, between 30 July 2018 and 10 September 2018.	<del>3.2 The</del> is consultation on Our Local Plan: 2033 is being was carried out to accord with Regulations 19 and 20 of the Town and Country Planning (Local Planning) (England) Regulations (2012) for 6 weeks, between 30 July 2018 and 10 September 2018.

MI16	3		3.40	New Paragraph	3.3 The feedback received from each stage of consultation has been considered and published through the relevant Statements of Consultation available on the Council's website.
------	---	--	------	---------------	---

MI17	<b>3</b>		<b>3.5 -end of chapter 3</b>	<p><b>What are we consulting on?</b>  The main purpose of the Regulation 19 consultation is to ask for comment on the legal compliance and soundness of Our Local Plan.</p> <p>Comments relating to legal compliance should be made in the context of the statutory documents set out at section 5 and predominantly relates to procedural matters. In the case of comments relating to soundness, these should be made in accordance with paragraph 182 of the National Planning Policy Framework which identifies the test of soundness of a plan including whether it has been positively prepared, whether it is justified, effective and consistent with policy. A Guidance Note, has been prepared and is available on the Council's website to explain the Regulation 19 consultation process further, and set out in more detail what soundness and legal compliance relate to. All those wishing to respond to the consultation and submit comments are advised to read the guidance note first.</p> <p>The Planning Inspectorate will focus on matters of legal compliance and</p>	All deleted

MI23	5		5.18		
MI24	5		5.21		Regulation 19 consultation process.

MI25	5		5.26	With 11 stations in the district, our residents and workers have access to wider travel including fast trains to London in just over half an hour and connections to a range of other locations including Redhill, East Grinstead and the South Coast.	With 11 stations in the <b>D</b> istrict, our residents and workers have access to wider travel including fast trains to London in just over half an hour and connections to a range of other locations including Redhill, East Grinstead and the South Coast.
MI26	5		5.31	Coast to Capital Strategic Economic Plan (SEP) <del>(2014)</del>	<b>Gatwick 360 - The Coast to Capital Strategic Economic Plan (SEP) <del>(2014)</del> (2018 - 2030)</b>

MI27	5		<p><b>5.32</b> 5.32 The Strategic Economic Plan (SEP) highlights mechanisms which can improve economic performance for businesses across the LEP region including things such as broadband and other infrastructure improvements. The LEP currently focuses on five key sectors of genuine strength and economic opportunity to ensure the area is recognised as a dynamic and thriving community of businesses. These are: Creative Digital &amp; IT, Finance and Business Services, Advanced Manufacturing and Engineering, Environmental Technologies, and Healthcare and Life Sciences. The majority of the findings of the SEP are applied through the Council's Economic Proposition, where relevant.</p>	<p>The Strategic Economic Plan (SEP) highlights mechanisms which can improve economic performance for businesses across the LEP region including things such as broadband and other infrastructure improvements. The LEP currently focuses on five key sectors of genuine strength and economic opportunity to ensure the area is recognised as a dynamic and thriving community of businesses. These are: Creative Digital &amp; IT, Finance and Business Services, Advanced Manufacturing and Engineering, Environmental Technologies, and Healthcare and Life Sciences. The majority of the findings of the SEP are applied through the Council's Economic Proposition, where relevant.</p>
MI28	5		<p><b>5.33</b> 5.33 The first Coast to Capital SEP was published in March 2014. Since then, there have been significant changes to both the Coast to Capital LEP region and the country as a whole, including the decision to leave the European Union and the publication of Government's Industrial Strategy Green Paper (2017). A new SEP is being prepared and is anticipated later in the Summer of 2018.</p>	<p><b>5.32</b> The first Coast to Capital SEP was published in March 2014. Since then, there have been significant changes to both the Coast to Capital LEP region and the country as a whole, including the decision to leave the European Union and the publication of Government's Industrial Strategy Green Paper (2017) . A new SEP is being prepared and is anticipated later in the Summer of 2018.</p>

MI29	5		5.34	New Paragraph	5.33 The LEP, in late summer 2018 updated its SEP and published 'Gatwick 360°', which replaces the 2014 plan and sets out a new vision. The document asserts that the area has become over reliant on the London labour market, overstretched rail and infrastructure, some of the highest house prices in England, as well as continued loss of employment space. The document places significant emphasis on the role played by Gatwick Airport in helping to benefit the LEP economy as a place at the geographical and economic heart of the Coast to Capital area, which fuels business, attracts employers, generates jobs and drives commerce from Croydon through Surrey to Brighton and across West Sussex and to the coastal towns.
MI30	5		5.35	New Paragraph	5.34 For Tandridge, the SEP highlights Oxted as an area which has an economic role within the LEP's wider plan. It also highlights sectors where it forecasts growth and opportunity; for Tandridge district this includes insurance and financial services, visitor economy and support services, air transport related industries, computer and consumer electronic manufacturing. The Council will continue to work with the LEP and reflect the SEP in the future iterations of the Council's Economic Proposition and delivery plan, as appropriate.

MI31	6		6.30	In particular how we have engaged on unmet housing needs, infrastructure, flooding and landscape matters and in determining the location for the Garden Community.	The Duty to Cooperate Scoping Statement and all updates should be read together to observe how we have engaged with relevant parties on strategic matters. In particular how we have engaged on unmet housing needs, infrastructure, flooding and landscape matters and in determining the location for the Garden Community.
MI32	6		Duty to Cooperate Table	Additional entries and updates	Additional entries and updates

MI33	7		7.30	<p>Gatwick Airport is located just a few miles to the south-west of the District border, and a number of more recreational and private aviation facilities are located just beyond the boundaries including Redhill Aerodrome and Biggin Hill Airport. Kenley Aerodrome is also just north of the district boundary and is used primarily for light aircraft and gliders.</p>	<p>Gatwick Airport is located just a few miles to the south-west of the District border, and a number of more recreational and private aviation facilities are located within, or just beyond the boundary just beyond the boundaries including Redhill Aerodrome and Biggin Hill Airport. MI34	7		7.40	<p>There are no high-order hospitals (i.e. that include Accident and Emergency departments) located within the District and residents need to travel to neighbouring facilities at East Surrey Hospital, Crawley, Sevenoaks and Epsom to receive urgent and/or complex medical care.</p>	<p>There are no high-order hospitals (i.e. that include Accident and Emergency departments) located within the District and residents need to travel to neighbouring facilities at East Surrey Hospital, Crawley, Sevenoaks, Bromley and Epsom to receive urgent and/or complex medical care. However, there is a well used minor injuries unit within the Caterham Dene Community Hospital at Caterham.</p>

MI35	7		7.50	The District has a long-standing history of having the the highest percentage of Green Belt of any authority in England.	The District has a long-standing history of having the <del>the</del> highest percentage of Green Belt of any authority in England.
MI36	8		<b>Homes and Economy, 5th bullet point</b>	Caterham has been particularly affected by this and the Council will be carefully monitoring the losses and gains of employment pace as part of the Authorities Monitoring Report which will be carried out annaully.	Caterham has been particularly affected by this and the Council will be carefully monitoring the losses and gains of employment pace as part of the Authorities Monitoring Report which will be carried out <del>annaully</del> <b>annually</b> .

MI37	8		<b>Homes and Economy, Fourth bullet point</b>	Our resident population is highly skilled, but over 70% commute to work outside of our District, meaning we have notably low self-containment, where residents work within the district in which they live.	Our resident population is highly skilled, but over 70% commute to work outside of our District, meaning we have notably low self-containment, where residents work within the <b>D</b> istrict in which they live.
MI38	8		<b>Infrastructure, second bullet point</b>	The District is well-served by and in proximity to nationally significant infrastructure such as the M25, M23 and Gatwick Airport. But much of our more local transport network (A22, A25, railway stations and rural roads) have capacity issues and are subject to congestion and service disruption.	The District is well- <b>located</b> <del>served by and in proximity</del> to nationally significant infrastructure, <b>parts of the M25 and M23 are within the District and Gatwick Airport is located just outside to the south west.</b> <del>such as the M25, M23 and Gatwick Airport. But much of our more local transport network (A22, A25, railway stations and rural roads) have capacity issues and are subject to congestion and service disruption.</del> <b>The A22, A25, railway stations and rural roads all form part of the local transport network. The majority of these have capacity issues</b> and are subject to congestion and service disruption.

MI39	8		<b>Retail and Leisure, first bullet point</b>	Surrounding town centres such as Croydon, Crawley and Redhill, offer much competition and offer a wider retail choice and different leisure experiences including a multiplex cinema and bowling alleys.	Surrounding town centres such as Croydon, Crawley, <b>Bromley</b> and Redhill, offer much competition and offer a wider retail choice and different leisure experiences including a multiplex cinema and bowling alleys.
MI40	8		<b>Retail and Leisure, Second Bullet point</b>	Further, due to the rural nature of the district, there are some unsympathetic leisure uses such as paint-balling and quad-biking.	Further, due to the rural nature of the <b>D</b> istrict, there are some unsympathetic leisure uses such as paint-balling and quad-biking.

MI41	8		<b>The Environment and Heritage, second bullet point</b>	Tandridge is home to a varied landscape consisting of two Areas of Outstanding Natural Beauty (the Surrey Hills and the High Weald), over 250 Sites of Nature Conservation Interest (SNCI) and potential SNCI (pSNCI) and multiple Sites of Specific Scientific Interest (SSSI). It is also in proximity to two areas of influence of European Protected Habitats (the Ashdown Forest and the Mole Gap to Reigate Escarpment).	Tandridge is home to a varied landscape consisting of two Areas of Outstanding Natural Beauty (the Surrey Hills and the High Weald), over 250 Sites of Nature Conservation Interest <b>Importance</b> (SNCI) and potential SNCI (pSNCI) and multiple Sites of Specific Scientific Interest (SSSI). It is also in proximity to two areas of influence of European Protected Habitats (the Ashdown Forest and the Mole Gap to Reigate Escarpment).
MI42	8		<b>Wellbeing and safety, third bullet point</b>	The effects of climate change will increase the likelihood and severity of flood events in Tandridge and the wider area. Due to the rural nature of the district, some communities are at risk of isolation in extreme events and both Caterham and Smallfield have experienced this already. Air quality is an issue, particularly arising from traffic and congestion on the strategic and local road network, amplified by a large reliance on private vehicular transportation.	The effects of climate change will increase the likelihood and severity of flood events in Tandridge and the wider area. <b>Caterham and Smallfield have experienced severe flooding in recent years.</b> Due to the rural nature of the <b>D</b> istrict, some communities are <b>particularly</b> at risk of isolation in extreme events., <del>and both Caterham and Smallfield have experienced this already.</del>

MI43	10		10.10	ensure this Vision can be achieved, the following Spatial Objectives have been identified.	To ensure this Vision can be achieved, the following Spatial Objectives have been identified.
MI44	10		SO1	Rural businesses and the rural economy will continue to be seen as an asset to the district and their often unique requirements, and need to be close to customers, will be respected.	Rural businesses and the rural economy, including farming and agriculture will continue to be seen as an asset to the District, where appropriate. and their often unique requirements, and need to be close to customers, will be respected.

					Ensure that development avoids and mitigates flood risk in the District, incorporating Sustainable (urban) Drainage Systems (SDS/SuDS) and contribute to wider flood risk management objectives, where possible.
MI46	10		SO17	Work with partners and service providers to ensure the delivery of improved infrastructure, services and facilities to meet the needs of the district across the plan period and to ensure that the provision of new or enhanced infrastructure matches need as it arises.	Work with partners and service providers to ensure the delivery of improved infrastructure, services and facilities to meet the needs of the District across the plan period and to ensure that the provision of new or enhanced infrastructure matches need as it arises.

MI47	10		<b>SO4</b>	New homes will diversify the existing housing stock in the district, in terms of size and type (e.g. allowing for a range of family housing, entry level homes and opportunities to downsize) and in response to identified needs.	New homes will diversify the existing housing stock in the <b>D</b> district, in terms of size and type (e.g. allowing for a range of family housing, entry level homes and opportunities to downsize) and in response to identified needs.
MI48	10		<b>SO7</b>	Encourage healthier and stronger communities across the district, by ensuring sufficient access to quality parks, open spaces, sports and community facilities and to protect the spaces and facilities that serve the needs of residents.	Encourage healthier and stronger communities across the <b>D</b> district, by ensuring sufficient access to quality parks, open spaces, sports and community facilities and to protect the spaces and facilities that serve the needs of residents.
MI49	10		<b>SO9</b>	Continue to support high quality design that respects the existing character of settlements and consider higher densities where appropriate.	Continue to support high quality design that respects <b>and positively adds to</b> the existing character of settlements and consider higher densities where appropriate.

MI50	11	TLP 01		Our Local Plan will provide 6,056 homes within the Plan period to 2033. These new homes will be of varying types, sizes and tenure and include much needed affordable homes that are attainable to all areas of our community and those of varying incomes. In the short to medium term development is directed towards the most sustainable settlements which are our urban (Tier 1) and semi-rural service settlements (Tier 2) (See TLP06 and TLP07).	Our Local Plan will provide 6,056 homes within the Plan period to 2033. These new homes will be of varying types, sizes and tenure and include much needed affordable homes that are attainable to all <del>areas</del> <b>sections</b> of our community and those of varying incomes. In the short to medium term development is directed towards the most sustainable settlements which are our <b>most built-up urban (Urban - Tier 1)</b> and semi-rural service settlements (Tier 2) (See TLP06 and TLP07).
MI51	11	TLP 01		*A further 2,600 homes will be delivered beyond the plan period (See Policy SGC1: South Godstone Garden Community).	*A further 2,600 homes will be delivered beyond the plan period (See Policy SGC01: South Godstone Garden Community).
MI52	11	TLP 01		Our Local Plan identifies a broad location to indicate where the principle of development is established which will be underpinned by an Area Action Plan.	Our Local Plan identifies a broad location to indicate where the principle of development is established <b>but which will require an alteration to the Green Belt boundary. The details of the Garden Community, the layout and design of the development as well as the alteration to the Green Belt</b> <del>which</del> will be underpinned by an Area Action Plan.

MI53	11		11.10	A spatial strategy is at the heart of a Local Plan and the approach that underpins the entire future planning framework for a district or borough. A spatial strategy sets out: the level of development a Local Authority will provide, the locations which will be the focus for development, the areas that will be avoided, protected and enhanced, the approach to environmental betterment and any other steps that will be utilised to ensure all this happens.	A Sspatial Sstrategy is at the heart of a Local Plan and the approach that underpins the entire future planning framework for a district or borough. A Sspatial Sstrategy sets out: the level of development a Local Authority will provide, the locations which will be the focus for development, the areas that will be avoided, protected and enhanced, the approach to environmental betterment and any other steps that will be utilised to ensure all this happens.
MI54	11		11.12	However, town centres will remain the focus for office development as far as is practicably possible and we will still need to remain cognisant of change and loss and be flexible in our approach to supporting employment space.	However, town and local centres will remain the focus for office development as far as is practicably possible and we will still need to remain cognisant of change and loss and be flexible in our approach to supporting employment space.
MI55	11		11.20	The spatial strategy set out at TLP01 is one which has continued to be informed by rigorous evidence gathering and accords with government requirements, national policy and legislation.	The Sspatial Sstrategy set out at TLP01 is one which has continued to be informed by rigorous evidence gathering and accords with government requirements, national policy and legislation.

MI56	11		<b>Relevant Monitoring Indicator</b>	New indicator added	Net number of new dwellings in flood zones.
MI57	14	TLP 03		Further changes to the Green Belt boundary will only take place for the South Godstone Garden Community and through the preparation of an Area Action Plan.	Further changes to the Green Belt boundary will only take place for the South Godstone Garden Community, within the Area of Search, identified in Chapter 33 of Our Local Plan: 2033 and through the preparation of an Area Action Plan.
MI58	14		14.60	Given the complexity of creating a new community at the scale anticipated (See Policy SGC1) the details and specific matters of the development are not something that can be, nor should they be, quickly determined.	Given the complexity of creating a new community at the scale anticipated (See Policy SGC01) the details and specific matters of the development are not something that can be, nor should they be, quickly determined.

					Progress on the delivery of infrastructure will be monitored and the Infrastructure Delivery Plan (IDP) will be updated to reflect changes in infrastructure need, <b>for example</b> to highlight where projects have been delivered and to identify alterations to funding levels and sources. The IDP will be a 'living document' and sit alongside our development plan <b>which will include</b> <del>and</del> the subsequent South Godstone Garden Community Area Action Plan (AAP). <del>Any a</del> Applications should <b>must</b> demonstrate mechanisms to provide infrastructure set out in the most up-to-date iteration of the IDP.
MI60	15	TLP 04			Community Infrastructure Levy will be utilised to fund strategic infrastructure <del>such as expansions to GP and educational facilities</del> , as appropriate and on reflection of the Council's <b>current and future</b> strategic funding priorities.
MI61	15	TLP 04			Planning permission will be granted for development <del>in accordance with the phasing set out against each land allocation</del> , subject to <del>solutions to</del> infrastructure constraints being resolved in agreement with the Local Planning Authority. <b>Infrastructure should be provided prior to commencement, where appropriate. Every effort should be made to Development will be phased phase development alongside in relation to the delivery of infrastructure so as to and/or performance against targets to reduce demands on all associated infrastructure as far as is practicably possible.</b>

MI62	15	TLP 04		Applicants will either make on-site provision, or will contribute towards the provision of local and strategic infrastructure required by development, either alone or cumulatively with other developments. These contributions will be required in accordance with the IDP, Community Infrastructure Levy and other relevant financial agreement.	These contributions will be required in accordance with the IDP, <b>unless an alternative arrangement is agreed with the Local Planning Authority.</b> <del>Community Infrastructure Levy and other relevant financial agreement.</del>
MI63	15	TLP 04		The Council would expect to be proactively involved in the early discussions between applicants and infrastructure providers, where relevant, to limit any potential delay to the overall application and delivery process. Applicants will also be expected to share any viability work they have had carried out early on in the application process, including at pre-application stage where available.	The Council would expect to be proactively involved in the early discussions between applicants and infrastructure providers, where relevant, to limit any potential delay to the overall application and delivery process. Applicants <del>will also be expected</del> <b>are advised</b> to share any viability work they have had carried out early on in the application process, including at pre-application stage where available.
MI64	15	TLP 04		New paragraph added after first paragraph	<b>As development proposals progress through the development management process, the need for further mitigation measures could emerge, in addition to those required in the Housing Allocations policies. The policy requirements for specific contributions do not preclude the need to fund further mitigation measures that may be identified at a later stage as being required to make the development acceptable in planning terms.</b>

MI65	15	TLP 04		New section added	The Council will take a proactive role to delivery policy objectives, including through the use of statutory powers if needed and where possible.
MI66	15		15.30	Infrastructure gains will be achieved through a variety of measures including on-site provision -funded and delivered by applicants, developer contributions, including Section 106 and Community Infrastructure Levy (CIL). Other funding streams such as Government Funding, where it is available will also be sought, where applicable.	Infrastructure gains will be achieved through a variety of measures including on-site provision - funded and delivered by applicants, developer contributions, including Section 106 and Community Infrastructure Levy (CIL). <b>Where both s106 and CIL are sought on sites; Tandridge District Council's Planning Obligations and CIL guidance note provides advice on how both of these will be used together.</b> Other funding streams such as Government Funding, where it is available will also be sought, where applicable.
MI67	15		15.70	In preparing the Local Plan, the District Council has worked with Surrey County Highways Authority and Highways England, rail related bodies, bus peraters and adjoining authorities where appropriate, to develop the most appropriate package of transport measures to support development growth and ensure sustainability and climate change benefits are delivered in practice.	In preparing the Local Plan, the District Council has worked with Surrey County Highways Authority and Highways England, rail related bodies, bus <del>operators</del> <b>operators</b> and adjoining authorities where appropriate, to develop the most appropriate package of transport measures to support development growth and ensure sustainability and climate change benefits are delivered in practice.

MI114	18		<b>18.13</b>	The updated SHMA: Affordable Housing Needs Assessment Technical Paper (2018) (part of the wider SHMA 2018 report) highlights that the need for affordable units is most acutely found within the urban (tier 1) settlements of the District.	he updated SHMA: Affordable Housing Needs Assessment Technical Paper (2018) (part of the wider SHMA 2018 report) highlights that the need for affordable units is most acutely found within <del>the urban</del> <b>our most built-up</b> (tier 1) settlements of the District.
MI115	18		<b>18.17</b>	However, it is accepted that viability can be more of an issue in urban areas.	However, it is accepted that viability can be more of an issue in <del>urban</del> <b>the most built-up</b> areas.
MI116	18		<b>18.24</b>	The nature of a rural exception site is that they are reflective of a rural setting in terms of their scale. As such, development of no more than 20 units will be considered eligible as a rural exception site. This threshold is determined on reflection of past permissions for rural exception sites and ensures consistency. However, sites of 20 units may not be considered suitable in all locations, particularly in the less established areas where service provision is particularly low.	The nature of a <del>rural exception site</del> <b>Rural eException sSite</b> is that they are reflective of a rural setting in terms of their scale. As such, development of no more than <del>20</del> units will be considered eligible as a <del>rural exception site</del> <b>Rural eException sSite</b> . This threshold is determined on reflection of past permissions for <del>rural exception sites</del> <b>Rural eException sSites</b> and ensures consistency. However, sites of 20 units may not be considered suitable in all locations, particularly in the less established areas where service provision is particularly low.

MI117	<b>18</b>		<p><b>18.28</b> As set out in the updated Affordable Housing Needs Assessment Technical Paper (2018) (part of the wider SHMA 2018 report) the higher levels of housing need, particularly affordable need, is primarily experienced in our urban settlements. While our Local Plan allocates new sites for housing provision which will provide for local people, there will also be an opportunity for those out of district and who may be better financed to purchase market housing. In addition, as discussed within Section 18: Providing Homes for All, providing affordable homes within existing built areas can be challenging when it comes to viability and even though other non-urban developments of a certain size and over, will be required to provide 40% affordable homes, the level of development anticipated in our Plan will still not enable us to meet our affordable needs in full. By allowing our most sustainable settlements to also have an opportunity to secure affordable homes for people with an established local connection where justified through rural exceptions policy, we can respond more flexibly to the justified housing needs of all.</p>	<p>As set out in the updated Affordable Housing Needs Assessment Technical Paper (2018) (part of the wider SHMA 2018 report) the higher levels of housing need, particularly affordable need, is primarily experienced in our urban <del>urban</del> <b>most built-up</b> settlements. While our Local Plan allocates new sites for housing provision which will provide for local people, there will also be an opportunity for those out of <del>ed</del> District and who may be better financed to purchase market housing. In addition, as discussed within Section 18: Providing Homes for All, providing affordable homes within existing built areas can be challenging when it comes to viability and even though other non-urban developments of a certain size and over, will be required to provide 40% affordable homes, the level of development anticipated in our Plan will still not enable us to meet our affordable needs in full. By allowing our <del>most sustainable</del> settlements to also have an opportunity to secure affordable homes for people with an established local connection where justified through rural exceptions policy, we can respond more flexibly to the justified housing needs of all.</p>

The full or partial deletion of policies in both the current Core Strategy (2018) and the Detailed Policies (2014) document, will only take effect at the point of adopting Our Local Plan.
MI455	Glossary		<b>Built- Up Area</b>	New addition to the Glossary	<b>Built-Up Area:</b> The built-up area refers to the developed nature of a settlement. For Tandridge, our most built-up settlements are the Tier 1 (Urban) Settlements, including Oxted and Caterham. Whilst there is a built-up nature to all established settlements, including the smaller and more rural settlements, the term 'built-up' is predominantly attributed to our largest (tier 1) settlements for Local Plan purposes.

				Once consultation has been undertaken on the submission version of the plan, the local planning authority should submit the Local Plan and any proposed changes it considers along with supporting documents to the Planning Inspectorate for examination on behalf of the Secretary of State.	version of the pPlan, the local planning authority should submit
MI457	Glossary		<b>IDP</b>	The Infrastructure Delivery Plan (IDP) identifies the key infrastructure required to support development within the District over the plan period and how it will be delivered.	The Infrastructure Delivery Plan (IDP) identifies the key infrastructure required to support development within the District over the pPlan period and how it will be delivered.
MI458	Glossary		<b>LNR</b>	Non-statutory habitats of local significance designated by local authorities where protection and public understanding of nature conservation is encouraged.	<del>Non-statutory habitats</del> Sites of local significance designated by local authorities where protection and public understanding of nature conservation is encouraged.
MI459	Glossary		<b>Material Consideration</b>	New addition	A material consideration is an issue that must be considered by the decision maker when determining a planning application. Material considerations can include, but are not exclusive to, policies, guidance notes, strategies and management plans. As well as issues relating to traffic, wildlife, economic impacts and the historical interest of the area. Material considerations often vary depending on the type of application being considered.
MI460	Glossary		<b>Multi- User Routes</b>	New addition to the Glossary	Off-road routes, pathways etc which could and should accommodate all and/or a variety of non-engine based, vulnerable road users, including equestrians, cyclists, pedestrians and mobility buggy users.

MI461	Glossary		<b>Neighbourhood Plans</b>	A plan prepared by a Parish Council or Neighbourhood Forum for a particular neighbourhood area (made under the Planning and Compulsory Purchase Act 2004).	A plan prepared by a Parish Council or Neighbourhood Forum for a particular neighbourhood area (made under the Planning and Compulsory Purchase Act 2004).
MI462	Glossary		<b>SNCI</b>	Locally important sites of nature conservation adopted by local authorities for planning purposes.	<del>Locally important sites of nature conservation adopted by local authorities for planning purposes.</del> A non-statutory site, locally designated for its substantive nature/wildlife/biodiversity conservation value and protected by planning policy.
MI463	Glossary		<b>Source Protection Zones</b>	New addition	<b>(Groundwater) Source Protection Zones:</b> Source Protection Zones are defined by the Environment Agency and are in place to protect sources of groundwater. Zone 1 (Inner Zone)- Defined as the 50 day travel time from any point below the water table to the source. This zone has a minimum radius of 50 metres; Zone 2 (Outer Zone) - Defined by a 400 day travel time from a point below the water table. Zone 3 (Total Catchment) - Defined as the area around a source within which all groundwater recharge is presumed to be discharged at the source. In confined aquifers, the source catchment may be displaced some distance from the source.
MI464	Glossary		<b>Substantially Developed Frontage</b>	New definition	<b>Substantially Developed Frontage:</b> The District Council defines a substantially developed frontage as an otherwise continuous and largely uninterrupted built frontage of several dwellings visible within the street scene.
MI465	Glossary		<b>SuDS</b>	Sustainable Urban Drainage Systems	Sustainable Urban Drainage Systems

MI466	Glossary		<b>SWOT</b>	SWOT Analysis	Strengths, Weaknesses, Opportunities and Threats Analysis
MI467	Glossary		<b>Technical Studies</b>	<b>Technical Studies:</b> A range of detailed, evidence-based documents produced to support the Garden Villages Consultation and development.	<b>Technical Studies:</b> A range of detailed, evidence-based documents produced to support the <del>Garden Villages Consultation</del> and wider Local Plan and its preparation. development.
MI468	Glossary		<b>Urban</b>	New addition	<b>Urban:</b> An urban area relates to settlements with a notable density of human structures such as houses, commercial buildings, roads, railways, infrastructure and retail facilities. Although 'urban' is often attributed to the description of towns and cities, it can also refer to suburbs and smaller settlements dependent on the size of the population, the geographical context of a settlement, as well as the function it serves. As set out in the Council's Settlement Hierarchy, whilst Tandridge District is a predominantly rural area, the application of the term 'urban' is applied to the Tier 1 settlements, as the largest and most built-up areas within the district and those which act to provide key services to residents and visitors. Also see Built-up
MI469	Policies Map			Wholesale update	Updated to make easier to read and update basemapping
